Project Saved Files

Tap APPS > File Manager.

BC

If the projector is off, tap the floating projector button.

NOTE: Insert the USB drive into the USB port or insert a microSD[™] card into the microSD card slot, both located on the back of the device.

Project Using HDMI Cable

Easily project content from an HDMI-capable device.

① Connect your ZTE Spro 2 to an HDMI-capable device with the supplied HDMI cable and turn the ZTE Spro 2 on.

⁽²⁾ Tap ⁽²⁾ on the Projector tile on the home screen to turn on the projector.

^③ Tap **HDMI** on the Projector tile.

④ On your HDMI-capable device, choose the content you want to display.

Manage Your Mobile Connection

If your AT&T service was activated at the time of purchase, you will automatically connect to the mobile network.

AT&T AllAccess

To activate service:

- ① Tap **Activate** on the AllAccess tile on the home screen.
- ② Follow the on-screen steps to activate a data plan.

Once service is activated, the AT&T AllAccess widget displays data used while you are connected to the mobile network.

To monitor data usage:

- View plan and data usage details.*
- Enable mobile hotspot to share your Internet connection.**
- View free AT&T Wi-Fi® Hot Spots in your vicinity.

* Actual billed usage can be higher than estimated data usage displayed on the usage meter. For example, actual billed usage may be higher when: part of a shared data plan such as Mobile Share; multiple users with different log in credentials using the same device; traveling internationally or outside AT&T's network; using the SIM card with another device; or, using a tethered handset. Unlimited Wi-Fi usage on AT&T's entire national Wi-Fi network is included at no additional charge with a qualifying data plan. Access includes AT&T Wi-Fi Basic. Restrictions apply. See www.attwifi.com for details. The name "attwiff" will appear in the Wi-Fi network list when available.

**Req's Mobile Share Value or a min. DataPro 5GB plan. Devices connected to a Mobile Hotspot use data from your plan. Overage charges apply if exceed monthly data allowance. Number of devices you can connect depends on your device. Performance varies based on number of devices connected & other factors. If you do not use a password, others will be able to use your Mobile Hotspot. Visit a store or att.com to learn more.

Project with Miracast®

Project media wirelessly from a Miracast-capable device to the ZTE Spro 2.

① Tap () on the Projector tile on the home screen to turn on the projector.

⁽²⁾ Tap **Miracast** on the Projector tile.

③ Open and enable Miracast or other Wi-Fi display app on your smartphone. Select **MF97B** from the list of available devices.

(4) Tap Accept on your ZTE Spro 2.

(5) On your Miracast capable device, choose the content you want to display.

Mobile Hotspot

Block Mobile Hotspot Access

To prevent a device from reconnecting to the mobile hotspot, add it to the hotspot's blocked list.

① On the home screen, tap the **Hotspot widget > Manage users**.

⁽²⁾ Select the device you want to block (scroll down to see more connected devices).

③ Note the MAC address (you will need to enter this on a separate screen).
④ Turn Hotspot Off.

(5) Tap the Hotspot widget > Manage users > Block devices.

6 Check Block users.

⑦ Select **ADD NEW** to enter MAC address you wish to block.

Transfer Files with the Mobile Hotspot

Share pictures, music, videos, and other types of files.

① Before you begin, make sure you are connected to ZTE Spro 2's mobile hotspot.

② On your ZTE Spro 2, tap SETTINGS > Network > File Share.

3 Tap OFF

⁽³⁾ Connect the device you would like to share files with to the ZTE Spro 2's mobile hotspot.

⑤ Open the connected device's browser, enter **http://attwifimanager** then enter the password shown on the ZTE Spro 2's File Share screen.

NOTE: When mobile hotspot is enabled, you will be disconnected from all Wi-Fi networks and can only access the Internet with mobile data service.

Work with Tabs

You can customize the ZTE Spro 2 interface by adding or removing tabs.

Insert a microSD $^{\mathsf{TM}}$ Card or microSIM Card

Turn the projector upside down before you open the microSD or microSIM card slots (microSD card sold separately).

NOTE: The microSIM card is already installed. If you need to swap microSIM cards, the process is similar to microSD card installation.
