

**HEAT & GLO™**  
Where everything comes together

**Paloma™**  
Freestanding Gas Fireplace

Up-to-the-minute  
& state-of-the-art

**A.** Curved outer glass front comes standard with a choice of bronze, gray or green tint. (Bronze shown.)

**B.** Optional color-tinted hearth pad available in bronze, gray or green. (Gray shown.) **Note:** Hearth pad for Paloma with cast stone surround is rectangular.

**Cover and top photo:** Paloma shown with green curved outer glass and matching optional hearth pad. **Cover photo only:** also shown with optional rear vent kit.

It's the best of both worlds. Sleek lines and European styling combined with the advanced thinking and practicality of a direct vent freestanding gas fireplace—that's Paloma. From its finely detailed construction to its graceful shape to its tall, curved firebox opening—Paloma makes a powerful modern design statement.

- Curved glass front comes with a choice of three color tints, giving you creative options to coordinate with your home's interior. It even has optional color tinted glass hearth pads to match the fronts.
- A firebox almost 41" high—the tallest of any freestanding gas fireplace or stove—maximizes enjoyment of the fire.
- Utilizes a completely sealed direct vent system that vents off the top or rear. (Rear venting requires conversion kit.)

# Paloma

The beauty of modern design  
meets the intelligence of advanced engineering.

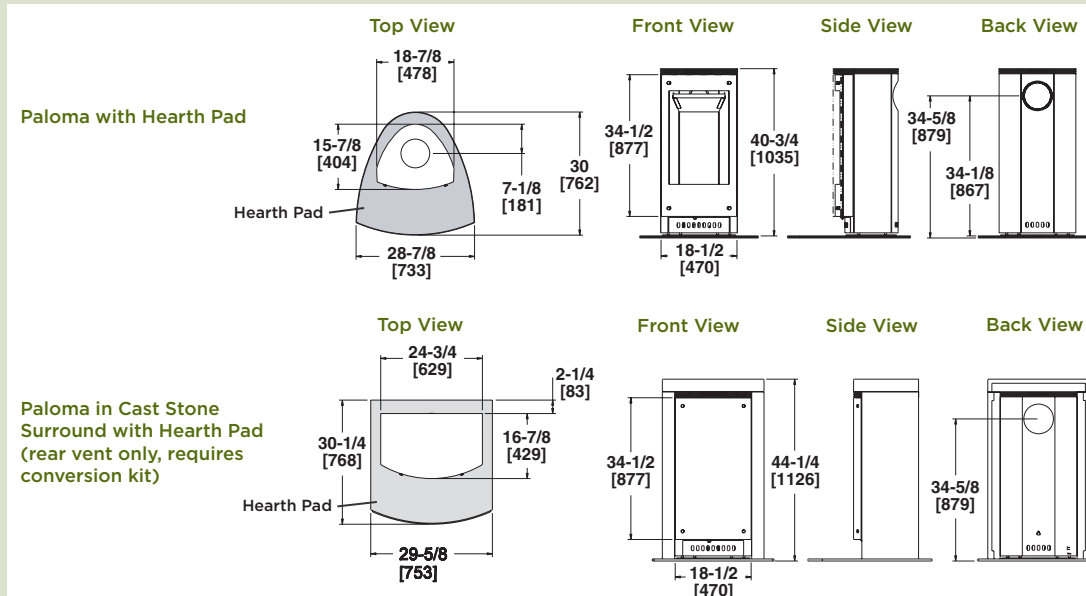

## Cast Stone Surround

For a commanding finishing option and a larger, more substantial freestanding fireplace look, choose the cast stone surround—designed specifically for Paloma.

**Paloma** shown with cast stone surround, rear vent conversion kit and optional rectangular-shaped hearth pad.

## Paloma Specifications

MODEL	HEIGHT	FRONT WIDTH	BACK WIDTH	DEPTH	Viewing Area	BTU INPUT
Paloma with no surround	40-3/4	18-7/8	18-7/8	15-7/8	18-1/2 x 34-1/2	22,500-30,000 Btu/Hour (NG)
Paloma with surround	44-1/4	24-3/4	24-3/4	16-7/8	18-1/2 x 34-1/2	22,500-30,000 Btu/Hour (NG)

Dimensions above are in inches and for reference only. We recommend measuring individual units at installation. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not true representation of the fireplace, flames and/or finishes.

- Optional bronze-, gray- or green-tinted glass hearth pads
- Optional cast stone surround
- Optional rear vent kit
- Optional fan kit
- Optional multi-function remote controls

For complete information and valuable assistance on this model, please contact us at:

### IntelliFire™

Our exclusive, state-of-the-art IntelliFire ignition system reduces gas consumption and thermogenerator wear by providing a pilot flame only when needed. It also supplies a back-up battery system to run the fireplace during a power outage.

### Healthy Hearth

Our direct vent fireplaces and stoves will not alter the quality of indoor room air in any way. The sealed combustion chamber draws in fresh air from outdoors and discards all combustion by-products back outside.

### Limited Lifetime Warranty\*

The strongest in the industry, Heat & Glo guarantees protection for all gas units, including a lifetime warranty of the most important aspects: fiber logs, fiber burner, firebox and heat exchanger.
