X Map Systems

Makes it happen

Introduction :

Thank you for buying the X-Audio portable weatherproof outdoor audio speaker system.

We take great pride in designing each of our products. Our goal is to provide high-end rugged products. We strive to improve our quality by using up-to-date high performance technology.

At X-Systems we reinvest 100% of our earnings back into the company. This enables us to support research and development to ensure our reliability in the future.

We advise you to read this manual carefully as we will guide you through the functions of the system. Instructions about the navigation system will be given and in about 2 minutes you will enjoy the possibilities of this all-round product.
Please read through the User's Manual before using. When you use the product, we think you have read through this manual.
The information provided in this manual, is as accurate as possible after being revised carefully. If any printing error or translating mistake occurred in the manual, our company would not bear the outcome due to such mistake or error.

The X-Audio is hi-tech product, including operating system and the software provided by the third parties. The producer has fulfilled its obligation in the manufacturing of hardware and in the developing and applying of software to ensure the product works normally. If there is something wrong with the product, the producer will shoulder the repair responsibility against the quality warrant and will not make any compensation to the property and economy losses incurred from using the product.

The ownership and copyright of the manual belong to our company. The manual is not allowed to replicate or translate in whole or in part for any commercial activity. Our company reserves the final explanation right to the manual contents.

Index :
