Chapter 1 Operation Instructions

1.1 Open & Close the Unit

The cover of the unit is designed loose-leaf, it is convenient and easy to open or close the unit.

1.2 About Power Supply

This unit is powered by two 3A batteries. If the unit doesn't work properly, which indicates battery voltage is weak, please turn off the unit and replace the batteries with new ones.

Procedures of replacing batteries:

1. Turn off the unit.
2. Push the battery compartment lock, which is on the back of the unit, to the position of "Unlock", open the battery compartment door and replace the used batteries with new ones.

Note: Please use alkaline batteries.

3. Cover the battery compartment door and push the lock to the position of "Lock", otherwise, the unit can not be switched on.

Cautions:

1. Follow the right procedures and make sure that the polarities of the batteries are correct.
2. Never leave used batteries in the battery compartment.
3.  indicates the battery voltage is enough.  indicates the battery voltage is weak, in this case, please replace the batteries with new ones following the information on screen.
4. To avoid data loss, please always keep alkaline battery in the unit for sufficient power supply.

Note: When the adapter is in use, there will be no flag indicating the battery voltage.

Using AC adapter:

1. Press  to turn off the unit before plugging the AC adapter.
2. After using, press  to turn off the unit before unplugging the AC adapter. If the unit hangs because of improper use, simply take out the batteries and replace them again (Please use  if necessary).
3. Specifications of the AC adapter:

Hong Kong	Input :	AC 220V	50Hz
	Output :	DC 6V	350mA

Taiwan	Input :	AC110V	60Hz
	Output :	DC6V	350mA
U.S.A	Input :	AC110V	60Hz
	Output :	DC6V	350mA

4. You are highly recommended to use the AC adapter provided by our agency or other qualified brands. We assume no responsibility for any damage to the unit arising through the use of AC adapters which do not meet the specification mentioned above.
5. To keep the real-time clock in the unit working properly in case of a sudden power cut, please always keep good alkaline battery in the unit even if you are using an AC adapter.

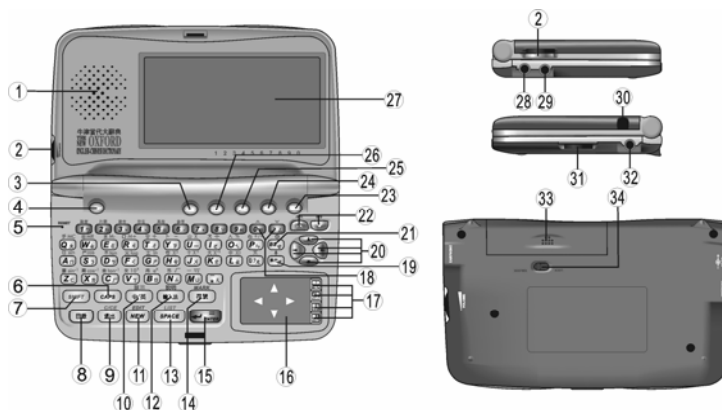

Data recovery

1. The unit is able to recover the data of loss caused by sudden power cut while preparing to save. Don't cut power, reset the unit or open the battery compartment in the process of making data recovery, otherwise, all the data will be lost permanently.
2. We strongly suggest the use of alkaline battery with sufficient power supply to prevent from sudden power cut which may result in data loss. Please make sure that there is steady electrical current, 6 volt power pressure and proper plugging while using adapter.

Resetting the Unit

Press  after replacing batteries or press  because of malfunction of the unit , a message “Please wait...”appears on the screen, then shows “ Time and other setting may be changed, please reset if necessary”, meanwhile the system checks itself automatically, and then goes to main menu.

1.3 Keyboard Layout

Special Function Keys

The followings are special function keys. You should press  first and then press special function key instead of pressing them simultaneously to perform corresponding function.

- | | | |
|----|---|---|
| 1. |   | Switch display mode between Chinese and English |
| 2. |   | Inquire operation instructions |
| 3. |   | Store records in Dict. / mark or unmark the records in Organizer |
| 4. |   | Inquire time (Remark: the function is unavailable in input mode or a pop-up window appears) |
| 5. |   | Edit record |
| 6. |   | Set alarm in Schedule |
| 7. |   | Delete record |
| 8. |   | Switch mode between inserting and overwriting |

1.4 Touch Pad Instruction

Besides key entry function, the Touch Pad is specially designed. The operation is specified below.

—Touch and go icons on Touch Pad

 Switch between Touch and Handwrite

 Same function as  

 Same function as 

 Same function as 

— Main features of Touch Pad: Handwrite and Touch.

In input / edit mode, touch  to switch between Touch and Handwrite.

— Handwrite mode: in input mode, directly write on Touch Pad to input or edit data. ( shows on the upper right corner indicates the mode of handwrite; otherwise it indicates the mode of touch.)

1. Write on Touch Pad, your handwriting will be displayed on LCD.
2. After system makes recognition on your handwriting, relative letters / characters will be displayed on the bottom of LCD, press numeric key to choose desired one directly.
3. If no desired letter / character is found in the short list, press  or click  twice to cancel, then write on the Touch Pad to input again.

— Touch mode: you can tap up /down / left / right arrow on Touch Pad to complete relative operations same as pressing up /down / left / right key.

1. In menu screen, tap up / down / left / right arrow to move the highlight bar. Hold on the key, the highlight bar moves circularly.
2. In input screen of Organizer, tap up / down / left / right arrow to move the cursor. When you tap the down arrow, the cursor moves to the next field.
3. In index screen of Organizer and menu screen of Reference, tap up / down arrow to move the highlight bar; press  or  to enter view screen or submenu screen.
4. In input screen of Dictionary, tap up / down arrow to move the highlight bar; hold on the key, the highlight bar moves circularly. Tap  or  to enter explanation screen.
5. In explanation screen of Dictionary, tap up / down / left / right arrow on the Touch Pad to highlight a word or character for cross-search.
6. In view screen of Organizer, Dictionary, Currency Exchange and Reference, tap up / down arrow to view the content if there is more than one page. Hold on the key to turn page up or down automatically.

1.5 Input Methods

11 input methods are available in the unit, they are English & Number, Symbol, Cangjie, Simple, Radical, Mandarin, Taiwan, Cantonese, Wang Ma 5-strokes, 5-strokes and Strokes. Cangjie and Simple only exist in traditional Chinese mode, Wang Ma 5- strokes only exists in simplified Chinese

number “4”, then press . All relative characters are displayed, press numeric key to choose the desired character;

—Mandarin

Input Mandarin phonetic alphabets, e.g. input “GUANG”, and then input tone, e.g. input “ˊ”. Press numeric key to select the desired character.

Note: press  for the first tone; press  for the second tone; press  for the third tone; press  for the fourth tone; press  for the soft tone; press  to input “ü”.

—Taiwan

Input characters by inputting Taiwanese Pinyin. e.g. input “ㄅㄛˊ”, then input the tone (same as Mandarin), e.g. press  to input the first tone, and relative characters are displayed on the bottom of LCD, then press the numeric

key to choose the desired one.

—Cantonese

Input Cantonese phonetic alphabets, e.g. input “YIN”, relative characters are displayed on the bottom of LCD, press the numeric key to choose the desired one.

—Wang Ma 5-strokes (only exists in simplified Chinese mode)

Usually, to find a character, input the codes of first three roots and the last root. If the character has less than 4 roots, just input the codes of its roots plus a recognition code to make it 4 codes. If this still cannot make 4 codes, use SPACE key to make the balance.

e.g. input “sgct”, the corresponding character

“酸” is shown.

Note: Please refer to appendix “ 6.2 Chart of Wang Ma 5-strokes Input Method”.

—5-strokes

Input codes of the first 4 strokes and the last stroke. If the total strokes of the character are less than 5, input codes of the strokes sequentially.

代號	筆劃名稱	筆劃走向	筆劃及其變形
1	橫	左→右	一 丿
2	豎	上→下	丨 冫
3	撇	右上→左下	丿
4	捺	左上→右下	㇇ ㇏
5	折	帶轉折	乙 冫 ㇇ 冫 冫

After inputting, press . e.g. input “12345”, the relative characters are displayed on the bottom of LCD, press numeric key to choose the desired one.

—Strokes

Input the number of the total strokes, then press . e.g. input “4”, and press , the relative characters are displayed on the bottom of LCD, press numeric key to choose the desired one.

1.6 Automatic Power-off

- The unit will be automatically switched off if it is left idle within the automatic power-off period.
- Press  button to restart it. (the default automatic power-off period is 3 minutes)
- If the unit is automatically powered off, the data you have inputted or edited will not be saved.
- The alarm will still function upon the set time even if the unit is power off.

1.7 Categories of Content

4 main Categories such as Dictionary, Organizer, Calculation and Others are particularly designed for your convenient operation. Besides this, the hot menu for which you can select desired applications in System Setting is added.

Hot menu:

- Press     to select an item, or tap up / down / left / right arrow on Touch Pad to move the cursor to the desired item, then press  to enter the application.
- Press   to switch into main menu of the previous or next category.

Main menu

- Press     to select an item, or tap up / down / left / right arrow on Touch Pad to move the cursor to the desired item, then press  to enter the application. You can also press numeric key to enter corresponding application directly.
- Press   to switch into main menu of the previous or next category.
- Press  to toggle among the categories circularly.
- Press  to switch display language between Chinese and English.
- Press  to return to hot menu.

1.8 Cautions

- Avoid humidity. Never let water or other liquids flow into the unit.
- Don't place the unit under direct sunlight or near heat.

- Don't repair the unit by yourself! Bring the malfunctioned unit to our Customer Service Center for repair.
- Prevent the unit from falling down on the ground, bending or strong impact.
- Don't apply strong detergent cleaning agents to clean the unit.
- Don't touch the screen with sharp-headed objects.
- Before doing reset or sending the unit for repair, please keep a copy of all important data so as to reinput them later.

1.7 Specification of the Parameters

1. Flash Memory Size: 2 MBits
2. Maskrom Size: 128 MBits
3. LCD Size: 240×79 dots
4. Memory size for saving Organizer records: about 1.8 MBits

Chapter 2 Dictionary Functions

This unit provides various English/Chinese Dictionaries for your usage, and the total number of vocabularies amounts to 280,000.

2.1 Oxford Dictionary

You can find an English word or phrase by using either of inputting method or browsing method. It is available in this dictionary to view the phonetic alphabet and Chinese explanation; view the relative or general grammars; cross-search to Chi-Eng Dictionary or Chi-Chi Dictionary; listen to pronunciations of Chinese/English words in Mandarin, Cantonese or English.

2.1.1 General Search

Choose "Oxford" in the Dictionary menu,

then input the desired word/phrase by pressing keys or handwriting, then press  to confirm, e.g. input "close".

Press   to browse word/phrase orderly, press   to browse word/phrase page by page.

2.1.2 Spell-check & Nearest Word

These two functions are usually used when the inputted word/phrase is wrongly spelled or unavailable in Oxford Dictionary.

Input "clowe"(misspelled word), then press  to confirm.

Press numeric key or press   and  to choose "Nearest Word" or "Spell-Alternative".

Nearest Word

If you choose "Nearest Word", you can view the explanation of the nearest word.

Press  to return to input mode.

[MD7250 User Manual]

Spell-Alternative

If you choose "Spell-Alternative", it will list the corrected words (or show "Not Found!" alert on screen, if no results).

Press   to highlight the desired word in the list, then press  to view the explanation.

Note: The searching time may be longer, you can stop searching by pressing .

2.1.3 Wildcard search

If you are not sure about the spelling of the desired word/phrase, you can use wildcard "?" or "*" to confirm. ("?" represents one uncertain letter, "*" represents one or more uncertain letters.)

Input "appl?", then press  to confirm.

The first word matched will be shown on screen.

Press   to view the previous/ next matched word.

Press   to view the details of the word.

Press    to listen to the relative pronunciation.

When "[英英]" appears on the upper left corner, press  to enter Eng-Eng Dictionary to view its explanation, press  to return to Oxford Dictionary.

Press  to enter function selection screen.

Press numeric key or press   and  to select items.

Choose "Save" to save the record you are viewing for revision and test.

Note: you also can save the record by pressing **SHIFT** + **MARK** 符號 .

Under the input mode or view mode, press **LIST** **SPACE**

view the dictionary-history list.

Press **▲** **▼** to choose record orderly.

Press **▲** **▼** to choose page by page.

Press **ENTER** to view the details of the chosen word.

Press **C/CE** 退出 to return to the former screen.

【Dictionary-History List】	
1.close	(From Oxford)
2.clown	(From Oxford)
3.apple	(From Oxford)

2.1.4 Grammar Inquiry

While viewing some English word, you can inquire the Oxford Built-in Grammar, Instant-Dict Grammar, or Oxford Paradigm. The Oxford Built-in Grammar includes phrase, compound word, derivative, others and example; the Instant-Dict Grammar includes grammar, homonym, example, run-ons, synonym, antonym, confuse word in meaning, adjective.

Note: The indicators that appearing on the upper right corner indicate available grammars.

In the view screen of some word, press numeric key to inquire relevant grammar according to the indicators.

e.g. in the view screen of "close",

press **2** 句 for Phrase; press **3** ㄩ for Compound Word; Press **4** ㄣ for Derivative.

英英 詞 close' (片語/詞類參考)
[kloʊz] [klos]
adj., adv. (closer ; closest), n.
adj.
1 接近...的, 極近的(near)<to> : 比 near 更近.

Note: If the indicator "[其]" appears, it means you can inquire other grammars.

Press **6** 厶 to enter Instant-Dict Grammar screen, press numeric key or press **▲** **▼** and **ENTER** to view the content of the chosen grammar.

【Instant Dict Grammar】
1. Adjective
2. Antonym
3. Example
4. Homonym
5. Run-Ons

Press **SHIFT** + **ü?光** for Oxford Paradigm, press **▲** **▼** or **▲** **▼** to view the details.

1. 條目
本辭典除一般英文單字片語外, 尚收列專有名詞、常用外來語、字首、字尾等, 全部字彙均按字母順序編排。

2.1.5 Cross-search

While viewing the explanation, you also can highlight desired Chinese or English word/phrase to

apply for cross searching function.

In the view screen of the word "close",
press  to highlight first word, then
press     to move the highlight
bar to highlight the word you want to cross-search.

Note: If you want to highlight more than one word, just press  +  .

When a Chinese character is highlighted,
press  or  to enter the dictionary
selection screen.

Press numeric key or press   and 
to choose dictionary to view the explanation of
the highlighted character.

Note: If a Chinese phrase is highlighted, press  or  , it will cross-search to Chi-Eng
Dictionary directly.

When an English word is highlighted,
use the way mentioned above to perform
cross-search, please notice the dictionaries
for cross-search are different.

Note: If an English phrase is highlighted, press  or  , it will cross-search to Oxford
Dictionary directly.

In the view screen of some cross-searched
word/character, press  to display function
selection screen, then choose "Cross Search History"
to view Cross Search History list.

Press   to choose record orderly;
press   to choose page by page;
press  to view the record's explanation.

Note: The Cross Search History list is limited to headwords; if you want to return to Oxford
Dictionary after cross-searching, please press  or press  to choose it.

2.1.6 Example

When you are viewing the explanation of some word, you also can view its examples.

e.g. in the view screen of "close",
 press to highlight of one explanation, then press to see the example.

2.2 Chinese-English Dictionary

You can search the desired Chinese character/phrase through inputting or browsing method. You can input Chinese character by handwriting method or Chinese input methods, including Cangjie, Simple, Radicals, Mandarin/Cantonese, Taiwan, Wangma, 5-Stroke and Strokes.

2.2.1 General Search

Choose "Chi-Eng Dict." in the Dictionary menu.
 Input the desired character/phrase, then press to confirm, e.g. input "才".

Press to browse word/phrase orderly,
 press to browse page by page.

When "[國語]" appears on the upper left corner,
 press to enter Chi-Chi Dictionary to view its explanation, press to return to Chi-Eng Dictionary.

2.2.2 Nearest Word

If the character/phrase inputted cannot be found directly, you can choose to view the Nearest Word in the dictionary.

Input a character which is not collected in C-E Dictionary, then press to confirm, e.g. input "伊".

Press to view the previous/next records.
 Press / / to listen to the relative pronunciation.

Press to enter function selection screen.
 Press numeric key or press and to choose one item.

Choose "Save" to save the record you are viewing for revision and test.

Note: You also can save the record by press + .

Under the input mode and view mode, you can view the Dictionary-History List.

Press to view the Dictionary-History List.

Press to choose record orderly.

Press to choose record page by page.

Press to return to the former screen.

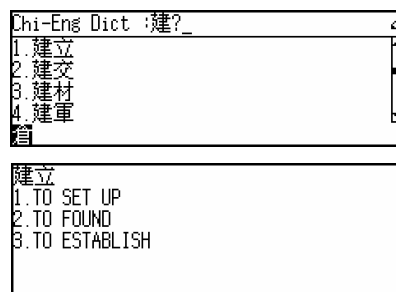

2.2.3 Wildcard Search

If you are not sure about some parts of the desired phrase, use wildcard "?" or "*" to search the phrase. ("?" represents one uncertain character, "*" represents one or more characters.)

e.g. input "建?", then press to confirm.

Press to view the previous/next records.

Press to return to input screen.

2.2.4 Cross-search

While viewing the explanation, you also can highlight any English word/phrase to cross-search to Oxford or Eng-Eng Dictionary to view its explanation.

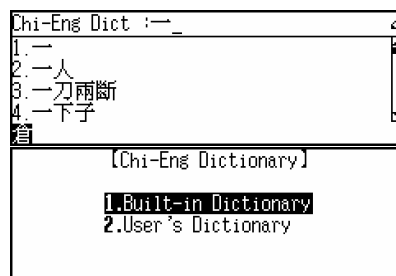

(Please refer to "2.1.5 Cross-search" for details.)

2.2.5 Chi-Eng User's Dictionary

If you have created your user-defined records in Chi-Eng User's Dictionary (please refer to "2.10.1 Chi-Eng User's Dictionary" for details), you can view those user-defined records in Chi-Eng Dictionary.

Input the desired character/phrase which exists in Built-in Dict. and User's Dict., then press to confirm.

Press the numeric key or press

and  to choose one of dictionaries to view its explanation.

Note: If the desired character/phrase only exists in Chi-Eng User's Dictionary, it will enter the user's dictionary directly to view its explanation.

2.3 English-English Dictionary

You can search the desired English word/phrase and view its English explanation by inputting or browsing method.

2.3.1 General Search

Choose "Eng-Eng Dict." in the Dictionary menu.
Input the desired word/phrase, then press  to confirm, e.g. input "abate".

Press   to browse word/phrase orderly,
press   to browse word/phrase page by page.

2.3.2 Spell-check & Nearest Word

If the inputted word/phrase cannot be found directly (mostly caused by misspelling), you can do a further search using Spell-check and Nearest word.

Input "abhoe" (misspelled word), then press  to confirm.

Press numeric key or press   and  to choose either "Nearest Word" or "Spell-Alternative".

Nearest Word

If you choose "Nearest Word", you can view the explanation of the nearest word.
press  to return to the input screen.

Spell-Alternative

If you choose "Spell-Alternative", it will list all corrected word/phrase according to the inputted word/phrase (or show "Not Found!" message on screen, if no matched word can be found).

Press   to choose record, press  to view the explanation.

Press  to return to input screen.

2.3.3 Wildcard Search

If you are not sure about the spelling of the desired word/phrase, you can use wildcard "?" or "*" to confirm ("?" represents one uncertain letter, "*" represents one or more uncertain letters).

Input "abl?", then press  to confirm.

Press   to view previous/next word, press   to view more information of the word.

Press  to listen to the English pronunciation of present word or highlighted word.

When "[牛津]" appears on the upper left corner, press  to enter Oxford Dictionary to view its explanation, press  to go back to Eng-Eng Dictionary.

Under the input mode and view mode, you can view the Dictionary-History List.

Press  to view Dictionary-History List.

Press   to choose record orderly.

Press   to choose record page by page.

Press  to view the explanation of the record.

Press  to return to former screen.

2.3.4 Cross-search

While view the explanation, you can highlight any English word/phrase to cross-search to Oxford or Eng-Eng Dictionary to view its explanation.

(Please refer to "2.1.5 Cross-search" for details.)

2.3.5 Eng-Eng User's Dictionary

If you have created your user-defined records in Eng-Eng User's Dictionary (please refer to "2.10.2 Eng-Eng User's Dictionary" for details), you can view those user-defined records in Eng-Eng Dictionary.

Input the desired word/phrase which exists in Built-in Dict. and User's Dict., then press  to confirm.

Press the numeric key or press   and  to choose one of dictionaries to view its explanation.

Note: If the desired word/phrase only exists in Eng-Eng User's Dictionary, it will enter the User's dictionary directly to view its explanation.

2.4 Chinese-Chinese Dictionary

You can view the Chinese explanations of Chinese characters in this dictionary, with the information of Taiwan, Strokes, Mandarin, Cantonese, Cangjie and Radicals, etc.

2.4.1 General Search

Choose "Chi-Chi Dict." in the Dictionary menu.

Input the desired Chinese character, then press  to confirm, e.g. input "看".

Press   to choose character orderly, press   to choose page by page.

Press   to view the details of the character.

Press   to view previous/next record.

Press  /  to listen to the relative pronunciation.

7.

Press to view

other information of the

Chinese character, including Taiwan, Strokes, Mandarin, Cangjie and Radicals, etc.

Press  to go back to the former screen.

If "[漢英]" appears on the upper left corner, press  to enter Chi-Eng Dictionary to view its explanation, press  to return to Chi-Chi Dictionary.

Under the input mode and view mode, you can view the Dictionary-History List.

Press  to view Dictionary-History List.

Press   to choose record orderly.

Press   to choose record page by page.

Press  to view the explanation of the record.

Press  to return to the former screen.

2.4.2 Cross-search

While viewing the explanation, you also can highlight any Chinese character/phrase to cross-search to Chi-Chi Dictionary or Chi-Eng Dictionary to view its explanation.

(Please refer to "2.1.5 Cross-search" for details.)

2.5 Network Dictionary

This dictionary collects many common-used words in network. You can search the desired word/phrase by inputting or browsing method.

2.5.1 General Search

Choose "Network Dict." in the Dictionary menu.

Input the desired word/phrase, then press  to confirm, e.g. input "lcd".

Press   to choose word/phrase orderly,

press   to choose page by page.

2.5.2 Spell-check and Nearest Word

[MD7250 User Manual]

These two functions are usually used when the inputted word/phrase is wrongly spelled or unavailable.

Input "abent"(misspelled word), then press  to confirm.

Press numeric key or press   and  to choose "Nearest Word" or "Spell-Alternative".

Nearest Word

If you choose "Nearest Word", you can view the explanation of the nearest word.

Press  to return to input screen.

Spell-Alternative

Chapter 4 Calculation Functions

4.1 Simple Calculator

It includes the main functions of a calculator, including basic calculations, square, square root and percentage calculation.

Enter Simple Calculator.

Input the numbers to perform calculation, press $\left(\frac{C/CE}{退出}\right)$ to clear the inputted number).

[Simple Calculator]	
M	0.
	0.

e.g. calculate $126 + 12 = ?$.

Input "126", press $\left(\frac{T}{+}\right)$ (i.e. "+"), input then press $\left(\frac{\leftarrow}{=}\right)$ (i.e. "=") to get: $126 + 12 = 138$.

[Simple Calculator]	
M	0.
	138.

"12",

Press $\left(\frac{C/CE}{退出}\right)$ to clear the number.

e.g. calculate $200 \times 10\% = ?$.

Input "200", press $\left(\frac{U}{\times}\right)$ (i.e. " \times "), input "10", press $\left(\frac{O}{\%}\right)$ (i.e. "%"), then $\left(\frac{\leftarrow}{=}\right)$ to get: $200 \times 10\% = 20$

[Simple Calculator]	
M	0.
	%
	20.

Press $\left(\frac{C/CE}{退出}\right)$ to clear the number.

Press $\left(\frac{R}{M+}\right)$ (i.e. "M+") to memorize the result calculated;

Press $\left(\frac{E}{M-}\right)$ (i.e. "M-") to subtract the numbers from memory;

Press $\left(\frac{W}{MR}\right)$ (i.e. "MR") to display the memorized numbers;

Press $\left(\frac{Q}{MC}\right)$ (i.e. "MC") to clear the memorized number.

[Simple Calculator]	
M	20.
	M+
	20.

e.g. calculate $\sqrt{81} = ?$.

Input "81", press $\left(\frac{N}{\sqrt{\quad}}\right)$ (i.e. " $\sqrt{\quad}$ ") to get: $\sqrt{81} = 9$

[Simple Calculator]	
M	0.
	9.

e.g. calculate the multiples of 3.

Input "3", press $\left(\frac{U}{\times}\right)$ (i.e. " \times "), press $\left(\frac{\leftarrow}{=}\right)$ (i.e. "=") to get: $3 \times 3 = 9$.

[Simple Calculator]	
M	0.
	27.

Press  (i.e. "=") again to get $3 \times 3 \times 3 = 27$; Press  successively to get the multiples of 3.

4.2 Scientific Calculator

Besides simple calculations, various functions are also included.

Enter Scientific Calculator.

Input the numbers to perform the relevant calculation, press  to clear the inputted number.

e.g. calculate $786 + 269 = ?$.

Input "786" (10 digits can be inputted), press  (i.e. "+"), input "269", then press  (i.e. "=") to get: $786 + 269 = 1055$.

Press  (i.e. "M+") to memorize the result calculated;

Press  (i.e. "M-") to subtract the numbers from memory;

Press  (i.e. "MR") to display the memorized numbers;

Press  (i.e. "MC") to clear the memorized number.

4.3 Unit Conversion

It provides various conversions of common units, such as conversion in the categories of Length, Area, Volume, etc. Two-way conversion is available for all units.

Enter Unit Conversion.

Press     and  or press the relevant numeric key to select conversion category

Press   to turn pages to select or touch to select conversion category.

e.g. choose "Length" to perform the Length

Press   to select the conversion up and down .

conversion.
item

press   to select the conversion item left and right.

e.g. convert "10 feet = ? mm".
Highlight "foot", and input "10".

Press  to get the result:

10 feet = 3,048 mm

Press  to clear the inputted number for recalculating.

4.4 Currency Conversion

It stores 25 different currencies for conversion. Set the exchange rate first so as to perform two-way conversion. You can also set up three other currencies to perform two-way conversion.

Enter "Currency Conversion".

Press   and  or touch to select conversion category.

Display

Choose "Display"

Press   to select the item one by one, press   to turn pages, press  to exit.

Set Rate

Choose "Set Rate".

Press   to select the item, and input the exchange rate, then press  to save.

e.g. choose "China CNY", and input "8.26".
then press  to save (Set rates of other currencies in the same way).

Press  to clear the inputted number.

Conversion

Choose "Conversion".

Press   to move cursor up or down to select the currency. Press   to select the currency left and right.

e.g. choose "China CNY" and "US USD" to

convert.

Select either of them as the basic currency,
