

**COMPANY PROFILE**

Shenzhen Green Leaf Technology Co., Ltd. is an integration enterprise which specializes in R&D, production, sale and after-sales service of electronic cigarette. We have been on electronic cigarette field for 6 years. Before selling our own products, we were the main supplier of several famous Chinese e cigarette companies. We have released our first brand-Pioneer4you, and more brands will come out to the market in future.

With over 500 employees, including 10 QC Engineers and 50 engineers in R&D department, Green Leaf Technology Co., Ltd designs and produces the most suitable and innovative products for our customers. Equipped with over 2000m<sup>2</sup> GMP factory workshop, which is controlled by ISO 9000 system, the superior quality of our products is fully guaranteed.

Green Leaf Technology Co., Ltd. sincerely hopes to build long-term business relationship with distributors worldwide. OEM/ODM is welcome.

As the witness of e cigarette development, we will keep running in the forefront on the market. Pioneer4you---to make your E-Vaping life health, enjoyment, ease!

Shenzhen Green Leaf Technology Co.,Ltd  
Pmax User Manual

Company Profile..... 1  
 Standard Package And Specification..... 3  
 Main Features..... 4  
 How To Operate Pmax ..... 5-8  
 Warranty..... 9  
 Tips..... 10

**Standard Package:**  
 1 x Pmax body  
 1 x atomizer,  
 1 x manual,  
 1 x gift box  
 1 x mobile charger adapter

**Specification:**

Length*Diameter	Weight	Thread
106(131)*23mm	163g	510 & ego thread
Material	Variable Voltage (VV)	Variable Wattage (VW)
stainless steel 304	3.0 --6.0V	3.0 --15.0W

**Main Features**

- Resistance check
- Battery level
- RMS&MEAN voltage
- Smoking time check
- Current display
- Output voltage display
- Setting memory
- Charge the phone

**Operation of Pmax**

- Press 5 times continuously to turn on the mod.
- Press 3 times to browse the menu when the screen has shut down.
- Choose the menu and wait 2 seconds to enter it; then set the item and wait for 2 seconds to save your setting.
- If there is no operation in 2 seconds, the mod will exit the menu automatically.

**MENU**

**1. OUT ON/OFF**  
Disabling the button  
The device can be disabled to prevent from unwanted firing by selecting 'OUT OFF'. When 'OUT ON' is selected then the device will work normally and atomizer will fire.

**2. Increase Voltage/Wattage**  
To increase the Voltage from 3.0V to 6.0V in 0.1 Volt increments, or power from 3.0W to 15.0W in 0.5 Watt increments.  
\*Select Voltage or Wattage setting in menu 7.

**3. Reduce Voltage/Wattage**  
To reduce the Voltage from 6.0V to 3.0V in 0.1 Volt decrements, or power from 15.0W to 3.0W in 0.5 Watt decrements.  
\*Select Voltage or Wattage setting in menu 7.

**4. BATTER VOLTAGE**  
Battery level indicator  
To check the battery voltage. A fully charged battery will have 4.2V. We recommend charging the battery when it falls to 3.3V. Pmax will switch off automatically when the battery level reaches 3.1V.

**5. LCD DISPLAY**  
Information to display  
To select what the display shows you while the button is pressed:  
**Voltage:** to display the output voltage  
**Time:** to display the time of each puff  
**Resistance:** to display the resistance of atomizer  
**Current:** to display the working current

**6. Switch LCD on/off**  
If 'ON' is selected, the LCD will display your settings when the button is pressed. If 'OFF' is selected, the LCD will not display your settings when the button is pressed.

**7. Select VV or VW**  
To choose between variable voltage and variable wattage.

**8. Select RMS or MEAN voltage.**  
\*RMS is recommended

**9. To charge the mobile phone**  
Connect the mobile phone to the Pmax with a USB charger. Choose 'Mobile OUT ON', press for 10 seconds and it will charge the mobile. In this period, the LCD will show "Warning!" and "No smoking".  
To stop charging, press for another 10 seconds and separate the mobile and Pmax.  
Please make sure you have set Mobile Out OFF after charging. Only in this mode can you smoke.  
\*Only when using one battery can you charge the phone.

**NOTES**

- Clean the thread after using in case of rusting and corrosion.
- Do not reverse the battery in the tube.
- Turn off Pmax when not using.
- Do not use the protected batteries.
- Had better not put Pmax in your pocket. A hanger is recommended.

**Tips**

Error-code: Short=short circuit of the atomizer  
 Low-V= under voltage  
 HHH= over voltage

**Warranty**

Please consult with Green Leaf official distributors retailers or retailers for their warranty and return policy. Green Leaf's warranty does not apply to products purchased through third party vendors.

Pioneer-GS User Manual

Company Profile..... 1  
 Standard Package And Specification..... 3  
 Main Features..... 4  
 How To Operate Pioneer-gs..... 5-8  
 Warranty..... 9  
 Tips..... 10

1.

2.

**Standard Package:**  
 1 x Pioneer-GS body,  
 1 x atomizer,  
 1 x manual,  
 1 x gift box,  
 1 x mobile charger adapter.

**Specification:**

Diameter* Length	Weight	Input Voltage	Output Voltage
25 x 107mm-132mm	115g	3.2~8.4V	3~6V
Output Wattage	Maximum Current	Load Resistance	Material
3~15W	5A	1~5Ω	Stainless Steel

**Main Features**

- Gravity Sensing System
- Vibration Function
- Output Short Circuit Protection
- Low Voltage Protection
- Reverse Battery Protection Circuit
- Atomizer Resistance/Voltage or Wattage / Automatic or Manual Operation/Smoking Time/Battery Level / Current Puffs display

3.

4.

**How to operate Pioneer-GS**

**Turn On**  
 Press the button 5 times continuously with vibrating to turn on the Pioneer-GS, you can see our logo on the screen, then step into standby mode.

**Enter setting menu**  
 Under the standby mode, press the power button 5 times continuously with vibrating to enter the setting menu.

**Exit setting menu**  
 A. Lean the body to left in the EXIT menu  
 B. Leaving the device in any menu mode without any operation over 20 seconds, the Pioneer-GS will exit the setting menu automatically.

**Menu**

1. SYSTEM ON/OFF  
 Enter the setting menu, display the first menu: "SYSTEM", and it shows "ON".  
 Lean to left, you will see "OFF" and the Pioneer-GS will turn off after 2 seconds.

2. VOLT  
 Lean the device to right or left to increase or decrease the output voltage by 0.1 volts.

3. WATT  
 Lean the device to right or left to increase or decrease the output power by 0.1 watts.

5.

6.

4. SHOW ON/OFF  
 Lean to right or left to make the screen display "ON" or "OFF" when you are smoking.

5. MOBILE ON/OFF  
 Lean to right or left, choose MOBILE function "ON" or "OFF".
