

## Save Time. Save Bearings. Easy to Use.

### *Features and Benefits:*

- **SAVES TIME** – No more laborious prying against bearings or driving out seals.
- **SAVE BEARINGS** – Tool grabs seal only and bearings go undamaged.  
*The old seal is removed intact allowing for complete failure analysis if needed.*
- **EASY TO USE** – Wedges and long handle provide exceptional leverage.
- Heavy duty construction for long life and dependability.
- Works with steering, drive and trailer wheel seals even on the largest heavy duty wheels.

**POWER WITH COMFORT.**

**COMFORT WITH CONTROL.**

**CONTROL WITH POWER.**

**NEVER COMPROMISE.**

The drive wheel shown is from a  
54,000 pound dump truck.

### **WARNING**

## Complete set of internal and external TORX® driver bit sockets

### *Features and Benefits:*

One of the most comprehensive sets on the market to cover the rapidly expanding use of TORX® fasteners.

- Set covers –
  - Tamperproof TORX® applications from T60 down to T6 in both standard depth and extended reach bits.
  - External TORX® applications from E24 down to E4.
- Drive sizes increase as the bits get larger for increased strength on larger applications.
- Perfect set for the technician in the shop or for use around the house.
- Comes in a compact case for easy transport and storage.
- Supported by a lifetime warranty.

#### **WARNING**

- Wear safety goggles. (Users and bystanders.)
- Read additional safety precautions on pages 534 through 537 in product catalog CAT1000

See page two for complete listing of components.

## SNAP-ON EXCLUSIVE!

### **Stainless Steel Tray, convenient and classy. Use Lock-A-Socket to organize your sockets or take them with you.**

#### *Features and Benefits:*

- Sockets are locked by turning to the right 90°, unlocked by turning to the left 90°. With a magnet, the sockets can be knocked off.
- Extremely durable locking mechanism.
- Advantages over magnetic trays;
  - Sockets stay in place; they can't be knocked off.
  - Will not magnetize your tools.
- Units have four clips included for ratchets and other attachments.
- Rubber pegs are located underneath for surface grip and protection.
- Swivel handles for easy carrying.
- Lock-a-Socket posts are available separately – can add or remove them to meet your needs.
- Product is exclusive to Snap-on® Tools.

#### **WARNING**

•Read safety precautions on pages 534 to 537 in product catalog CAT1000.

#### *Replacement Pegs:*

**MTSLAS25LP25** – 1/4" Drive Lock-a-Socket posts

**MTSLAS38LP25** – 3/8" Drive Lock-a-Socket posts

**MTSLAS50LP25** – 1/2" Drive Lock-a-Socket posts

#### *Related Product:*

**BPTRYLAS** – Lock-A-Socket Tray; holds a variety of drive sizes on one tray.

**BP12TRYLAS** – 1/2" Lock-a-Socket Tray

**BP14TRYLAS** – 1/4" Lock-a-Socket Tray

# High Pressure and Cold Weather Rated

## Features and Benefits:

- **Flexible High Pressure Cold Weather Hose** – 7,500 PSI hose is flexible in cold weather – *Keeps you working in brutal cold.*
- **1<sup>st</sup> Stage Planetary Gearing & 2<sup>nd</sup> Stage Steel Spur Gearing** - Less wear and higher strength – *Greater performance, longer tool life.*
- **Tool Operates at -5 °** - Motor doesn't stall in cold conditions – *Gets the job done.*
- **Pump Housing Pressure Tested to 20,000 PSI** – Works under extreme conditions – *Handles heavy duty applications.*
- **All Steel Slide Crank Mechanism** – Less parts and greater durability – *Less down time.*
- **All Steel Gear Box** – More durable than competitive plastic gear tools – *Longer tool life.*
- **Glass Filled Nylon Housing** – Durable high impact strength – *Longer tool life.*
- **Over Molded Comfort Cushion Trigger** – Soft touch with precise control – *Less finger stress and strain.*
- **18 Volt 2.4 AHr Slide-on Battery** – Eliminates down time – *Keeps you working.*
- **Industrial Strength Steel Gearing**

**CGG4850 – 18 Volt Cordless Grease Gun** includes:  
Cordless Grease Gun, (2) batteries (CTB4185), charger (CTC420)  
and case (CGG4850-18).

*Also available:*

**CGG4850DB** – Grease Gun only

**CGG4850DEM** – Demo Tool

## WARNING

- Wear safety goggles. (User and bystanders)
- Wear hearing protection. (User and bystanders)
- Do not use Grease Gun above rated 7,500 PSI.
- Read additional safety precautions on pages 534 to 537 in product catalog CAT1000.

This master kit tests fuel injection pressure on major Domestic, European and Asian model multiport fuel systems.

### ***Features and Benefits:***

- New set to replace the EEFI307 and EEFI308.
- Convenient label shows image of components, part numbers and applications for quick easy identification and storage.
- Fully detailed user manual includes test connection illustrations and application charts.
- Kit contains a tee manifold with shut-off valve, and a 3 – 1/2" diameter gauge assembly with a blow down valve, and the adaptors needed to test most fuel injection systems.
- New quick connect allows set to work with prior EEFI sets and multiple adaptors on the market.
- New blow molded case with special removable lid allows for convenient storage in 4" drawer and easy access to components.

Fits in 4" drawer for convenient access to components.

Lid closed and locked for easy safe transport.

Lid flipped to see feature & benefit label of internal components without having to open case.

## Patented PowerFlex movement has durability and accuracy to spare

**TPRG60 – Pro Race Gauge – 60 PSI**

### *Features and Benefits:*

- **Pro gauge PowerFlex movement** that holds up to rough handling and demanding applications.
  - *Superior shock resistance:* Unique design isolates the movement from the socket, reducing the effects of shock.
  - *Superior vibration resistance:* Enhanced vibration dampening design cushions the movement for extended gauge service.
  - *Superior pulsation performance:* After 10 million cycles, the PowerFlex movement shows three times less wear than conventional gauges.
- **Professional Grade Accuracy**
  - *Large 3 1/2" dial makes for easy gauge reading:* Features a test gauge like accuracy of 1% in the middle half of scale.
- **Heavy Duty Racing Chuck:**
  - *Tough reinforced rubber flex hose.*
  - *Tapered straight chuck makes it easy to get a quick seal against tire valve.*

#### **WARNING**
