

Eclipse

Direct Vent System

heatilator[®]
The first name in fireplaces

Eclipse Direct Vent System

The best-valued hearth system in the industry.

- The Eclipse is competitively priced in its category so it can now be included as standard—even in floor plans that previously couldn't afford one
- The Eclipse creates a great opportunity to sell a second fireplace in a home design
- Top direct-vent system only
- 20,000 Btu/Hour input for comfortable heat output
- Direct vent system uses only outside air for combustion and vents outside for better indoor air quality and a healthy home
- Optional fan available
- Comes standard in natural gas or LP models
- Models available in both standing pilot and IntelliFire™ ignition systems
- Utilizes SL-D venting components
- Tested and listed to ANSI standards

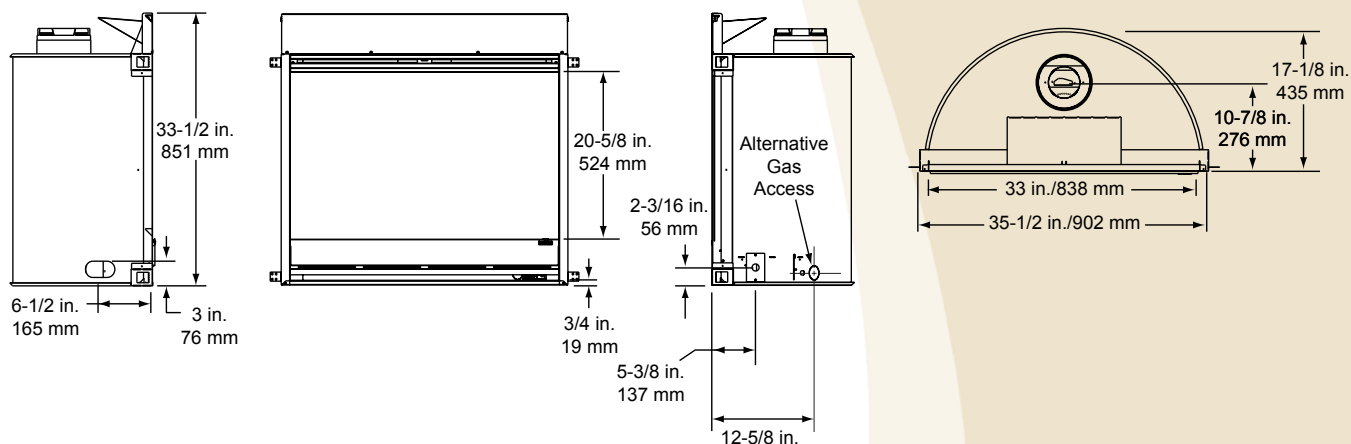

Eclipse Direct Vent System shown with custom tile surround
