Content

Welcome

Welcome to the AOC family. Congratulations on becoming a proud owner of the AOC D70V50G Android Tablet PC. Your Tablet PC offers you a range of exciting features and much more. Please read the user manual carefully before using your Tablet PC to understand your device and its usage better.

About The Manual

Your AOC device provides high quality mobile communication and entertainment using AOC's high standards and technological expertise. This user manual details the device's functions and features.

- Please read this manual before using the device to ensure safe and proper use.
- Descriptions are based on the device's default settings.
- Images and screenshots may differ in appearance from the actual product.
- Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the AOC website, www.aocindia.com
- Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Applications related to the content may not work properly depending on the device's specifications and the environment that it is used in.
- Available features and additional services may vary by device, software, or service provider.
- Applications and their functions may vary by country, region, or hardware specifications. AOC is not liable for performance issues caused by applications from any provider other than AOC.
- AOC is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software. Attempting to customize the operating system may cause the device or applications to work improperly.
- Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media.
- You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services. To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider.

- Default applications that come with the device are subject to updates and may no longer be supported without prior notice. If you have questions about an application provided with the device, contact an AOC Service Centre. For user-installed applications, contact service providers.
- Modifying the device's operating system or installing software from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your AOC license agreement and will void your warranty.

The Android Advantage

AOC D70V50G comes with Kit Kat 4.4.2 that is capable of performing various functions just like your personal computer and can be personalized according to your needs. For example, you can add and remove applications or upgrade existing applications to improve the functions. At the Android market, an ever growing range of applications, games, movies, and books are available for you to download.

Safety Instructions

Remember to comply with legal requirements and local restrictions when using the phone.

Your device's radio waves may interfere with inadequately shielded medical devices. Consult a physician or manufacturer of the medical device to know whether they are adequately shielded from external Radio Frequency. Switch off your device when regulations require you to do so.

Always keep the device and accessories out of reach of small children. Small parts such as the SIM card, dust cap, lens ring and lens cap as well as the micro SD card can be dismantled and swallowed by small children.

Do not place the device near electromagnetic data carriers such as credit/Debit cards. Information stored on them could be lost.

Permanent hearing loss may occur if you use earphones at high volume for prolonged periods. Set your volume to a safe level. If you experience discomfort in your ears, reduce the volume or discontinue the use of your earphones.

Ring tones, info tones and hands-free talking are reproduced through the loudspeaker. Do not hold the device to the ear when it rings or when you have switched on the hands-free function.

The mains voltage (V) specified on the power supply unit must not be exceeded to prevent damage to the charging device. The power supply must be plugged into an easily accessible AC power socket when charging the battery.

You are advised not to open the device to replace the battery under any circumstances. All other changes to this device are strictly prohibited and will invalidate the warranty.

The device may cause interference in the vicinity of TV sets, radios and PCs.

All batteries can cause property damage, injury or burns if a conductive material tap the exposed terminals. Exercise care in handling any charged battery, particularly when placing it inside your pocket, purse or other container with metal objects. Do not dispose of batteries in fire as they may explode.

Do not use the device while driving. When you have to use the device please use the personal hands-free. Do not put it onto any passenger seat or any place from which it may fall down in case of vehicular collision or emergency braking.

Flight is influenced by interference caused by the device. It is illegal to use a calling device on the airplane. Please turn off your device during a flight.

Professional service: The device must be installed or repaired by AOC authorized personnel. You are likely to suffer a huge risk when you install or repair this phone by yourself, which also goes against the warranty rules.

Getting Started

In Your AOC Box

Check the product box for the following items:

- Tablet PC
- Headset
- Power Adaptor
- Micro USB Cable
- OTG Cable
- Warranty Card
- Quick Start Guide

i. The items supplied with the device and any available accessories may vary depending on the region or service provider

ii. The supplied items are designed only for this device and may not be compatible with other devices

iii. Appearances and specifications are subject to change without prior notice

iv. You can purchase additional accessories from your AOC retailer. Make sure they are compatible with the device before purchase

v. Use only AOC approved accessories. Malfunctions caused by using unapproved accessories are not covered by the warranty service.

vi. Availability of all accessories is subject to change depending entirely on manufacturing companies. For more information about available accessories, refer to the AOC website.

SIM Card Insertion

Insert the SIM card provided by the mobile telephone service provider. A regular SIM card works with AOC D70V50G. Your device is a dual SIM Tablet PC.

To insert the SIM card:
1. Switch off your device and remove the SIM cover.
2. Insert the SIM card correctly with the gold-colored contacts facing downwards in the card slot(s).
3. Push the SIM card into the card slot until fully inserted.
4. Close the SIM cover.
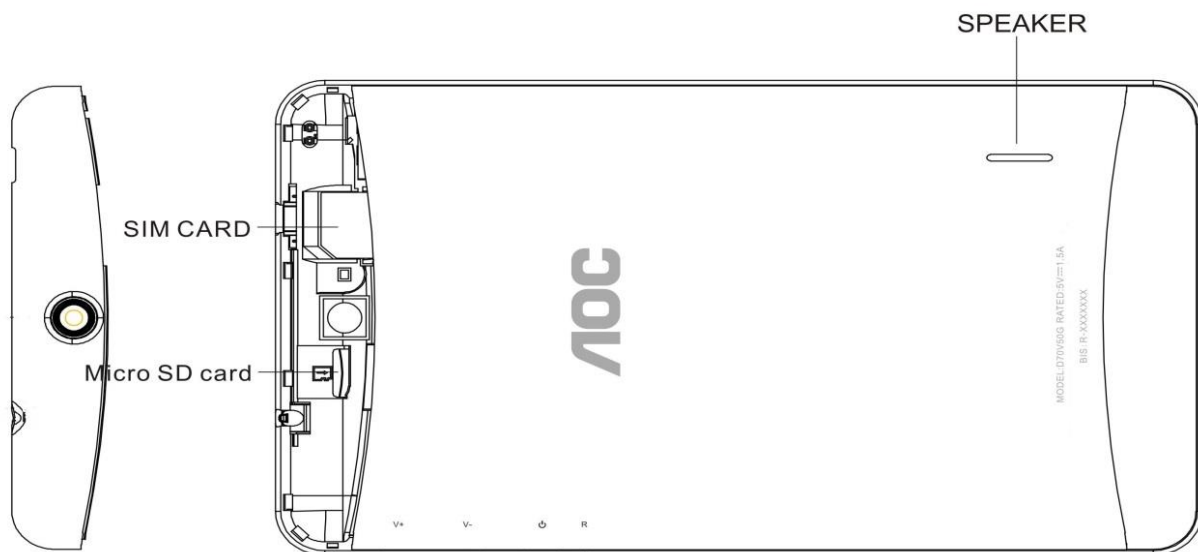

To remove the SIM card:
1. Switch off your device and remove the SIM cover
2. Pull the SIM card out gently

⚠️ **CAUTION:**

1. Do not bend or twist the back cover excessively. Doing so may damage the cover

2. Do not insert a memory card into the SIM card slot. If a memory card happens to be lodged in the SIM card slot, take the device to an AOC Service Centre to remove the memory card.

3. Use caution not to lose or let others use the SIM card. AOC is not responsible for any damages or inconveniences caused by lost or stolen cards.

Memory Card Insertion

Inserting a Memory Card:

Your device accepts memory cards with maximum capacity of 32 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device.

- Some memory cards may not be fully compatible with the device. Using an incompatible card may damage the device or the memory card, or corrupt the data stored in it.
- Use caution to insert the memory card right-side up.
- When inserting a card formatted in a different file system, the device asks to reformat the memory card.
- Frequent writing and erasing of data shortens the lifespan of memory cards.
- When inserting a memory card into the device, the memory card's file directory appears in the File Manager → Home → SD card folder.

1. Remove the SIM cover.
2. Insert a memory card with the gold-colored contacts facing downwards.
3. Push the memory card into the slot until it locks in place.
4. Replace the SIM cover.

Removing the Memory Card:

Before removing the memory card, first unmount it for safe removal. On the Home screen, tap Settings → Device → Storage → Unmount SD card.

1. Remove the SIM cover.
2. Pull out the memory card.
3. Replace the SIM cover.

Do not remove the memory card while the device is transferring or accessing information. Doing so can cause data to be lost or corrupted or damage to the memory card or device. AOC is not responsible for losses that result from the misuse of damaged memory cards, including the loss of data.

Formatting the memory card:
A memory card formatted on a computer may not be compatible with the device. Format the memory card on the device.

On the Home screen, tap Settings → Device → Storage → Format SD card →Erase everything.

Before formatting the memory card, remember to make backup copies of all important data stored on the device. The manufacturer's warranty does not cover loss of data resulting from user actions.
Charging the Battery

Use the charger provided in the box to charge the battery before using the device for the first time. While using the device for the first time, it is advised to charge the device completely for 8 hours. A computer can also be used to charge the device by connecting them via the USB cable. But it is advised to charge the device using the power adapter.

- Use only AOC-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device.
- When the battery power is low, the device emits a warning tone and displays a low battery power message.
- If the battery is completely discharged, the device cannot be turned on immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device.
- If you use multiple applications at once, network applications, or applications that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery.

Charging with the charger

Connect the USB cable to the USB power adaptor and then plug the end of the USB cable into the multipurpose jack. When using a USB 2.0 cable, plug the USB cable into the right side of the multipurpose jack.

⚠️ **CAUTION:**

- Connecting the charger improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty.
- The device can be used while it is charging, but it may take longer to fully charge the battery.
- If the device receives an unstable power supply while charging, the touch screen may not function. If this happens, unplug the charger from the device.
- While charging, the device may heat up. This is normal and should not affect the device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging.

- If the device is not charging properly, take the device and the charger to an AOC Service Centre.

After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket.

- To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging.

NOTE:

1. Check the detailed charging status of the device through:
   Settings →About Device →Status →Battery Level
2. To extend your device's battery life, avoid charging the battery frequently when it is well charged (over 90% charged). It is recommended not to charge your device when it is well charged.

Checking the battery charge status:

When you charge the battery while the device is off, the following icons will show the current battery charge status:

<table>
<tr><td>**Charging**</td><td>**Fully charged**</td></tr>
</table>

Reducing the battery consumption:

Your device provides options that helps you save battery power. By customizing these options and deactivating features in the background, you can use the device longer between charges:

- When you are not using the device, switch to sleep mode by pressing the Power button.
- Close unnecessary applications with the task manager.
- Deactivate the Bluetooth feature.
- Deactivate the Wi-Fi feature.
- Deactivate auto-syncing of applications.
- Decrease the backlight time.
- Decrease the brightness of the display.

Turning the Device On and Off

When turning on the device for the first time, follow the on-screen instructions to set up your device.

Press and hold the Power button for a few seconds to turn on the device.

NOTE:

- Follow all posted warnings and directions from authorized personnel in areas where the use of wireless devices is restricted, such as airplanes and hospitals.
- Press and hold the Power button and tap Flight mode to disable the wireless features.

To turn off the device, press and hold the Power button, and then tap Power off.

Adjusting the volume

Press the Volume button up or down to adjust the ringtone volume, or to adjust the sound volume when playing music or video.
Switching to Silent mode

Use one of the following methods:

- Press and hold the Volume button down until it switches to silent mode.
- Press and hold the Power button, and then tap Mute or Vibrate.

Lock/Unlock the screen

Short press the Power key to lock/unlock the screen. To unlock the screen, you may set any of the following screen locking method:

- Slide the lock symbol towards the unlock symbol.
- Provide PIN or Password, as set by you.
- Draw a pattern, as illustrated below
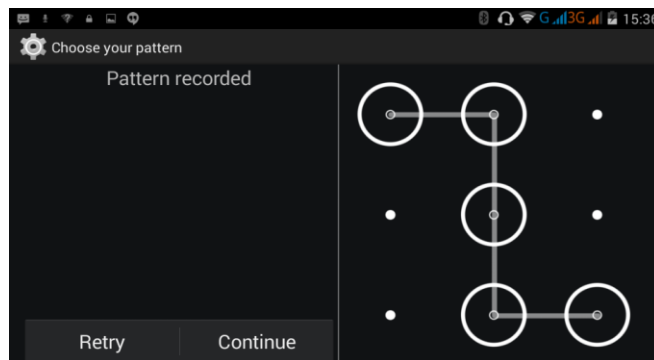

Slide unlock will be the default unlocking method in the tablet. To unlock the screen:

1. Press the power key.
2. Hold and drag the lock icon towards the unlock icon.

You may be required to unlock your tablet based on the unlock method in settings.

NOTE:
- You can set your unlock method from Home Screen/Settings/Security → Security → Screen lock and then choosing your desired method.

Reset the Tablet

If required, you can take a backup of your data and reset factory settings of the tablet. When you choose to reset the tablet, all data in the internal memory of the tablet gets erased. However, clearing the data in the SD card is optional.

To take a backup of your data, go to Settings /Personal/→ Backup & Reset → Back up my data and select your preferences as desired.

To reset your tablet:
1. Go to Settings → Backup & Reset → Factory data reset.
2. If required, select the Erase SD card option and tap Reset tablet.
3. Tap Erase everything.
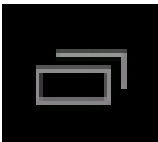

NOTE:
    1. Reset tablet is an irreversible action. Once erased, data cannot be retrieved.
    2. Wireless connection needs to be set-up again.

Using the Touch Screen

Use your fingers to manipulate icons, buttons, menus, the onscreen keyboard, and other items on the touch screen. You can also change the screen's orientation.

Get Around

▪ At the bottom left corner of the screen, you will find three navigation buttons. You can always get back to the main Home screen or return to previous screens using these buttons.

Symbol	Description	What does it do?
	Back	Takes you back to the previous screen you were working on, even if it was on a different application. Once you are back to the Home screen, you can't go back any further.
	Home	Use this key to return to the Home screen directly.
	Context Menu	Displays the task manager with all currently running applications.

Touch and Hold

Tap and hold an item to view the list of actions based on the selected item and condition. Also, you can move an item from the Menu screen to the Home screen using this method.

Drag an Item

Tap and hold an item and move your finger on the screen until you reach the target position. The item follows your finger. You can generally drag items from one location to another on the home screen. Also, you can delete items from the home screen by holding the item and dragging it to the Remove label that becomes available only when you hold the item on the Home screen.

Scroll or Swipe

To scroll a list, slide your finger across the surface of the screen upwards or downwards (without dragging an item). Place a finger on the screen and steadily slide your finger in the desired direction. For example, when you are viewing a picture, to view the next picture, swipe left.

Double-Tap

Tap quickly twice on a webpage, map, or other screen to zoom. For example, double-tap a section of a webpage in the browser to zoom that section. You can also double-tap to control the Camera zoom, in Maps, and in some other applications.

Extended Home Screen

The Home screen consists of the 5 panels that extend beyond the display width to provide more space for adding shortcuts, widgets, and folders. Slide your finger horizontally across the screen to scroll to the left or right side extended home screen. Slide your finger horizontally across the screen to scroll to the left or right side extended home screen.
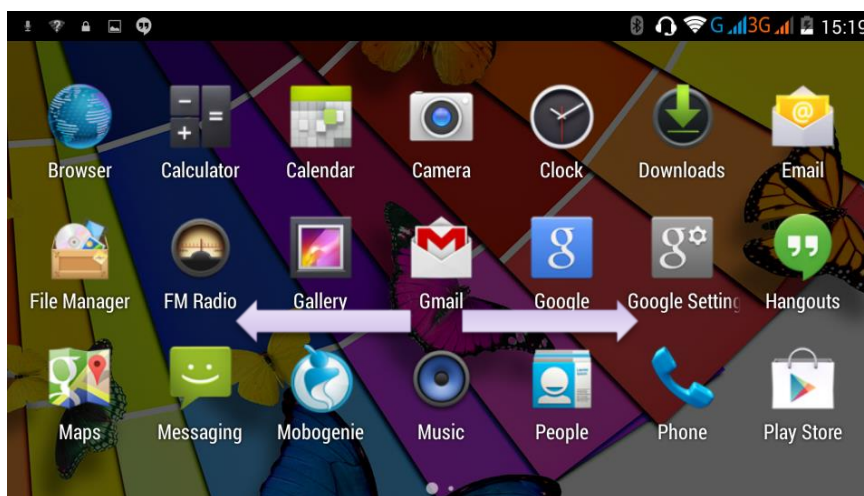

Arrange and Work with Applications

To see all your apps, go to Application Menu screen.

The Application Menu screen displays the grid view of all your applications, including the ones downloaded from Android Market. You can move the app icons to any of your Home screens.

Application Menu allows you to:

- Place an app icon on a home screen: Touch and hold any desired app icon, slide your finger and lift your finger to drop the icon in place.
- Explore your widgets: Tap the **Widgets** tab at the top of the Application Menu screen.
- Get more apps: Tap the icon.
- To remove an app icon from the Home screen, touch and hold it, slide your finger toward the top of the screen and drop the app over the Remove link on the home screen.

Add Widgets

Widgets allow placing application shortcuts on your home screen. You can now place analog clock, calendar, and other such sections of your tablet on the home page and access them directly! To view the list of widgets available, just tap the launcher icon on the Home screen and swipe through menu icons to the widgets screen, as shown below.

To add any widget to your home screen, tap and hold the desired widget on the widget screen and release the hold at the home screen location, where you want to place the selected widget. You may be asked to make further choices before the widget activates. If there is no room where you dropped it, the widget would not get added to the Home screen.

View Notifications

Notification panel informs you of new messages and events. The notifications panel displays the current day, time and the battery percentage of the device. To open the notification panel, tap the time and signal icons in the Top right corner of the screen. You can clear all the notifications from the notifications panel by tapping on icon. Tap the icon in the notification panel to view other options that include:

- **Airplane Mode**: Turn on/off the airplane mode.

- **Wi-Fi**: Activate or deactivate the WLAN connection feature.
