Final Project

Final Project

Due on August 5th, 2009 11.55 PM

Review Module 1, Module 2 & Module 3 before attempting

For your Final Project do the following -

-Open a Notepad and create a web page using HTML codes.

The page will have the following –

- Your Name
- Your address
- Two lines about you
- Your favorite picture
- The background color of the webpage will be 'light yellow'.
- Give your choice of colors to the fonts.

-

Save it as .htm or .html and check it in your browser. If you are not satisfied with your result go back to the notepad and recheck your codes. Once you get the wanted result in your browser submit the file.
- Submit your Final Project using the Blackboard Assignment submission area.
- Save your file in the following format: lastnameproject.html
  - Do NOT save your file using special symbols such as #. You will have errors.
  - Click on the >> View/Complete Assignment: Final Project link below.
  - Browse for your file and click submit.

Have you come across HTML codes before? Has it interested you to master the skill
or would you prefer WYSIWYG HTML editor like Dream Weaver? Why or why not?
