# Cautions

- Do not subject the device to severe impact or drop it from high position.
- Do not use the player in extreme hot or cold, dusty or damp field. Do not expose it to direct sunshine.
- Back up the data frequently in case of accident data loss.
- Avoid using the player in strong magnetic field.
- Keep the device away from water or other liquids. In the event that water or other liquids enter the device, power off the product immediately, and clean the device.
- Do not use chemical solutions to clean the device in order to avoid corrosion. Clean it with a dry cloth.
- We are not responsible for damages or lost data caused by malfunction, misusing, repairing the device or battery replacement.
- Do not attempt to disassemble, repair or modify the product. This will invalidate guarantee.
- The design of the player or actual display may be different from what is shown in this manual. It should be subject to the actual display or design.

# Notice

- Please charge the unit when any of the following cases occur:
  - The logo 🗔 appears and displays: low battery
  - The player turns off automatically, and turns off again after rebooting.
  - The keys become inactive
- Please disconnect the player from PC properly to avoid data loss.
- The transfer rate displayed on the PC may be different depending on the operating system. Exact transfer rate should be subject to the player's indication.

# **Key Features**

- 2.8-inch 320x240 dot matrix color TFT display
- Touch screen
- MP3&WMA player
- Support APE/FLAC lossless music format
- AVI video player
- JPEG image viewer
- Folder navigation
- Voice recorder
- FM tuner
- FM encoding
- Removable storage device
- MicroSD card slot
- Built-in rechargeable lithium-ion battery
- Customized settings
- Built-in speaker

# System Requirements

- Hardware:
  - IBM PC & Compatible PC, Notebook with USB interface
- Operating System: Windows ME, Windows2000/XP, Windows Vista

# Package Content

Please check the package for the following items. If any one of them is missing, please contact the vendor:

- Main Unit
- Earphones
- USB cable
- Neck strap
- Basic Operation Manual
- User Manual (on CD)
- CD with Software

# Before Using

### Driver

This player is plug & play for WIN2000/XP/ME/Vista OS.

### Connect to a PC and download audio files

To connect the player with the PC for transferring files:

- 1. Plug the larger end of the USB cable to the USB port of the PC, and plug the smaller end to the USB port of the player.
- 2. When the "Set icon appears at the right bottom of the PC screen, double tap "My Computer" on the desktop, you see a removable disk which indicates the player. Just use the removable disk as a regular local disk, copying files from or to it.

### Removing the player from the PC safely

### For Windows2000/XP

- 1. Left tap the 🗳 icon at the right hand corner of the taskbar.
- 2. Tap the pop-up mini-window with message of "Safely Remove the USB Mass Storage Device – Drive (X:, Y:)".
- 3. When you are prompted to remove the device, pull out the player.

### Charging the battery

The device has a rechargeable built-in lithium-ion battery. It is charged via USB connection. You are required to charge it when you use it for the first time.

To charge the battery, connect the larger end of the USB cable to the USB interface of PC, and connect the other smaller end of the USB cable to the USB interface of this player. The device is connected to PC and being charged. If you want to know the charge progress, disconnect the device safely by tapping the "S" icon. You see an animating battery icon indicating charge progress. When the icon becomes green, the battery is fully charge. After disconnecting from the PC the player switches on automatically.

#### Notice: The device is not available during charging.

#### Note:

For maximum performance, lithium-ion batteries need to be used often. If you don't use the device often, be sure to recharge the battery at least once per month.

# **Keys Description**

The icons on the touch screen are tapped with a pen.

# Power 0n/0ff

### To power on:

- 1. Switch on the POWER button (5).
- 2. Press and hold the  ${igodot}$  key (4) until you see prompt on the display.

#### To power off:

- 1. Press and hold the 0 key (4) until you see prompt on the display.
- 2. Switch off the POWER button (5).

#### Note:

This player has a power-saving feature which enables the device to power off automatically if it is idle for about 10 minutes.

# Main Interface

After the player is switched on the main menu is activated. The icons on the touch screen are tapped with a pen.

In the main interface, tap  $\blacktriangleleft$  or  $\blacktriangleright$  with the pen in the main interface to select the menus. After the desired sub-menu is displayed you have to tap into the middle of the graphic (not the text) to get into the respective menu.

It is possible to go back to the main menu by tapping on the 🖾 icon on the upper border of the left icon bar.

### Audio playback

Select "Music" in the main menu, and tap the music icon to enter. The player starts playback automatically.

Operation on buttons

Tap "H4/H4" icon to select files. Keep on tapping the "H4/H4" icon to REW/FF.

# MicroSD Card Slot

After connecting the player to the computer, you will find two portable devices. One is the built-in memory device and the other one is the device associated to the MicroSD card.

The player supports direct playing of songs/videos on MicroSD cards. Insert the card into the slot. The contacts have to be arranged in the direction of the screen.

To use a memory card:

- 1. Call the main menu (tap on the 🕼 icon on the upper border of the left icon bar).
- 2. Select **Explorer** and tap on the graphic.
- 3. In the folder browser mode, you see two folders named Flash Memory and T-Flash. To play the audio/video files stored on the memory card, access the T-Flash folder. Confirm with Enter. Now you have access to the files on the memory card as usual.

To take out the card, push the card slightly into the case. After it is ejected partially you can take it out.

**Note:** Please don't insert in or take out when the player is powered on. Otherwise, it will cause file loss.

# Lock function

Tapping on activate key locking. In music or voice play mode, or listening to FM radio, the screen will display a lock icon. To unlock the keys you have to tap on again (the lock is shown unlocked).

# Convert and Play Video Files (Windows Vista coming soon)

Before you download videos to the device, make sure they are AVI files and can be played by the device. If not, convert them using the included converting tool on the driver CD. The following steps show how to convert.

### Install the AVI Converter

- 1. Insert the provided installation disk into the CD-ROM drive, select and run "AVIConverter Setup.exe" program, enter installation interface, then click [Next >] button to display as follows:
- 2. Click [I Agree].

- 3. After selecting the installation routine, click [Install] button until the completion of installation.
- 4. After the installation, click [Finish] button to finish the software installation.

### Conversion

You can convert the formats AVI, MPG, MPEG, RM, RMVB, WMV, DAT into AVI video format via the provided video convert software.

1.1	Run	the	"AVIConverter"	program.
-----	-----	-----	----------------	----------

AVIConverter	3.0				
Target File Path	Target File Name	Progress	Status	Resolution	Qual
Del Conv		Stop		Close	
		Avi/Converser 3:0 Target File Path Target File Name			

2. Click **Add** and select the input file. At this point, file name will not be changed except for the extension (.AVI). Information on both the Input and the Output file will be displayed in the window.

	Conversion Settin

# Digital Rights Management File (DRM9) Protection

This player supports DRM9 file protection (WMA), to play DRM9 protected files:

- 1. Download songs protected by DRM9 from relevant websites to your PC or notebook.
- 2. Open the downloaded files using Windows© Media Player. Follow the instructions from Windows© Media Player to play back the files.
- 3. Connect the player to PC or notebook by USB cable.
- 4. Copy the DRM9 protected songs to the player using Windows© Media Player. In Windows© Media Player use "Copy to CD or Device" to copy the files to the MP3 Player.
- 5. Playback files on player as described in this User Manual.

## Firmware Upgrade (Windows Vista coming soon)

The firmware of player can be upgraded by the upgrade tool in the enclosed CD.

### **Operations:**

- 1. Run the ConsumerSetup2.4.0.exe in the enclosed CD.
- 2. Click "Next" as per the promotion on the dialog box. In the "browsing" option of the fourth dialog box, select the "upgrade fool" folder of the enclosed CD, and click "OK" to confirm.

# Troubleshooting

#### 1. Failure to start/No response on buttons/Player freezes

- Check if the POWER SWITCH is on the position of "ON", and check the power of battery;
- Push the power switch to the direction of OFF and push it to ON again. Press POWER ON/OFF button  $\bullet$  to turn on the player.
- If it still fails to start after charge, please contact our customer service center.

#### 2 No voice in the earphone

- Please check the volume is 0 or not;
- Please check the connection of the earphone.

#### 3. Serious noise

- Please check whether the pin of the earphone is dirty or not, as the disorders could cause noise.
- Please check whether the music file is broken or not. You could try to play another music file. If the file is damaged, it could cause serious noise or pause.

#### 4. Display clobber on the screen

 Please check whether the language is properly selected or not, and please enter Setting \System \Language to set the language.

#### 5. Download file failure

- Be sure the connection between computer and player is properly arranged;
- Check whether the memory is used up or not;
- Check whether the USB cable is broken or not.

#### 6. Do not support WMA format music

 The player does not support WMA format music files which bit rate lower than 64kbps.
