User Manual	MCD
Parking Management System	

1. Introduction

This user's manual provides information about how to use **Parking Management System** as a powerful management vehicle for the MCD that is ready to move beyond the traditional tools and style of operation. The manual addresses the needs of RP Cell Department stakeholders (MCD, Public); including some information for the Parking Management System (Administrator), and including some information for systems technical support people (Technical).

The Parking Management System application will facilitate the process of management of the different parking sites present with MCD, which includes managing the accounts of contractors who manage the day to day transactions happening on parking sites as well it will facilitate the MCD officials to do their regular jobs with increased transparency and more efficiency.

The user manual has been divided into three parts, covering the usefulness of the application from three different user perspectives namely:

1. Public (Disposal of information related to Parking Sites)
2. Contractors (Management of accounts for running of Parking Sites)
3. MCD Officials (Administration of Parking Sites and related works and requests)

The manual has been prepared from the user perspective, where the user is already aware of the manual process of managing the day to day transactions for outsourced Parking Sites.

2. Audience Analysis

This user's manual has been designed to cater to the needs of different Audience (users) of the application. The basic audience is and not limited to the one listed in the table.

5. Public/Agency

As already mentioned in [3.1](#) and [3.2](#) the Public and Agency can avail the facility of Viewing Parking Sites, Viewing Parking Charges, Viewing Policies/Circulars, View Dues, Manage Account, Lodge and Track complaint etc.

In the below pages its mentioned how to make use of them.

5.1 View Parking Sites

In order to view the parking sites available across Delhi, which fall under the MCD jurisdiction, user needs to click on the link “**Parking Site List**”. Clicking on this link will navigate the user to the page showing the details of the Parking Sites. Logical filters like zone, parking site name, parking site type and parking status have been provided on the page that will help the user to refine the list of displayed parking sites.

The screenshot shows the 'View Parking Sites' interface. On the left is a navigation menu with categories like 'General Services', 'Grievance Management', 'Architecture', 'Nursing Admissions', 'Hospital Admin', 'Public Health', 'Town Planning', 'Advertisement', 'Medical Certificates', 'Vigilance', 'Parking Management', 'Complaints', 'Community Services', 'Veterinary', and 'Horticulture'. The main content area has a search form for 'Search Parking Site' with dropdown menus for 'Zone', 'Parking Site Name', 'Parking Site Type', and 'Parking Status', and a 'Search' button. Below the search form is a table titled 'Parking Site List' with the following data:

S.No.	Parking Site ID	Zone	Parking Site Name	Address line1	Parking Status	View	Status
1	PKS/2011/00001	South	Lajpat Nagar	Central mkt	Un Allotted		Green

6.14 Create Inspection

This link will be enabled for HOD, Assistant Commissioner, Superintendent, Administrative Officer and Field Inspectors, and Additional Commissioners of MCD in case if they want to initiate an inspection for an MCD authorized parking site or any other site where unauthorized parking is being carried out.

The inspection report is divided into three different sections. The first section is intended to capture the inspection details. User should enter all the necessary (*marked) information. The other details should be entered or uploaded as per the availability.

Inspection here can be initiated either for an MCD authorized parking site or any random site where unauthorized parking activities are being carried out.

6.15 View and Resolve Inspection

This link will be enabled for HOD, Assistant Commissioner, Superintendent, Administrative Officer and Field Inspectors, and Additional Commissioners of MCD for them to view the details of a pending inspection that will be shown in the inspection dashboard.

Workflow for Inspection:

An inspection is driven by a workflow as defined in the system and followed in MCD. Anytime an inspection is initiated by anyone in the hierarchy it goes to the below level till the last point and traverses back to the top most level in hierarchy until it gets closed. A person at top in hierarchy has the option to ***Reject or initiate Rework***. On doing so the flow goes back one level below for the next person to again work on the inspection.

The workflow is as given below:

6.24 View and Take Action on Complaint Request

This link will be enabled for HOD, Assistant Commissioner, Superintendent, Administrative Officer and Field Inspectors of MCD for them to view the details of a complaints lodged by a citizen or a contractor and the same will be shown in the complaints dashboard.

Workflow for Complaint Request:

A complaints request is driven by a workflow as defined in the system and followed in MCD. Anytime a complaint is initiated by a citizen or a contractor it comes to HOD who assigns it to some employee in department and then from there it goes to the below level till the last point and traverses back to the top most level in hierarchy until it gets closed. A person at top in hierarchy has the option to **Reject or initiate Rework**. On doing so the flow goes back one level below for the next person to again work on the inspection.

The workflow is as given below:
