

Official SPEED™ 255R Re-certification Notice

23914-03 A

April 18, 2001

Re: Re-certification of the StarPower® 52 4F *SPEED*™ system sunbeds

Dear Salon Owner;

Thank you for purchasing the *SPEED*™ lamp upgrade kit. This letter will serve as the official re-certification notice from the manufacturer of your sunbed. **Please retain this letter, keeping it with your sunbed's original user manual. State or local inspectors may ask to see it.**

All StarPower® 52 4F *SPEED*™ system sunbeds have been re-certified to allow the use of the *SPEED*™ 255R Wolff® Model SPD71-T12-255R Bi-Pin lamp in the sunbed's canopy as shown on the labeling printed on the new black Quick Clip profile included with this kit. Please remove the existing profile from your sunbed and replace it with the new one provided. If your unit is already labeled to use the 255R lamp then disregard this notice.

The labeling provided on the updated profile has been reproduced on the back of this letter to satisfy the requirements set out in 21 CFR 1040.20 (e) (i).

Spectrum Products, Inc.

DANGER Ultraviolet radiation. Follow instructions. Avoid overexposure. As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. WEAR PROTECTIVE EYEWEAR; FAILURE TO MAY RESULT IN SEVERE BURNS OR LONG-TERM INJURY TO THE EYES.

Medications or cosmetics may increase your sensitivity to the ultraviolet radiation. Consult physician before using sunlamp if you are using medications or have a history of skin problems or believe yourself especially sensitive to sunlight. If you do not tan in the sun, you are unlikely to tan from the use of this product.

To use, lie down under canopy and pull down as far as adjustment will allow maintaining minimum distances between your body and canopy clear plastic panels as illustrated at right, otherwise overexposure may occur. Do not use without clear plastic panels in place.

Untanned persons should not tan on consecutive days during their first week of tanning. Never tan more than once a day. Tanning normally appears after the first few sessions and maximizes after approximately four weeks. Tan once or twice per week thereafter to maintain appearance. Persons already having a base tan may begin at advanced levels corresponding to the extent of their base tan.

RECOMMENDED EXPOSURE TIMES IN MINUTES		MAXIMUM EXPOSURE TIME IS 12 MINUTES				
Skin Type:		Level 1/Week 1 1st-3rd sessions	Level 2	Level 3	Level 4	Subsequent Maximum
I	Sensitive Skin (Burns easily and severely and does not tan.)	NOT RECOMMENDED FOR TANNING				
II	Light (Burns easily and severely and tans minimally.)	2	4	7	10	12
III	Normal (Burns moderately and tans average.)	3	6	9	12	12
IV	Dark (Burns minimally, tans easily and above average.)	4	7	10	12	12

WARNING: Read the instructions booklet before using this sunlamp product. All persons in the room should wear protective eyewear when lamps are on. Recommended eyewear: Provided eyeshields (Lucas Products Super Sunnies or Intrexco No. 5635/1) or equivalent eyewear as defined under 21 CFR 1040.20. Other types of eyewear may not provide adequate protection.

DISCONNECT POWER BEFORE ATTEMPTING TO CLEAN, RELAMP, OR ENGAGE IN THE MAINTENANCE OF THIS PRODUCT.

ONLY THE FOLLOWING LAMPS HAVE BEEN CERTIFIED FOR USE IN THIS EQUIPMENT:

SPEED™ 225R Wolff® Model SPD71-T12-225R Bi-Pin (see illustration ○)
