

Semi-automatic Filling, Weighing, and Packaging

The ideal entry-level, single scale, semi-automatic netweighing system for small projects! To achieve optimum accuracy, the vibratory feed pan includes two-speed bulk and dribble feeding and an adjustable gate in the supply hopper allows uniform control and distribution of bulk product onto the feeder pan. This tabletop design is controlled by a commercially available PLC controller.

- Foods - fresh, frozen, dried
- Coffee
- Electronic components
- Candy
- Grains
- Plastic Parts
- Seeds
- Nuts and trail mix
- Many others - any free-flowing dry material

NPS-1

WEIGHT RANGE

NPS-1: From 5 oz to 5 lbs (several grams to 2.3 kg). Determined by density of product.

FILLING OPTIONS

Use for filling your product into bags, boxes, bottles, and any other containers. Filling is done by foot pedal. Machine comes with a standard discharge funnel.

AMAZING VERSATILITY

Almost any dry product runs with 0.5% accuracy. Rugged, precision stainless steel construction. Supply hoppers and weight hoppers can be quickly removed for immersion cleaning. Fast, easy changeover allows the user to run multiple products.

PRODUCT SUPPORT

Nae Pac tests your products and sets up all initial parameters before shipping. Simply plug the system in and run. Nae Pac also encourages you to visit the factory to take advantage of free machine training prior to shipping. Complete, easy-to-understand user manual and unlimited, free telephone support make the NPS-1 a risk-free choice.

- ★ Over 75 Different Configurations
- ★ Free Product Evaluation
- ★ Unlimited Telephone Support
- ★ Crafted and built in the USA
