

SOUNDSATION GN250 - professional gooseneck condenser microphone features:

- Back-electred capsule with hypercardioid directivity for max isolation of source voice from ambience.
- High sensitivity and wide frequency response range
- LED ring power indicator
- Double gooseneck construction for flexible positioning

Application: conference, broadcasting, public address, communication, home recording.

Specifications:

Transducer Principle: Electrostatic Condenser

Directivity Characteristic: Hypercardioid

Frequency Response: 50Hz-16 kHz

Sensitivity: -38dB±3dB (0dB=1V/Pa at 1 kHz)

Output Impedance: 250Ω±30% (at 1 kHz)

Power Requirements: 9-52V DC Phantom Power

Length: 515mm

Frequency Response Graph:

HOW TO BEST USE THE MICROPHONE

1. Connect the microphone directly with the XLR Cable: swivel the cable's XLR and make sure it rightly fits XLR connector of the microphone, then press the cable's XLR into the microphone. If the microphone works with the base, please plug the microphone into the base first, and then connect the base with the XLR Cable.
2. Please put on the assorted windscreen while using the microphone, for it can help protect both the microphone and capsule from damage and reduce the wind noise and sound feedback effectively. Keep the windscreen free from dust, which may influence the frequency response of the microphone. Please wash the windscreen timely, and make sure it is completely dry before use.
3. If the head of the microphone is covered by hand or brought close to the speaker, a howling sound may be generated. To prevent this, first decrease the volume, then replace the microphone so that it is not pointed to the speaker and make sure there is a sufficient distance between the microphone and speaker.
4. Due to the high sensitivity of the cartridge, do not drop it from high or apply strong shock to it.
5. To maintain the sensitivity and quality of sound reproducing, avoid exposing it to moisture and extreme temperatures.

WARRANTY AND SERVICE

All SOUNDSATION products feature a limited two-year warranty. This two-year warranty is specific to the date of purchase as shown on your purchase receipt.

The following cases/components are not covered from the above warranty :

- Any accessories supplied with the product
- Improper use
- Fault due to wear and tear
- Any modification of the product effected by the user or a third party

SOUNDSATION shall satisfy the warranty obligations by remedying any material or manufacturing faults free of charge at SOUNDSATION's discretion either by repair or by exchanging individual parts or the entire appliance. Any defective parts removed from a product during the course of a warranty claim shall become the property of SOUNDSATION

While under warranty period, defective products may be returned to your local SOUNDSATION dealer together with original proof of purchase. To avoid any damages in transit, please use the original packaging if available. Alternatively you can send the product to SOUNDSATION SERVICE CENTER – Via Enzo Ferrari , 10 – 62017 Porto Recanati - Italy . In order to send a product to service center you need an RMA number. Shipping charges have to be covered by the owner of the product.
