

# M55 Multi-Fuel Stove

Freestanding Multi-Fuel Stoves by

# THE ENVIRO M55

## Optional Tinted Mirrored Glass -

Optional mirrored glass reflection hides the ash when the stove is off. When the stove is on, the glass has a hint of color that will enhance the glow of the nicest pellet flame in the industry!

## Standard Wall Thermostat -

The M55 comes with a standard wall thermostat.

## Optional Wireless Digital Wall Thermostat or Remote Control -

An optional wireless digital Wall Thermostat and remote control are available for the M55.

## Optional Brick Liner -

Sturdy, attractive brick liner can be used in place of the fluted liner to give a rustic, more traditional look to the M55.

## Optional Ceramic Log Set -

Finely crafted, realistic looking ceramic log set gives a new dimension to the pellet fire.

## Optional Wooden Handle -

Give your M55 a different look with the optional wooden handle.

## Premium Pellets, Regular Pellets or Alternate Fuels -

With the touch of a button you can change fuel type - Super Premium, Premium, Standard Pellets, Utility Pellets or Alternate Fuels - from wood pellets, corn, wheat, barley, paper pellets to all bark pellets

## Tri-mode Control System -

You can operate the M55 in three different modes -

1. Manual Mode
2. Hi/Lo Mode
3. Auto/Off Mode

Enviro, in partnership with Global ReLeaf International will plant a tree for every Enviro Wood or Pellet Stove purchased. Every tree planted will help offset our carbon footprint. It's all in the name - Enviro.

### Nicest Pellet Flame in the Industry!

Compare our fire with what you see in other stoves. We think that none can even come close to matching the size, beauty, and efficiency of the M55's flame.

THE M55

### Heating Area -

Heats up to 2500 sq. ft. at 78% efficiency.

### Low Maintenance Burner -

This patent pending technology has an agitator rod in the burn pot that breaks up any clinker or ash and helps move it into the ash pan. This greatly reduces cleaning intervals and also allows you to burn lesser quality, inexpensive pellets and alternate fuels.

### Large Hopper -

Large 80 lb. hopper for up to 48 hrs. continuous burning time.

### Quietest Pellet Stove in the Industry -

Capacitor-driven motor gives very low noise readings - 40 - 45 dB (at 10 ft. away).

### Quick Start Ignitor -

400 Watt Ignitor with air pump for quick starts.

### Large Ash Pan -

Larger ash pan allows for longer periods between cleanings.

### Welded Heat Exchanger -

Each heat exchanger tube is individually welded in for extra durability.

### Fluted Cast Iron Firebox Liner -

Detailed, durable and decorative heavy-gauge construction.

## SPECIFICATIONS

Convection fan (variable speed)	200 CFM
Ignitor	400 Watt
Fuel Capacity	80 lbs.
Weight (empty)	250 lbs.
Btu input (on high)*	55,000
Btu input (on low)*	10,000
Max. Power usage (ignitor on)	600 Watt
Efficiency Rating	78 %
EPA Approved	2 gms/kg
Area heated**	up to 2500 sq. ft.
Vent size	4"
Glass Size	163 sq. in.

## FEATURES

Standard Wall Thermostat
Air Wash System for cleaner glass
Mobile Home Approved
Built-in floor protection - no hearth pad required
Warranty - see dealer for our extensive warranty.

## CLEARANCES

Side wall to unit	12"
