# Urban Design

All-wheel drive vehicles no longer live out in the desert and the mountains. But the technology they need to grip the road and cope with rough terrain makes the Vitara the ideal town car. To compliment this, we have added plenty of accessories and personalization options to make your Vitara truly stand out in the city.

# Rugged Design

Vitara was born in the wilderness. It was here that it learned to hug the road and cope with whatever nature threw at it. And it hasn't forgotten where it came from. Rugged design options allow the vehicle to show off its off-road heritage whilst still ensuring it turns heads in the city.

# Personalisation

Not only does Vitara stand out from the crowd, you can customize yours to your exact taste. Whether it's the interior, the exterior, or both, there are a wide range of accessories that make sure that no two Vitaras need be alike.
