

# Satellite L850

A CLASS ACT, INSIDE AND OUT.

Large touchpad

Fingerprint-resistant finish

2 USB 3.0. ports and  
HDMI port

A class act inside and out. With the Satellite L850, you will enjoy movies, games and tunes in brilliant HD. On the outside, the stylish chassis blends matt and glossy elements in an innovative finish that has been made to resist fingerprints. You can choose between five colours\* that will always look good, no matter how hard the use. And use it, you will. Because on the inside, it comes with a high-value package of multimedia features and is powered by the latest processors, latest graphics and huge memory capacity. All built with typical Toshiba toughness, so you can watch your movies, play your games and groove to your tunes non-stop on the 39.6cm (15.6") laptop display.

## THINKS HD LIKE A TV

Enjoy HD content on your display with LED backlighting or use the HDMI connector to plug into your HD TV. If you have a model with Blu-ray drive\*, you can even watch movies in 3D on your 3D TV thanks to 3D HDMI support.

## GREAT CHOICE INSIDE AND OUT

The stylish chassis comes in five glossy colours\* and features a fingerprint-resistant finish. The choice of latest processors, graphics and large memory lets you configure just the right performance for your needs.

## GREAT CONNECTIONS

The Satellite L850 features two USB 3.0 ports and one USB 2.0 for fast data transfer. USB Sleep-and-Charge lets you recharge your mobile devices without switching the computer on.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com) and/or contact Toshiba Technical Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at [www.computers.toshiba-europe.com](http://www.computers.toshiba-europe.com). - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
