⊖ AA 1.5V ⊕

Using method

(1) Install 2 pieces AA battery to the unit, and prepare the IR detector (or other detector) well.

(2) Self-detecting

Switch on the unit, it starts self-detecting with voice prompt. Switch to the first position, the sound is chime, and switch to second position, it is siren.

(3) Function of SET/RESET button

PAIR function: press the "SET" button and hold on for 3 seconds, it enters paring status and the first indicator on, and then trigger the IR detector, this indicator will flicker twice while the unit receives the wireless signal which shows this paring finished.

In the pairing status, press the "SET" for 3 seconds again, it will jump to next security area, pair one new detector as before.

Note: each channel can be paired 5 detectors in maximum.

RESET function

In the alarm status, press this button to clear all the alarm information.

DELETE function

Press "SET" button for 10 seconds, the LED indicator will be on and off, then all the paired detectors are deleted.

Note: please do not push down this button for long time when in alarm standby.

(4) The unit has 4 security areas, when some security alarms, the LED indicator will flicker 20 times and turn to always-on.

(5) If the speaker voice get smaller or the remote distance get closer, please change the batteries in time.

Packing list

(1) Main unit: 1 pcs
(2) AA battery: 2 pcs
(3) User manual: 1 pcs
(4) Security detector: 1~4 pcs optional
