If any problems occur  
please contact our technical support team at  
**844.400.8746**

**Note:**

- The playback times listed refer to the maximum playback times possible, using the best power savings. The actual playback time may differ as adjustments to screen brightness, power savings modes, volume, etc are made.
- As there are many brands of Micro SD cards in market, using different quality and speed standards. Therefore, we are unable to guarantee that our product will be compatible with all types or brands of Micro SD cards, but will be compatible with those Micro SD cards with mainstream specifications in the market, and we will constantly strive to provide the largest selection of cards possible.

●As parameters such as formats, bitrate, codecs, framerates, and resolutions differ, the player will not be compatible with all listed files. If you are experiencing issues playing your files on this player, we recommend using a supported conversion tool to reconvert your file to the specifications of the device.

### **Caution**

Modifications not approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE- This equipment has been tested and found to comply with the limits for Class B Digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or telephone reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and the receiver

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

### **Caution**

- Do not use the player in exceptionally cold or hot, dusty, damp or dry environments.
- Do not drop, strike, or throw your player. Physical damage to your player will void ALL warranties.
- Please charge your battery when:
  1. Battery power icon shows an empty icon;

2. The system automatically shuts down and the power is soon off when you switch on the unit once again;
  3. There is no response if you operate on any button.
- Please always follow the correct disconnect procedures for your operating system. Do not disconnect power abruptly when the player is being formatted or in the process of uploading or downloading files. Otherwise it may lead to file corruption, firmware failure, and even hardware damage.
  - We are not liable for any loss of data stored on this device.
  - Please do not dismantle this player. Any disassembly not done by an authorized technician will void ALL warranties.
  - This product and manual are subject to change without notice.
  - Due to firmware changes, OS changes, and application installation, the images and instructions listed in the manual may vary from the items you see on your player.
  - We can NOT support any third party software programs on this player. For assistance with any applications, please refer to the application manufacturer.

## 1. Basic Operations

### Powering ON and OFF

**Power on:** Press and hold the power button for 3 seconds.

**Power off:** Press and hold the power button for 3 seconds.

### Power monitoring and charging

You can see the battery icon  in the upper right hand corner of most screens and monitor battery capacity , when the power runs out, the device will automatically turn off. When the screen shows low battery, users can use the computer to charge , it takes approximately 4 hours to fully charge.

### Reset

You can reset the player by pressing the reset button, located inside the reset hole.

### Connecting to your computer and loading files

Attach your USB cable to your computer, and then the player. Select “Turn on USB storage” on the device, it will be recognized in the “Computer” or “My Computer” section of your PC as an “ECL Tablet” player. Simply open this drive and drag your files to the appropriate folders.

*Please note* that MAC operating systems will display the drive on the desktop and in your listed devices.

3. Tap language, and select the language you want. There are 60 languages to choose from.

## **7.7. About the tablet**

System update

**Note- This setting is for advanced users only. If done improperly, your device may be damaged, as well as your data erased. Please exercise caution when updating.**

## **8. Installing Applications**

### **8.1 Installation**

**Install the third part application procedure**

**While the main method of loading applications involves using an app store, if you have an individual APK file, you can use that to install the app.**

Save the APK file to your device. We recommend saving APK files to the Downloads folder to find them easily.

1. Tap file manager; choose the application you wish to install.
2. Tap “Install”.
3. Follow the installation instructions listed on the screen.

### **8.2 Uninstall an app**

Tap the settings icon.

1. Tap Application.
2. Select the application you want to uninstall, tap uninstall.

3. Tap OK to finish uninstalling the app.

## **9. Troubleshooting**

### **1. It takes a long time to power up when I power on for the first time.**

The first time you power the device on, or after updating the device, it may take as long as 3 minutes to power on as it initializes files. Subsequent power sequences should take less than a minute.

### **2. Sometimes, the device feels warm to the touch.**

When charging, or after a long period of use, it is common for the device to feel slightly warm. This is normal as the battery charges or discharges and is not a cause for concern.

### **3. My device will not connect to Wifi.**

- Ensure that you are in an area with a strong wifi signal.
- Please make sure the password you are using is correct.

### **4. Cannot surf the Internet**

- Please make sure the distance between the device and the wireless router is within 50 yards.
- Please re-connect the WIFI.

### **5. Sometimes, the device runs slowly.**

- The more apps you have open and running, the slower the device will run. You can enter your application setting to disable or “kill” applications to free up processor and memory resources. In addition, there are many “Task Killer” applications which can do this
