IBM®

IBM extends data federation to Red Brick users by including DB2 Information Integrator in the Red Brick Gold Analytic offering and delivers Informix Dynamic Server Workgroup Edition Unlimited license

Overview

The following IBM Data Management Gold programs are updated:

- IBM Data Management Gold Transaction Processing Bundle for Enterprise

- IBM Data Management Gold Transaction Processing Bundle for SMB

- IBM Data Management Gold Business Intelligence Bundle for Enterprise

- IBM Data Management Gold Red Brick™ Analytic Bundle for Enterprise

DB2® Information Integrator is now included in the IBM Data Management Gold Red Brick Analytic Bundle (Enterprise). This allows for federated database access to other IBM databases such as DB2 UDB, Informix™ Dynamic Server, and Extended Parallel Server.

In addition, the following IBM Data Management Gold program is introduced:

- IBM Data Management Gold Transaction Processing Bundle for SMB Unlimited

IBM is also announcing trade-up part numbers for the following products:

- Informix Extended Parallel Server to Data Management Gold Business Intelligence Bundle

- IBM Red Brick Warehouse Server Enterprise Edition to IBM Data Management Gold Red Brick Analytic Bundle (Enterprise)

These programs are only available through Passport Advantage®. The Gold Program offerings are intended for Informix customers who want the flexibility to install either Informix or DB2 products in whatever combination that is required to meet their business needs.

These offerings allow you to purchase licenses to cover the entire business need, even if the exact mix of Informix and IBM database licenses is either not known or will change over time.

You now have more flexible licensing terms for the Gold Program offerings. In cases where you may wish to transition from use of a licensed copy of the Informix Extended Parallel Server/Informix Dynamic Server/IBM Red Brick Warehouse Server product to use of the licensed set of corresponding DB2 products, you may now install and operate both sets of products to facilitate such a transition for a single period of 180 days.

The following Informix Dynamic Server Workgroup Unlimited editions have been added to the IBM Data Management Gold Transaction Processing Bundle for SMB Unlimited:

- IBM Informix Dynamic Server Workgroup Edition Unlimited V9.4

- IBM Informix Dynamic Server 7 Workgroup Edition Unlimited V7.31

IBM Informix Dynamic Server Workgroup Edition Unlimited gives IBM small and medium sized customers an ideal enterprise database and is now available on a CPU-based license in addition to the existing client and server licensing model.

Trade-up part numbers are available for IDS V7.x Workgroup Edition Unlimited to IDS V9.x Workgroup Edition Unlimited, and from IDS V7.x and V9.x Workgroup Edition Unlimited to the IBM Data Management Gold Transaction Processing Bundle for SMB Unlimited.

Planned availability dates

- March 30, 2004: Electronic software delivery

- April 2, 2004: Media and documentation — all programs in this announcement except IBM Data Management Gold Transaction Processing Bundle for SMB Unlimited

- May 7, 2004: Media and documentation — IBM Data Management Gold Transaction Processing Bundle for SMB Unlimited

Description

The IBM Data Management Gold program offers the following new updates.

IBM Data Management Transaction Processing Bundle (Enterprise):

- DB2 UDB Enterprise Server Edition V8.1
- DB2 Spatial Extender V8.1
- DB2 Net Search Extender V8.1
- DB2 Universal Developer's Edition V8.1 (five users)
- Informix Dynamic Server V9.40, V7.31
- Informix Spatial DataBlade™ Module V8.20
- Informix Enterprise Gateway Manager V7.31

IBM Data Management Transaction Processing Bundle (SMB):

- DB2 UDB Workgroup Server Edition V8.1
- DB2 Universal Developer's Edition V8.1 (five users)
- Informix Dynamic Server Workgroup Edition V9.40, V7.31
- Informix Spatial DataBlade Module V8.20
- Informix Enterprise Gateway Manager V7.31

IBM Data Management Business Intelligence Bundle:

- DB2 UDB Enterprise Server Edition V8.1
- Database Partitioning Feature V8.1
- DB2 Warehouse Manager Standard Edition V8.1
- Informix Extended Parallel Server (XPS) V8.40
- DB2 Universal Developer's Edition (5 users)

IBM Data Management Gold Red Brick Analytic Bundle for Enterprises:

- IBM Red Brick Warehouse Server V6.20 Enterprise Edition
- DB2 UDB Enterprise Server Edition V8.1
- DB2 Warehouse Manager Standard Edition V8.1
- DB2 Information Integrator Standard Edition V8.1
- DB2 Universal Developer's Edition (up to five user licenses)

With the addition of DB2 Information Integrator in the bundle, IBM Red Brick customers can now federate data between IBM Red Brick and other DB2 UDB or Informix IDS/XPS database instances.

The IBM Data Management Gold Program includes IBM Data Management Transaction Processing Bundle SMB Unlimited, a new offering that includes:

IBM Data Management Transaction Processing Bundle SMB Unlimited:

- DB2 UDB Workgroup Server Unlimited Edition V8.1
- DB2 Universal Developer's Edition V8.1 (five users)
- Informix Dynamic Server Workgroup Edition Unlimited V9.40, V7.31
- Informix Spatial DataBlade Module V8.20
- Informix Enterprise Gateway Manager V7.31

Notes

- Customers of the Data Management Gold Programs must purchase at least one of the following bundles: Red Brick, Informix (XPS or IDS), or DB2 to receive the "bundles" product CD-ROM media packs listed for each offering.

- The Informix Extended Parallel Server and IBM Red Brick Warehouse Server to Gold Program trade up offerings are available to only those customers who already own valid licenses for these two products.

- Customers must specify IDS version. They can select either V9.40 or V7.31. If they select V7.31 first, they can always switch to V9.x later, if their configurations change, by following the normal IBM Passport Advantage fulfillment process.

Informix Dynamic Server V9.4 Workgroup Edition features and attributes include:

High availability

- Point-in-time instance wide restore
- Table level backup and recovery
- XBSA support for easy integration of third-party backup tools
- Supports high-availability clustering solutions

High-performance technology

- Multithreaded architecture for SMPs with asynchronous I/O

- Cascading deletes; in-place table alters add and delete columns in seconds; bi-directional indices

Federated data access

- IBM distributed SQL supports queries across multiple IBM and third-party databases with our Enterprise Gateway products

Trademarks

Red Brick, Informix, and DataBlade are trademarks of International Business Machines Corporation in the United States or other countries or both.

DB2 and Passport Advantage are registered trademarks of International Business Machines Corporation in the United States or other countries or both.

Other company, product, and service names may be trademarks or service marks of others.

Planning information

Software Maintenance, previously referred to as Subscription and Technical Support, is now included in the Passport Advantage Agreement. Installation and technical support for the products announced in this letter is provided by the Software Maintenance offering of the IBM International Passport Advantage Agreement. This fee service enhances customer productivity by providing voice and/or electronic access into the IBM support organizations.

Packaging: The Informix Dynamic Server 7 (IDS7) for Windows™ media pack is offered in the following languages: English, French, German, Spanish, Japanese, Korean, Simplified Chinese, and Traditional Chinese.

IDS7 WIN NT Package — Workgroup Edition Unlimited

- IBM International Program License Agreement (IPLA) in multilanguage booklet and its License Information in multiple languages

- One Read Me First Informix Dynamic Server V7.31

- One Installation Guide for Informix Dynamic Server on Windows NT™ (English only)

- One Informix Client Installation Guide (English only)

- One serial key file

- One Informix Client Installation Guide 2.2 (French, German, Spanish, Japanese, Korean, Simplified Chinese, Traditional Chinese)

- Install Guide for Windows NT (one each for French, German, Spanish, Japanese, Korean only)

- Eight CD-ROMs, including five language supplement CDs

IDS7 AIX®, Intel™ SOL, HP 32 Package — Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX®

- One Informix Client Installation Guide

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One serial key file

- Eleven CD-ROMs, including five language supplement CDs

IDS7 AIX, Intel SOL, HP 64 Package — Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Informix Client Installation Guide

This announcement is provided for your information only. For additional information, contact your IBM representative, call 800-IBM-4YOU, or visit the IBM home page at: http://www.ibm.com.

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One serial key file

- Installation Guide for Informix Dynamic Server on Windows NT

- Ten CD-ROMs, including five language supplement CDs

IDS7 LINUX Package ─ Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Installation Guide for Microsoft™ Windows Environment

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One Informix Client Installation Guide

- One Read Me First for Informix Dynamic Server

- One serial key file

- Eight CD-ROMs, including five language supplement CDs

IDS7 Compaq/Dec Package ─ Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One Informix Client Installation Guide

- One serial key file

- Eight CD-ROMs, including five language supplement CDs

IDS7 Reliant UNIX, SINIX, IRIX Package ─ Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One Informix Client Installation Guide

- One serial key file

- Ten CD-ROMs, including five language supplement CDs

IDS7 DYNIX®, NCR, NEC Package ─ Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One Informix Client Installation Guide

- One serial key file

- Ten CD-ROMs, including five language supplement CDs

IDS7 SCO OpenServer, Unixware Package ─ Workgroup Edition Unlimited

- IBM IPLA in multilanguage booklet and its License Information in multiple languages

- One Installation Guide for Informix Dynamic Server on UNIX

- One Read Me First Informix Dynamic Server for Fujitsu-Siemens Systems

- One Informix Client Installation Guide

- One serial key file

- Nine CD-ROMs, including five language supplement CDs

The IDS7 for Windows doc pack is offered in the following languages: English, French, German, Spanish, Japanese, Korean, Simplified Chinese, and Traditional Chinese. All of these languages are included, unless indicated otherwise.

IDS V7.31 Doc Pack ─ Workgroup Edition Unlimited

- One Guide to the High Performance Loader V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Archive and Backup Guide for Informix Dynamic Server V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Backup and Restore Guide for Informix Dynamic Server V7.3 (English, French, German, and Spanish only)

- One On-Archive Quick Start Guide V7.3 (English, French, German, Spanish, Japanese, and Simplified Chinese only)

- One Guide to Informix Enterprise Replication V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Getting Started with Informix Dynamic Server V7.3 (English, French, German, and Spanish only)

- One Administrators Guide for Informix Dynamic Server, Volume 1, V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Administrators Guide for Informix Dynamic Server, Volume 2, V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Performance Guide for Informix Dynamic Server V7.3 (English, French, German, Spanish, and Simplified Chinese only)

- One Informix Guide to Database Design and Implementation, February 1998 (English and Simplified Chinese only)

- One Informix Guide to SQL: Reference, February 1998 (English and Simplified Chinese only)

- One Informix Guide to SQL: Tutorial, February 1998 (English and Simplified Chinese only)

- One Informix Guide to SQL: Syntax, Volume 1, February 1998 (English and Simplified Chinese only)

- One Informix Guide to SQL: Syntax, Volume 2, February 1998 (English and Simplified Chinese only)

- One DB Access User Manual, February 1998 (English, French, German, Spanish, Japanese, and Simplified Chinese only)

- One Informix SNMP Subagent Guide V2.0

- One Informix Migration Guide, February 1998 (English, French, German, Spanish, and Simplified Chinese only)

- One IBM IFX Guide to GLS Functionality V8.4/9.3 (English and Simplified Chinese only)

- One Informix Storage Manager Administrators Guide, February 1998 (English, French, German, Spanish, and Simplified Chinese only)

- One Guide to the Optical Subsystem, February 1998

- One IBM Informix JDBC Programmer's Guide 2.21

- One Informix Guide to SQL: Reference, February 1998 (French only)

- One Informix Guide to GLS Functionality, February 1998 (French only)

- One Informix Guide to SQL: Reference, February 1998 (German only)

- One Informix Guide to GLS Functionality, February 1998 (German only)

- One Informix Guide to SQL: Reference, February 1998 (Spanish only)

- One Informix Guide to GLS Functionality, February 1998 (Spanish only)

- One Backup and Restore Guide for Informix Dynamic Server 7.3 (Simplified Chinese only)

- One Getting Started with Informix Dynamic Server 7.3 (Simplified Chinese only)

- One Guide to the High Performance Loader 7.3 (Japanese only)

- One Archive and Backup Guide for Informix Dynamic Server 7.3 (Japanese only)

- One Backup and Restore Guide for Informix Dynamic Server 7.3 (Japanese only)

- One Trusted Facility Manual for Informix Dynamic Server 7.3 (Japanese only)

- One Guide to Informix Enterprise Replication 7.3 (Japanese only)

- One Getting Started with Informix Dynamic Server 7.3 (Japanese only)

- One Administrators Guide for Informix Dynamic Server, Volume 1 7.3 (Japanese only)

- One Administrators Guide for Informix Dynamic Server, Volume 2 7.3 (Japanese only)

- One Performance Guide for Informix Dynamic Server 7.3 (Japanese only)

- One Informix Guide to Database Design and Implementation 7.3 (Japanese only)

- One Informix Guide to SQL: Reference, February 1998 (Japanese only)

- One IBM Informix Dynamic Server Getting Started Guide 9.4
- One IBM Informix Dynamic Server Installation Guide for Microsoft Windows 9.4
- Seventeen CD-ROMs, including one Language Supplement CD

Security, auditability, and control

These products use the security and auditability features of the host hardware or software.

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

IBM Data Management Gold Program Transaction Processing Bundle	IBM Database 2	Data Mgt Transact Processing Offer

These programs are only available through Passport Advantage. The charge unit related to this announcement is **per processor** which is defined as follows:

- **Processor** — means a processor that forms part of the server on which the program is installed or executed. You must acquire a use authorization for each such processor.

In addition, the programs in this announcement are part of the recently announced IBM On/Off Capacity on Demand pricing which allows eligible customers to pay a fee to enable and use temporary server capacity. Refer to Software Announcement 203-202, dated August 12, 2003, for details.

IBM Data Management Gold programs

The charge unit is per processor under the dual license for either Informix products or DB2 products. Note that each CPU available to the installed software must have a separate entitlement that can be either DB2 or Informix.

If you purchase a single license (right to copy), you are authorized to install either an Informix product or DB2 product, but not both. If you purchase multiple licenses, you may install all Informix products, all DB2 products, or a combination of both up to a maximum of the number of licenses acquired. For example, if you purchase ten licenses, you may install ten copies of Informix or ten copies of DB2, or five copies each of Informix and DB2. You can also order, if needed, either the DB2 media package (DB2, ...) and documentation and/or the Informix media package. The appropriate media package will be shipped directly to you with the operating system of your choice.

Informix Dynamic Server Workgroup Editions

The following restrictions apply:

- **Server limitation** — You may not install or use the program on a server that has more than two processors.

- **Function limitations** — You may not use the following functions of the program: parallel data query, data partitioning, parallel backup, parallel restore, parallel load, parallel unload, optical disks, Enterprise Replication (ER), High Availability Data Replication (HDR), VML (ability to access more than two GB RAM).

Terms and conditions

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Licensing: IBM International Program License Agreement. Proofs of Entitlement (PoEs) are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

License information form numbers

Limited warranty applies: Yes

Warranty: This program has warranty for a minimum of one year from acquisition from IBM or authorized Business Partner. The warranty provided to the customer, for at least one year from acquisition, is access to databases (read Web sites) for program information, FAQs, including any known fixes to defects, which the customer can download or obtain otherwise and install at their leisure.

Money-back guarantee: If for any reason you are dissatisfied with the program, return it within 30 days from the invoice date, to the party (either IBM or its reseller) from whom you acquired it, for a refund. This applies only to your first acquisition of the program.

Copy and use on home/portable computer: No

Volume orders (IVO): No

Passport Advantage applies

Yes, and through the Passport Advantage Web site at

http://www.ibm.com/software/passportadvantage

Usage restriction: Yes

When you purchase a single license (right to copy), you are authorized to install either Informix products or DB2 products, but not both. If you purchase multiple licenses, you may install all Informix products, all DB2 products, or a combination of both, up to a maximum of the number of licenses acquired. For example, if you purchase ten licenses, you may install ten copies of Informix, ten copies of DB2, or five copies each of Informix and DB2.

If you purchase the DB2 media pack, all of the products listed in the offering will be shipped.

- DB2 products are subject to the terms and conditions of the IBM license agreement shipped with DB2 products, as well as these additional terms

- Informix products are subject to the terms and conditions of the Informix license agreement shipped with Informix products, as well as these additional terms

Use of the product is subject to the terms and conditions of the products installed, except:

- DB2 Universal Developer's Edition, which allows up to five individual users instead of the usual one user

- DB2 Relational Connect, which allows connection to Informix data source only

- Informix Enterprise Gateway Manager, which allows connection to DB2 data sources

By using, installing, or starting a product, you agree to the applicable terms and conditions for that product, as well as these additional terms.

The limited use only copy of IBM DB2 Information Integrator Standard Edition that is provided with this offering can only be used in conjunction with IBM Red Brick databases to provide access to data held in IBM DB2 Universal Databases, other IBM Red Brick databases, or IBM Informix Extended Parallel Server databases.

Each DB2 Information Integrator Standard Edition Proof of Entitlement (PoE) includes five DB2 Information Integrator Connector PoEs for accessing ODBC sources. Each Connector PoE entitles you to access a single database instance of a Red Brick database or data warehouse, where a "database instance" is a single copy of all the data in the database or data warehouse and the catalog to support it. Access to additional database

instances or types will require that you purchase a DB2 Information Integrator PoE equal to the number of processors attached to DB2 Information Integrator and additional DB2 Information Integrator Connector PoEs.

Software Maintenance applies: Yes

Software Maintenance, previously referred to as Subscription and Technical Support, is now included in the Passport Advantage Agreement. Installation and technical support for the products announced in this letter is provided by the Software Maintenance offering of the IBM International Passport Advantage Agreement. This fee service enhances customer productivity by providing voice and/or electronic access into the IBM support organizations.

IBM includes one year of Software Maintenance with the initial license acquisition of each program acquired. The initial period of Software Maintenance can be extended by the purchase of a renewal option that is available.

While your Software Maintenance is in effect, IBM provides you assistance for your (1) routine, short duration installation and usage (how-to) questions; and (2) code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, every day of the year. For additional details, consult your *IBM Software Support Guide* at

http://techsupport.services.ibm.com/guides/ handbook.html

Software Maintenance does not include assistance for (1) the design and development of applications, (2) your use of programs in other than their specified operating environment, or (3) failures caused by products for which IBM is not responsible under this agreement.

For more information about the Passport Advantage Agreement, refer to the IBM International Passport Advantage Agreement Software Announcement 201-202, dated July 10, 2001. or visit the Passport Advantage Web site at

http://www.ibm.com/software/passportadvantage

IBM Operational Support Services — Support Line: No

iSeries Software Subscription applies: No

Educational allowance available: Not applicable

On/Off Capacity on Demand

To be eligible for On/Off Capacity on Demand pricing, customers must be enabled for temporary capacity on the corresponding hardware, and the required contract — Z125-6907, Amendment or iSeries and pSeries Temporary Capacity On Demand — Software — must be signed prior to use.

Prices

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner. For additional information about the Passport Advantage offering, visit the following Web site

http://www.ibm.com/software/passportadvantage

Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Our offerings include financing for IT acquisition, including hardware, software, and services, both from IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit the Web at

http://www.ibm.com/financing

IBM Global Financing offerings are provided through IBM Credit LLC in the United States and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.
