Box contents:

NudeAudio Move S

USB charging cable

User manual

Introduction

The Move S Wireless Portable Speaker by NudeAudio uses the latest Bluetooth technology to stream audio wirelessly from any smartphone or tablet — and most laptops. Ultra-portable, infinitely inviting to touch, and compact enough to slip into a pocket, it's easy to take along and amplify your favorite tune. With an 8-hour battery life, it makes it as convenient as it is compact.

Wireless Music

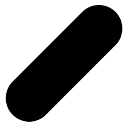

3.0 Bluetooth wireless streaming technology provides a range of up to 10 meters or 30 feet. Good to go with most smartphones, tablets, laptops and other Bluetooth-enabled devices, including the iPhone, iPod and iPad.

Easy setup

You need to pair your device only once with the Move S, and it takes just a few seconds. The Move S Bluetooth speaker will remember up to 8 devices and reconnect with the touch of a button.

Wireless control

Once a device is paired, you have complete control of your music from the palm of your hand — play, pause, fast-forward, rewind, or skip a track using your media player.

NUDEAUDIO

Long-lasting rechargeable battery – The built-in high performance Lithium-ion battery can be charged from any USB source and will retain up to 50% of its charge for 3 months. The LED light and notification sounds will also alert you when the speaker is running out of power.

Designed to move - A thick, protective silicon sleeve is smooth to the touch, making these portable speakers feel at home in your hand whilst also protecting against knocks or bumps. The organic shape, light weight and compact size make the MOVE S truly portable and pocket-friendly.

Compatibility

Available in grey and mint or charcoal and coral, the Move S by NudeAudio is compatible with smartphones, tablets and other devices that support Bluetooth wireless audio profile [Advanced Audio Distribution Profile (A2DP)] or have a 3.5 mm audio output.

Dimensions

The Move S is lightweight and compact with dimensions of 79x79x39mm and weight of only 130g (4.58 ounces).
