SPECIFICATION

Model Number	: KIC 320J
Power Rate	: 2000W
Voltage	: 230V ~50Hz
Timer	: 12 Hours
Dimensions of Unit	: 397 x 290 x 75 mm

Important Precaution

Please read carefully the following instructions before using the induction cooker.

- 1) Do not plug with wet hands.
- 2) Do not plug into a socket where several other appliances are plugged in.
- 3) Do not use if the plug cord is damaged or the power plug does not fit the socket safely.
- 4) Do not modify the parts, or repair the unit by yourself.
- 5) Do not use the unit near flame or wet places.
- 6) Do not use where children can easily touch the unit, or allow children to use the unit by themselves.
- 7) Do not place on unstable surfaces.
- 8) Do not move the unit when the pot or the pan is on it.
- 9) Do not heat the pot empty or overheat the pot.
- 10) Do not place metallic objects such as knives, forks, spoons, lids, cans, and aluminum foils on the top plate.
- 11) Use the unit with sufficient space around it. Keep the front side and either right or left side of the unit clear
- 12) Do not use the unit on carpet or tablecloth (vinyl) or any other low-heat-resistant article.
- 13) Do not place a sheet of paper between the pot or the pan and the unit. The paper may get burnt.
- 14) If the surface is cracked, please switch off and take to the service center immediately.

- 15) Do not block the air intake or exhaust vent.
- 16) Do not touch the top plate right after removing the pot or the pan, as the top plate will still be very hot.
- 17) Do not place the unite close to the objects which are affected by magnet, such as: radios, televisions, automatic-banking cards and cassette tapes.
- 18) The power cord must be replaced by qualified technicians.
- 19) This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

How to Use

Power Mode:

- 1) After the device has been turned on with the On/Off key, it always operates in the preset power mode and display shows.
The power indicator lights up and the digital display shows power level 2000W.
- 2) You can select the power level (1-10) by turning the dial to the right + or to the left -. If the power level is not displayed, you should select it via the menu key.
- 3) If the induction cooker detects an excess temperature on the hob during cooking it displays error message E6. The heating process it stopped and the device switches to stand-by model for 60 seconds
- 4) The error message will not be cancelled until the temperature has dropped to below 100°C

Temperature Mode:

- 1) After turning the device on with the On/off key, the temperature mode can be selected by pressing the menu key.
- 2) You can set the temperature level by turning the dial to the right + or to the left – and selecting, for example, 140°C. The selected temperature level appears in the display and blinks.
- 3) When the selection has been made, the indicator in the displays stops to blink and the temperature level will be displayed within 5 seconds. If required, another level can be selected anytime.

- 4) If the current temperature is lower than the set level, the cooker heats up in order to reach the set level. When the temperature reaches or exceeds the set level, the device adjusts the heat in order to maintain the set temperature.

Timer

- 1) Press the menu key to select the timer function. The corresponding indicator lights up and the display shows – and blinks.
- 2) You can now set the time by turning the dial to the right or to the left. The maximum time that can be set is 12 hours.
- 3) Turning the dial to increase or decrease the time in 1 minute steps. (1, 2, 3 ---)
- 4) Once the time has been set, it will be displayed within 5 seconds, the indicator stops to blink and the time is counted down.
- 5) After the set time has elapsed, an acoustic signal is emitted 5 times and the device switches to stand-by mode.

Usable and Non-usable Utensils

1) Usable Pans

Steel, cast iron, enameled iron, stainless steel, flat-bottom pans/pots with diameter from 12 to 26cm.

How to Clean

- 1) Disconnect plug and wait until the unit is cooled down completely. Clean after using every time.
- 2) If the pots/pans are used without being cleaned, discoloration or cooked on stains may be caused.
- 3) Do not use benzine, thinner, scrubbing brush or polishing powder to clean the induction cooker.
- 4) Wipe using dish washing agent and damp cloth.
- 5) Use vacuum cleaner to suck up dirt from the air intake and exhaust vent.
- 6) Never run water over the unit as it may damage the unit.

Problem and Solution

Error Code	Reason	Solution
--	Waiting Status	Place a suitable pot / pan onto the induction cooking field. The plate will work as usual
E0	Use of wrong / Small Pot	Use a correct pot
E2	Open Circuit	Please return the device for repair
E3, E4	Voltage too low / Too High	Connect the device to a correct power outlet
E5	Ceramic Plate is over heated	Allow the device to cool down, turn it off completely and then on again
E6	Overheat Protection	Allow the device to cool down, turn it off completely and then on again

Terms and Conditions

PRODUCT
Induction Cook Top

WARRANTY PERIOD
24 Months

MODEL NO.
KIC 320J

This product comes with a warranty of 24 months on all parts from the date of purchase as specified on the warranty card. This is against all defective material or workmanship. In the event of a defect, Future Value Retail Limited undertakes to repair the set, free of charge during the warranty period.

In the event of a defect developing in the product, contact Future Value Retail Limited and provide information about the defect, the model number and serial number of the product.

THIS WARRANTY IS VOID IF

1. The completed warranty card is not presented to the authorised personnel at the time of servicing of the product.
2. The product is not operated according to the instructions given in the user manual.
3. Defects are caused by improper or reckless use.
4. Modifications or alterations have been made to the product or if the product has been tampered with, in any manner whatsoever.
5. Repairs to the product are carried out by anyone other than an authorised company representative.
6. For defects other than faulty parts or workmanship such as damage due to lightning, abnormal voltage, spillages, dust, accidental damage, etc.
7. The serial number is deleted or altered.
8. Used for any non-domestic purpose.

OTHER TERMS AND CONDITIONS

1. Repairs or replacement will be carried out either by a Future Value Retail Limited authorised customer care centre or by a representative.
2. All expenses incurred in collecting the unit(s) or part(s) thereof from the Customer Service Centre, as well as any other incidental expenses will be borne by the customer.
3. Whilst the company will make every effort to carry out repairs at the earliest, it is made clear that the company is under no obligation to do so in a specified period of time.
4. The company or its authorised customer centre reserves the right to retain any part(s) or component(s) replaced at its discretion, in the event of a defect being noticed in the equipment during the warranty
