

Key Features

- 16:9 Full HD 1080p Resolution Panel (1920x1080)
- Dynamic Contrast Ratio: 40,000:1
- Motionflow™ 120Hz technology
- USB with photos and music
- BRAVIA® Link compatibility
- BRAVIA Engine™ 2 fully digital video processor
- HD input x 7
- BRAVIA® Sync capable³
- ACE (Advanced Contrast Enhancer)
- Light Sensor™ technology
- 24p True Cinema™ capable
- Favorites Menu
- ATSC™ /NTSC tuner with QAM⁴
- VESA® compatible hole spacing

Key Technologies

16:9 Full HD 1080p Resolution Panel (1920x1080) 16:9 Full HD 1080p resolution panel (1920x1080) accepts any HDTV signal and renders it with optimum resolution, so you can take full advantage of Blu-ray Disc™ players and Sony® PLAYSTATION® 3 entertainment systems that can deliver 1080p content.

Dynamic contrast (40,000:1) Advanced Contrast Enhancer (ACE) creates a dynamic contrast level by working in real time to produce deep blacks in darker scenes, as well as fine details in shadows and other dark areas of the picture for a difference you can truly see.

Motionflow™ 120Hz technology Engineered for fast-action sports, movies and games, Motionflow 120Hz technology reduces blurriness and judder. Overall, motion is smoother, sharper, and more natural when watching your favorite HD content, DVDs, and even broadcast movies and prime-time programming

BRAVIA Engine™ 2 fully digital video processor The BRAVIA Engine 2 fully digital video processor uses a collection of unique Sony technologies to significantly reduce noise, enhance overall image detail, and optimize contrast so every scene produces sharp, vibrant, life-like images and color.

HD input x 7 Get versatile HD connection options with seven HD inputs. Four HDMI™ inputs (up to 1080/60p capable)¹ let you connect a Sony® PLAYSTATION®3 entertainment system, Blu-ray Disc™ player, or any other HDMI-capable equipment and get uncompressed digital video and multi-channel digital audio on a single cable. An HD component input and an HD combo input (1080/60i capable) provide added HD-capable connectivity, and a PC input² (HD-15 pin) offers the added versatility of using your HDTV as a computer monitor.

USB with photos and music Connect your camera, USB-enabled MP3 player, or USB storage device directly to your HDTV's USB input to view photos on the big screen or listen to your favorite MP3's.

BRAVIA® Link compatibility BRAVIA Link compatibility expands your HDTV's capabilities by letting you connect optional BRAVIA Link modules, including the BRAVIA DVD Link, BRAVIA Wireless Link, and BRAVIA Input Link (all sold separately).

BRAVIA® Sync capable³ BRAVIA Sync capability combines the one-touch access and control functionality of BRAVIA Theatre Sync™ with the ability to control CEC-enabled Sony® Handycam® camcorders and Cyber-shot® digital still cameras using the TV's remote and an on-screen display.

KDL-32XBR9

32" Class BRAVIA® XBR Series LCD TV (31.5" Diagonally)
