## Disclaimer

#### Important message concerning the use of MapKing by vehicle driver

To ensure safety driving, we strongly advise that the driver should not operate MapKing while driving the vehicle simultaneously. A driver should never focus his or her attention on the MapKing display while driving.

In case MapKing needs to be used inside a vehicle, we suggest that it should be operated by a passenger other than the driver or the driver should stop the vehicle at a convenient spot before starting to use MapKing.

#### Important message concerning route planning

The route planning function of MapKing is only meant to be and should only be used as a crude reference. It should never be used to determine actual driving directions.

### **Map Detail Disclaimer**

Map content (including direction, telephone number, address etc) may be changed from time to time and may not be accurate. Please stop using outdated map content. Map content in this SD card will not be updated automatically and can only be used as reference only. Please do not rely solely on the map content for navigation. If you have doubts, please check content before use.

### AGPS/ Packet Data Transmission Services Performance and Cost Disclaimer

Your device must support packet data transmission for the connection of AGPS. You may be charged by your network service provider for data transmission when utilizing AGPS. Note: Roaming charges may apply when using packet data transmission services overseas. Please contact your network service provider for data service and charging details.

### Start using the software is considered as accepting the above disclaimer

# **1** Introduction

## **1.1 Product Description**

Thank you for using MapKing!

MapKing is the first pan-region multilingual mobile mapping system in Asia managed by MapAsia.com Limited with input from leading Asian partners. It is a great tool for trip planning and to explore the huge potential market in Greater China, Asian and Middle East countries (maps sold separately for different OS and language). MapKing is the first digital map provides English road name and place name in China and Asian cities. MapKing has firmly established market leader status as the bridge between western travelers and the rapid growing cities in East. If you are interested in purchasing our map data, please visit our website, www.MapKing.com.

Now, let us enter the MapKing world, to experience the spree and convenience brought by our 3D automobile navigation technology.

## **1.2 Product Version**

Product name : MapKing Android (Version 3.0)
Software version information : Please refer to "Setting" > "User Data" > Information "About"

《1-2a》Go to Setting.

《1-2b》 Tap "User Data".

 $\langle\!\!\langle 1\text{-}2d\rangle\!\!\rangle$  The version information is shown.

## **1.3 MapKing Features**

### Advanced Car Navigation Technology

- 2D/ 3D Navigation
- Multiple search modes
- Manage POI and history
- Real-time tracking of GPS position
- Route planning
- Highway avoidance
- Intelligent voice assistance
- Multiple voice navigation instructions
- Send SMS/ MMS location message
- The navigation software can be displayed in portrait and landscape format\*

\*For certain models of Android mobile phones, only certain direction is applicable for landscape view.
