Extension Overview

- Dealer locator extension use for find nearest dealers like 50 miles, 100 miles in Google map using Zip code. Dealers can create account from the frontend and also from admin. Admin can import dealers using csv from admin, Using import functionality admin can create bulk of dealer's accounts using csv file.Using csv Admin can update the dealer's information and also delete the bulk of dealers from admin using csv file.
- ⇒ Using this extension you can manage all the dealers easily. When dealer register from the frontend then administrator get the email and dealer is in Active. Admin can make dealer active from manage dealers page.

Features of this extension

- 1) Easy to Install.
- 2) Working well in multi store and multi website.
- 3) Compatible in Magento version 1.5, 1.6, 1.6.1, 1.6.2.0, 1.7, 1.7.0.2,
 - 1.8, 1.8.1.0, 1.9.0.0, 1.9.0.1, 1.9.1.0, 1.9.1.1, 1.9.2.0, 1.9.2.1.
- 4) Find all nearest dealers location using zip code and display the distance from the searching location. Also display the all nearest dealer list on result page.
- 5) Display dealers' location in Google map.
- 6) Using this extension you can create bulk of dealer's account using csv file.
- 7) Also delete bulk of dealers, update dealer using csv file.
- 8) Export the all dealers' information.
- 9) Once dealer fill the registration form from the frontend then email goes to the admin with all the filled details.
- 10) Send account activate email to the customer while administrator

Activate the dealer account.

MageBees a Venture by Capacity Web Solutions Pvt. Ltd.

Extension Installation Steps

There are two ways to install the extension in your store.

Manually copy paste files

Step 1:

First logout from magento admin panel if you are logged in.

Step 2:

Unpack the "dealerlocator.zip" purchased extension zip file.

Step 3:

Copy **"CapacityWebSolutions"** folder from app/code/local/ and put it in to your magento app/code/local/ folder.

Step 4:

Copy **"dealerlocator.xml"** file from app/design/adminhtml/default/default/layout and put it in to your magento app/design/adminhtml/default/default/layout folder.

Copy **"dealerlocator"** folder from app/design/adminhtml/default/default/template and put it in to your magento app/design/adminhtml/default/default/template folder.

Step 5:

Copy **"dealerlocator.xml"** file from app/design/frontend/base/default/layout and put it in to your magento app/design/frontend/base/default/layout folder. If you have theme in project then put it in app/design/frontend/default/(your theme)/layout.

Copy **"dealerlocator"** folder from app/design/frontend/base/default/template and put it in to your magento app/design/frontend/base/default/template folder. If you have theme in project then put it in app/design/frontend/default/**(your theme)**/template.

Step 6:

Copy **"CapacityWebSolutions_Dealerlocator.xml"** file from app/etc/modules and put it in to your magento app/etc/modules folder

Step 7:

Make sure to clear cache in admin of magento. Please logout from admin account and login again.

Using magento connect

- \Rightarrow Go to admin \rightarrow System \rightarrow Magento Connect \rightarrow Magento Connect Manager.
- ⇒ You will get following screen. Upload "Dealer_Locator-1.0.0.tgz" file from magento connect and click on the upload button.

Magentoconnect MANAGER

FAQ

1. Display message when search dealer location "Your Google API request limit completed, Wait 24 hour until your API activated in Google API account"? OR same message display while import dealers from admin?

ANS: Google API have some limitation for request Google API URL. You can use 2500 times Google API URL in 24 hour for testing accounts and 100,000 requests per 24 hour for business account.

If you not set the city, country, state, latitude, longitude in csv file for import dealer and there is more dealer for importing then its requested Google API to find the all value using zip for all records or if not set value in above five fields. So please carefully use the Google API URL and if you have all five fields value then please set in csv file.

2. Google has disabled use of the Maps API for this application. This site is not authorized to use the Google Maps client ID provided. If you are the owner of this application, you can learn more about registering URLs here: <u>https://developers.google.com/maps/documentation/business/clientside/aut</u> <u>h#registering_authorized_urls</u> ? OR How to create the Google Api key for your store?

MageBees a Venture by Capacity Web Solutions Pvt. Ltd.

ANS: To Create your Api Key:

- Visit the APIs Console at <u>https://code.google.com/apis/console</u> and log in with your Google Account.
- 2. Click on the API Access on left sidebar.
- 3. Create key for your store use your domain IP Address. See below screen shot
