### CLEANING INSTRUCTIONS

#### Cleaning behind the heater

It is very easy to clean behind it. Hold two sides of the heater ,after upwards pull the heater forwards.then you can clean behind.

After cleaning, the heater must be fixed in the normal position.

The heater requires regular cleaning to ensure trouble-free operation:

- Unplug the heater from the mains supply before cleaning.
- Ensure that the heater has been allowed to cool down completely before cleaning.
- Use a damp cloth (not wet) to wipe the exterior of the heater to remove dust and dirt.
- Use a vacuum cleaner to remove dust and fluff from around the grilles.
- Ensure the heater is dry before plugging back into the mains supply.

## 5. Warning

1. Fixing the heater rightly on the wall or put the heater in the right position.
2. The heater is to be installed so that the controls cannot be touched by a person using a bath or shower.
3. The heater is to be installed so that it is not located directly under a socket outlet.
4. When the heater is working as it is in free standing mode with the foot set, please do not use it in the vicinity of bath, shower, or swimming pool.
5. When the heater is working as it is in wall mounted mode, do not touch the control unit when using it in the vicinity of bath, shower or swimming pool.
6. Consult a qualified electrician or service technician If the power cord is damaged.
7. DO NOT cover the heater when it is working.
8. Always store the heater when not in use.
9. Make sure the heater has cooled down before store it away.

## 6. Service

When you require service, contact your local dealer.

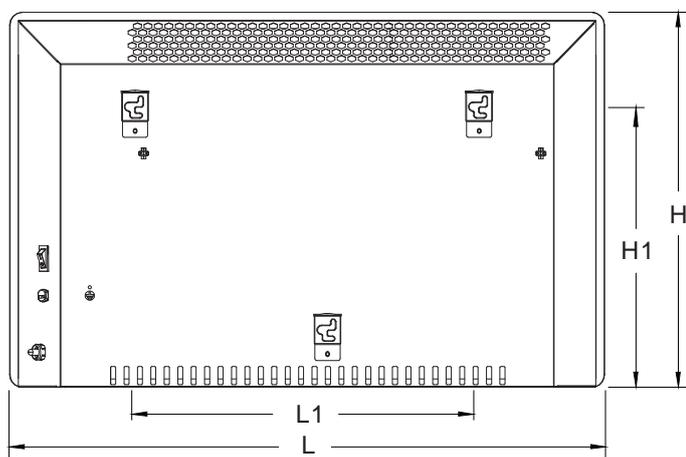

### REPLACEMENT OF SUPPLY CORD

The supply cord damaged must be replaced by a service agent or equivalent qualified person in order to prevent a hazard.

## 7. Storage

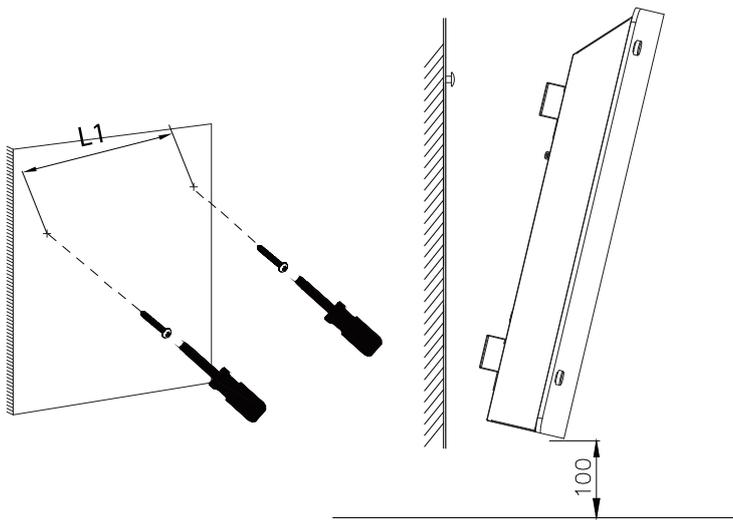

If you do not plan to use the heater for extended periods of time, it is recommended that the heater is cleaned and then stored (preferably in its original packaging) in a cool dry place.
