Infinity™
Gas Fireplace

Infinity Specifications

MODEL	HEIGHT		FRONT WIDTH		BACK WIDTH		DEPTH		VIEWING AREA
	Actual	Framing	Actual	Framing	Actual	Framing	Actual	Framing	
Infinity	39-1/2	40	38-1/4	39-1/4	22-3/16	39-1/4	19-1/2	20	31-1/2 X 19-1/2

Dimensions above are in inches, and for reference only. We recommend measuring individual units at installation. Assumes the use of 1/2" Sheetrock. NOTE: Combustible material should not be installed over the face of the fireplace. Make sure you do NOT cover the decorative door opening.

Product information is not complete and is subject to change without notice. Product installation must adhere strictly to instructions accompanying product to avoid risk of fire and potential injury. Actual product appearance, including flame, may differ from product images.

There's one fireplace that goes where others can't.

Now just about anyone can enjoy the experience of a gas fireplace. With its patented design, Infinity is able to vent greater distances and with more elbows than any other—up to 50 feet horizontal and 40 feet vertical (90 feet total) with up to 8 elbows. Plus its seamless, clean face design lends itself to any style—from traditional to modern—and many finishing materials—like brick, stone, slate and tile. Add to that a very accommodating 36" wide firebox. The possibilities are endless.

- 35,000 Btu/hr Input (NG)
- Draft assist technology
- 4" Duct collar for the air kit
- Tempered glass
- 7 ceramic fiber logs
- Junction box
- Gas flex connector
- Glowing embers
- Wall switch (WSK-21-W)
- FireBrick® firebox

Limited Lifetime Warranty*

The strongest in the industry, Heat & Glo guarantees protection for all gas units, including a lifetime warranty of the most important aspects: fiber logs, stainless steel burner, firebox and heat exchanger.

Healthy Hearth

Our direct vent fireplaces will not alter the quality of indoor room air in any way. The sealed combustion chamber draws in fresh air from outdoors and discards all combustion by-products back outside.
