ICE BLUE COOLNESS

Toshiba recommends Windows 8.1

Big HD+ LED display

Large touchpad

2 USB 3.0. ports and HDMI port

The Toshiba Satellite L875 will electrify your big-screen entertainment experience. The thrills start on the outside thanks to the stunning ice blue brushed aluminium chassis. Open it up and get blown away by the extra-wide 43.9cm (17.3") TruBrite® HD+ display and premium package of multimedia features. Like an HD webcam, HDMI port and Blu-ray option. A big sound bar uses all the space above the wide keyboard and SRS Premium Sound HD™ to deliver a rich audio experience. Various configurations are available with the latest generation processors, a choice of graphics and hard disks up to 1 TB. The idea was to give you the most frills and thrills for your money. Because at Toshiba, we believe everyone deserves great performance and better value.

OPEN WIDE

When you open your Satellite L875, the first thing you'll notice is the splendour of the 43.9cm (17.3") Toshiba TruBrite® HD+ display. Launch a video and you'll be glad you went for the big one. Now just sit back and enjoy your content with crisp, bright HD images and deep, rich sound.

ICE BLUE COOLNESS

The slim chassis features a cool ice-blue brushed aluminium finish. And we sealed to resist fingerprints, so it keeps its cool no matter how hard it's working. And work it will with the latest generation processors, a choice of graphics and hard disks up to 1 TB.

START YOUR ENGINES

With the Satellite L875, you get to choose from the very fastest new generation processors and graphics (up to 2 GB VRAM). So whether you're a casual user or video freak, you will always find the perfect configuration to meet your needs.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: www.computers.toshiba-europe.com and/or contact Toshiba Technical Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at www.computers.toshiba-europe.com. - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on select models and configurations tested by Toshiba at the time of publication.
