2. Installation

1. Locating the Base unit

The Base unit should be placed on a level surface, in a position where:

- the **telephone line cable** will reach your telephone line socket or extension socket.
- it is **not close to a sink, bath or shower**, or anywhere else where it might get wet.
- it is **not close to other electrical equipment** - fridges, washing machines, microwave ovens, TVs, fluorescent lights, etc.

2. Plug the coiled handset cord into the Handset.

Plug the other end into the jack on the left side of the Base unit.

3. Place the Handset in the Base unit.

Always use the telephone line cord supplied with your Concept 710 phone. Other telephone line cords may not work.

Make sure the plugs click into place.

→ to Modular wall jack.

pulse/Tone switch

4. Plug the telephone line cord free end into a modular wall jack. Press the cable into the groove so that the Base unit stands level.

5. Lift the Handset and check for Dial tone in the earpiece.

Installing (or Replacing) the Battery

IMPORTANT - Before removing the battery compartment cover, always make sure the base unit is disconnected from the telephone line.

- Install 3 pcs of Alkaline AAA batteries into the battery compartment and place back the cover before use. (Battery is not included the unit).

Note: 1) Please do NOT use Rechargeable batteries in this phone.

2) (optional) Fit back-up batteries for the backlight display.

With batteries fitted, your settings and any memos will be retained if there's Telephone line was disconnected.

3) The battery life is typically about 3 months, depending on usage.

When the battery is low, will flash in the middle on the right side of the display screen. if you do not replace the batteries, they will become totally discharged and your backlight display will not work.

4. Telephone Operations

Making a call

Lift the Handset, listen for a dial tone.

⇒ The display shows '00-00'.

Dial the telephone number you wish to call.

⇒ The display shows the number as you dial (maximum of 16 digits will be shown).

To end the call, return the Handset to the Base unit.

To answer a call

When the phone rings; the ringer light is flashes.

Lift the handset or press the SPEAKERPHONE button on the Base unit.

⇒ The Call timer starts about 7 seconds after going on line.

To adjust the speakerphone volume

During a call;

Adjust the volume of the speakerphone to your comfortable volume level using the SPEAKERPHONE volume switch located at the right side of the Base unit.

To end a call

Replace the Handset on the Base unit cradle or press the SPEAKERPHONE button on the Base unit.

⇒ The SPEAKERPHONE (SPEAKERPHONE) light indicator will turn OFF.

To switch between the Handset and the Speakerphone

During a phone conversation through the Handset, press the SPEAKERPHONE button to speak hands-free.

⇒ The SPEAKERPHONE (SPEAKERPHONE) light indicator will turn ON of the LCD Display. The conversation remains through the Handset until the Handset is replaced on the Base unit cradle. Then the Speakerphone light will turn on. While in speakerphone mode, lift the Handset to switch off the Speakerphone and talk through the Handset.
