Warning

- The prolonged use of earphones or headphones at loud volume levels may cause permanent hearing damage.
- Do not use the headphones while driving or cycling for safety.

- Do not apply weight or pressure on the headphones.

How to Use the SY-CM2PC

- Adjust the head band into a suitable size to fit the users head.
- Place the headphones over your head according to the markings on the sides - R on your right ear and L on your left ear.
- Connect the headphone to the computer by inserting the microphone jack (orange) into the microphone slot on your computer/laptop, and the Headphone jack (green) into the headphone slot on your computer/laptop.
- To adjust the volume to a comfortable level use the volume control button located on the cable.

Precaution

- Clean the headphones with a soft dry cloth
- Always keep the jacks clean and free from dust.
- Don't expose the headphones to direct sunlight, heat, and moisture.
- If for any reasons you feel uneasy, drowsy or experience a headache, immediately stop using the headphones.
