Important Safety Instructions

Shock Hazard Marking and Associated Graphical Symbols

Explanation of Safety Related Symbols

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING – To Reduce The Risk Of Fire Or Electric Shock, Do Not Expose This Apparatus To Rain Or Moisture.

X	Correct Disposal of This Product (Waste Electrical & Electronic Equipment)
household wastes at the end of its	t or its literature, indicates that it should not be disposed with other working life. To prevent possible harm to the environment or human osal, please separate this from other types of wastes and recycle it ite reuse of material resources.
	ther the retailer where they purchased this product, or their local re and how they can take this item for environmentally safe recycling.
	supplier and check the terms and conditions of the purchase contract, th other commercial wastes for disposal.

Important Safety Instructions

Before connecting the AC power cord to the DC adapter outlet, make sure the voltage designation of the DC adapter corresponds to the local electrical supply.

Never insert anything metallic into the cabinet openings of the Liquid Crystal Display LCD Monitor: doing so may create the danger of electric shock.

To avoid electric shock, never touch the inside of the LCD Monitor. Only a qualified technician should open the case of the LCD Monitor.

Never use your LCD Monitor if the power cord has been damaged. Do not allow anything to rest n the power cord, and keep the cord away from areas wherepeople can trip over it.

Be sure to hold the plug, not the cord, when disconnecting the LCD Monitor from an electric socket.

Openings in the LCD Monitor cabinet are provided for ventilation. To prevent overheating, these openings should not be blocked or covered. Also, avoid using the LCD Monitor on a bed, sofa, rug, or other soft surface. Doing so may block the ventilation openings in the bottom of the cabinet. If you put the LCD Monitor in a bookcase or some other enclosed space, be sure to provide adequate ventilation. Put your LCD Monitor in a location with low humidity and a minimum of dust.

Do not expose the LCD Monitor to rain or use it near water.

(in kitchen, near swimming pool, etc.). If the LCD Monitor accidentally gets wet, unplug it and contact an authorized dealer immediately. You can clean the LCD Monitor with a damp cloth when necessary, but be sure to unplug the LCD Monitor first.

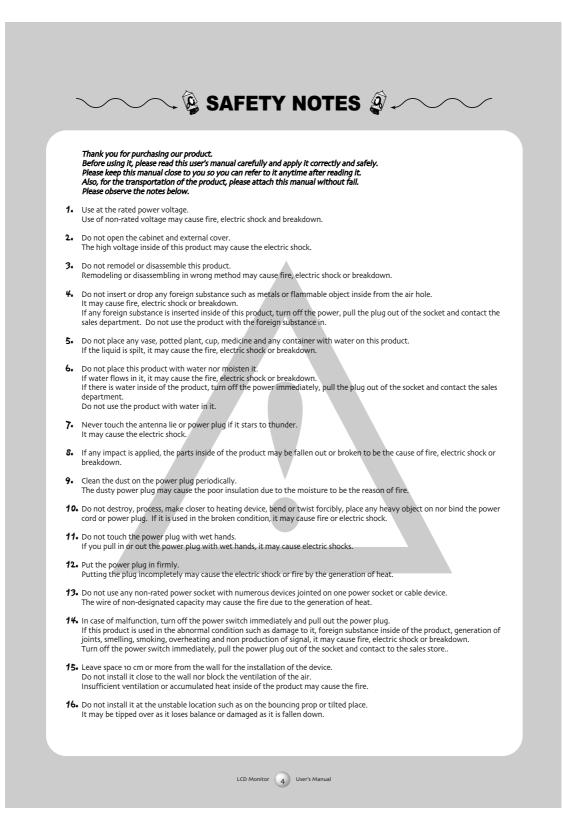

Place the LCD Monitor on a solid surface and treat it carefully.

The screen is made of thin glass with a plastic front surface and be damaged if dropped, hit or scratched.

Do not clean the front panel with keton-type materials (e.g., acetone), ethyl alcohol, toluene, ethylacid, methyl, or chloride - these may damage the panel.

Locate your LCD Monitor near an easily accessible AC outlet.

	Do not install at the place with moisture or dust. It may cause the fire or the electric shock
	Do not install it at the place with poisonous gas. It may cause the fire.
	Do not install it at the location with continuous vibration. It may be tipped over as it loses balance or damaged as it is fallen down.
	Do not install it at the place on the strong magnetic field or current field. It may cause fire, electric shock or break down. This equipment may be observed deterioration of the picture by electromagnetic radiation in electromagnetic environment.
	Fasten the wheel of the product or shelf with wheels when installing this product. If it moves or is tipped over, it may be damaged.
	Do not leave it in the car under the burning sun for a long time. The high temperature may distort the cabinet or the parts inside may be broken down or heated. If you use this product in this condition, it may cause the fire, electric shock or breakdown due to the short circuit or poor insulation.
	Do not place any fire source such as candlelight close to this product or place it on this product. If it is tipped over or fallen down, it may cause damage or fire.
	Do not sprinkle water drops or water on this product. It may cause the fire, the electric shock or breakdown.
	Do not place heavy objects on this product. It may be tipped over as it loses balance or damaged as it is fallen down.
	Do not transport it with the power cord or the connection cable connected. If you move this product with the power cord or the connection cable connected, the damaged power cord, connection cable or connection terminal may cause the fire, the electric shock or breakdown.
	Pull the power cord out while holding the plug portion. If you pull the power cord out by force, the cord may the fire or the electric shock.
	Do not use it outdoor. Dust or rainstorm may cause the fire, electric shock or breakdown.
	Do not climb on this product. If you climb on it, it may damage or hurt it.
	2 persons or more shall transport the device, which is heavier than 18 kg. If you drop or tip over the device, it may damage it. The weight is indicated on the user's manual.
	Use the attached power cord and connection cable, or those, which are indicated on the user's manual. If you do not use the designated power cord and connection cable, it may cause the electric shock or breakdown.
	Turn off the power switch when connecting the power cord or connection cable. If you not turn off when connecting it, it may cause the electric shock or breakdown.
3.	Do not use any chemical such as the paint thinner or benzine to clean the cabinet. It may scratch the surface or disappear the indication to cause wrong operation, whch can be the reason for disorder.
	Clean the cabinet with 5~6 time diluted neutral detergent water on smooth cloth as stirring to remove the contamination. After that, clean it with dry cloth to remove any stain.

FUNCTIONS AND CONTROL METHODS

1. POWER BUTTON

: Press to turn the LCD monitor ON. The POWER LAMP above the switch will illuminate.

2. POWER LED LAMP

: When SET is normally operated, a green lamp is turned on. The green lamp flickers in the status of STAND-BY. STAND BY : ON/OFF BUTTON is off

3. PC BUTTON

: When you press this button, PC mode is selected.

4. S-VIDEO BUTTON

: When you press this button, S-VIDEO mode is selected. If you want to see a clean and clear video through S-VIDEO input, select this.

5. V2 BUTTON

: When you press this button, VIDEO2 mode is selected.

Select this button to insert the camera input or video input into VIDEO CH2 terminal.

6. V1 BUTTON

: When you press this button, VIDEO1 mode is selected. Select this button to insert the camera input or video input into VIDEO CH1 terminal.

7. VOLUME +, - BUTTON : Adjust the volume up and down.

8. SEL BUTTON

: When you want to select the desired item in menu, press this button to move.

9. MENU BUTTON

: When you press this button, the menu window appears. When you press this button again, the menu window disappears.

10. 11. 12. 13 VIDEO IN/OUT

: This is the terminal to receive the video from the camera. It is used to connect the video, to connect & record the video, or to connect many monitors.

14. 15. 16. 17 AUDIO IN/OUTPUT

: It is the terminal to receive the audio from the camera. It can be used by connecting the external audio equipment.

18. S-VIDEO JACK

: When you want to see a high definition S-VIDEO, use the S-VIDEO input of this monitor. You can enjoy the clean and clear video.

19. PC JACK

: When you use this monitor as PC monitor, you can use it by connecting the PC Cable to PC Jack of this monitor.

20. POWER INLET

: Inlet the AC power (AC100~240V, 50/60Hz)

21. KENSINGTON LOCK HOLE

It will be able to prevent a robbery.

FUNCTIONS AND CONTROL METHODS

MENU Operation

- ①When you press the MENU button, the MENU window appears on screen.
- (2) Press SEL BUTTON to move to the desired item.
- ③ Press VIO+ key to select the desired item.
- (4) To shut down the MENU window, wait for time when the MENU window disappears or press the MENU button again.

MENU in VIDEO1, VIDEO2, and S-VIDEO

It shows the MOVE button, SEL button, and EXIT button on a bottom of MENU window.

	MAIN MENU
