Multi-level conical grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

Specific benefits

Latte macchiato at the touch of a button	■
Cappuccino at the touch of a button	■
Powder recognition for additional ground coffee variety	■
Intelligent preheating	■
Integrated storage compartment	■
TÜV certificate for user-friendly user manual	■

Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Adjustable coffee strength	5 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	2 levels
Hot water temperature can be programmed to 3 levels	■
Clear text/graphic display	■
Rotary Switch	■
Programmable switch-off time	■
Active bean monitoring	■
Integrated cappuccino rinsing and cleaning programme	■
Maintenance status display	■

Design and materials

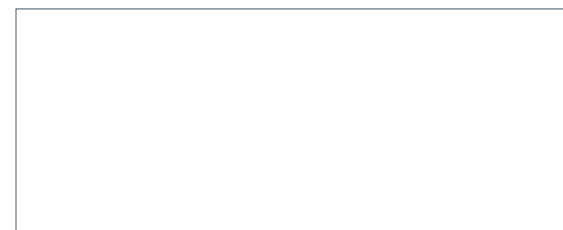

Height-adjustable coffee spout	65–111 mm
Width-adjustable coffee spout	20–50 mm
Height-adjustable cappuccino spout	150 mm/110 mm
Amber cup illumination	■
Connector System®	■
Sound design	■

Accessories

Stainless steel vacuum milk container	■
Cup warmer	optional
Cool Control	optional
Professional Cappuccino Frother	■

In figures

Water tank capacity	2.1 l
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	250 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption	12 Wh
Energy consumption with E.S.M.®	approx. 5 Wh
Stand-by power	≤ 0.01 W
Weight	10.75 kg
Dimensions (W x H x D)	28.5 x 34.2 x 43.3 cm
Checks	CE Ⓢ
Article number/colour	EU: 13451 Chrome

Latte macchiato at the touch of a button

Eco-intelligence

Follow your intuition

A reflection of excellence

IMPRESSA J9 One Touch

Dazzling performance

The luxury machine in the IMPRESSA J line reinvents the concept of perfection. The One-Touch Cappuccino function allows you to make trend specialities at the touch of a button, and because you are free to choose how much coffee powder you use (5–16 g), milk specialities have a typical, intense espresso flavour. The integrated cup illumination gives the coffee or espresso a warm amber glow. In the integrated storage compartment you will find two different cappuccino frothers: one for cappuccino cups up to 110 mm tall and one for latte macchiato glasses up to 150 mm tall.

Latte macchiato at the touch of a button

The One-Touch Cappuccino function allows you to make trend specialities topped with milk foam at the touch of a button, without having to move the cup. Latte macchiato glasses up to 150 mm tall will fit under the spout.

Eco-intelligence

Saving energy doesn't have to mean sacrificing enjoyment. Quite the contrary. In Energy Save Mode (E.S.M.®) the JURA IMPRESSA J9 One Touch uses up to 40% less energy. The patented Zero-Energy Switch switches the machine to off mode after coffee preparation and the automatic switch-off rinse. Consuming less than 0.01 W, the standby energy is one hundred times lower than the value specified in the EU standard*. The machine can be completely disconnected from the power supply using the power switch.

*EuP standard no. 1275/2008 from 2010: 1.0 W

Follow your intuition

The clearly defined function keys help you to find what you're looking for quickly. The user can also refer to the plain text display with progress bar for extra help and information. With the simple control philosophy, it's never been easier to fulfil your coffee dreams. Prepare cappuccino, lungo, espresso or ristretto – all at the touch of a button!

The pictograms on the preparation buttons have dimmable illumination.

A reflection of excellence

With its multi-award-winning design, clean lines and beautifully finished surfaces, the IMPRESSA J9 One Touch is a showpiece. The front panel is chrome-plated and polished to a high gloss, while the housing has a stylish platinum look.
