CARE & MAINTENANCE

• IMPORTANT : Water damage will occur if the watch buttons are pressed while under water and it will cancel the warranty.

• Avoid extreme force, shock, dust, temperature, or humidity. Such conditions may cause malfunctioning, a shorter electronic life span, damaged batteries, or distorted parts.

• The watch can be wiped clean with a lightly moistened cloth. Apply mild soap to the area if there are stubborn stains or marks.

• Do not use abrasive or corrosive materials to clean the watch, such as sun tan oil. Abrasive cleaning agents may scratch the parts and corrode the electronic circuit.

• Never attempt to disassemble or service your watch.

• Store your watch in a dry place when not in use.
