

HydrOBox

VAPOR SKUNK™

OWNERS MANUAL

FEATURES

AUTOMATIC TEMPERATURE CONTROL

Advanced technology provides automated temperature control, giving you the purest vaporization.

INNOVATIVE VAPING

Simple and smart function provides a steady vaping experience without having to hold buttons down.

LARGE HEATING CHAMBER

Non-combustion heating chamber keeps the key elements in your herbs for an exceptional vaping experience.

BUILT-IN LITHIUM ION BATTERY

Freedom to charge and enjoy your HydroBox anywhere.

SLEEK PORTABLE DESIGN

Ergonomically designed for the best on-the-go usability. Bottom Slider compartment stores mouthpiece for added portability.

1. CHARGING YOUR HYDROBOX

Place plug end into a wall socket and the cord tip into the bottom of the HydroBox. The LED indicator light surrounding the ON/OFF button will turn green when fully charged. When the indicator light blinks four (4) times and turns off or fails to light up, the HydroBox needs to be charged.

2. TURNING ON THE HYDROBOX

Press the ON/OFF button rapidly five (5) consecutive times within two (2) seconds, this process is an added safety feature. When the unit is on, the heating chamber will illuminate.

3. LOADING HERBS INTO THE HYDROBOX

Open the top slider door and place herbs directly into the ceramic heating chamber. You may store herbs in chamber or attach mouthpiece for immediate enjoyment. For best results, use grinded herbs.

4. ATTACHING THE MOUTHPIECE

Open the bottom storage compartment slider door and remove mouthpiece. Open top slider door and screw mouthpiece into the threaded ceramic heating chamber hole.

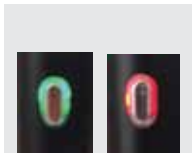

5. GETTING YOUR PURE VAPOR EXPERIENCE

Once the HydroBox chamber is ON, press and hold the ON/OFF button for five (5) seconds and release. The indicator light will be red, and the heating chamber will automatically begin heating. Once the heating chamber has reached the perfect temperature, the indicator light will turn green and the temperature will remain consistent and ready to vape. The chamber will automatically turn off after 10 minutes of inactivity. Your indicator light will turn off if this happens. Repeat process for additional cycles. Reload herbs when vapor starts to thin.

6. SLEEP MODE/OFF

Hold down the ON/OFF button for five (5) consecutive seconds and release. The indicator light will turn off, but the heating chamber will still be illuminated. To Turn the HydroBox off -push the ON/OFF button rapidly five (5) consecutive times within two (2) seconds. All lights will be off when the HydroBox is off.

WARNING

Do not use damaged charger. For replacement charger, visit www.vaporskunk.com
