After signing in, you will be brought to the **Dashboard**, the homepage of the QuickStickz web portal. The Dashboard is used to display messages and important updates to the user.

The **Messages** box displays the most recent messages from the QuickStickz team, as well as any open invitations to Teams (see p., "Teams").

**Recent Activity** displays the date and time of your last sign-in, the last drill you completed and your score, and the total number of drills you've played in the current week.

The right-hand side of the Dashboard shows the currently selected **Player Profile** – the user's name, age, hometown, position, and profile picture. Each QuickStickz account can have up to 5 unique Player Profiles (see p. 13, "Profile Management," for information on creating, editing, and deleting Player Profiles).

- The 5 tabs below the current Player name are the main navigation tools you'll use. The Dashboard tab is the tab selected by default when signing in to the web portal. The other 4 tabs are:
  - Drills tab: brings you to the Drills page, where you can find our stickhandling training drills. Each drill has a unique page that provides a brief description, a summary of your personal records, and an overall leaderboard for that drill.
    Games tab: brings you to the Games page, where you can find our arcade-style videogames. The games use the same stickhandling techniques practiced in the drills and allow the player to practice his stickhandling skills while having some fun! Like the drills, each game has a unique page that provides a brief description, a summary of your personal records, and an overall leaderboard for that game.
    Teams tab: brings you to the Teams page, where you can browse through a list of all the teams currently in the system. You can also create your own team and invite
  - up to 30 friends to join. **Players tab:** brings you to the Players page, where you can search for other players and view their statistics.

# Installing QuickStickz

Before you start practicing, you'll need to install some software that allows the QuickStickz camera to communicate with the drills and games. This section will guide you through the installation process.

**Note:** Before beginning the installation, make sure the QuickStickz camera is NOT plugged in.

First, you'll need to go to the Install page on the web portal.

Click on either the **Drill tab** or the **Games tab** – on the right-hand side of both of these pages, you'll see a link that will take you to the Install page.

Click on the **<u>QuickStickz Installer</u>** link to go to the Install page.

If you click the **Run** button, the installer will begin the installation process automatically.

If you click the **Save** button, you'll download the installer to a folder of your choice (the default folder is your **Downloads folder**).

#### Firefox users:

Clicking the **Save** button will download the installer to your **Downloads folder** by default.

**Note:** If you wish, you can change the selected folder in Firefox's Options window (Tools > Options > General tab).

After you have downloaded the installer, go to the folder where the installer was saved.

Double-click the **quickstickz.exe** file to begin the installation.

If you see a security warning like the one is the picture to the right, click **Run** to continue the installation.

**Vista and Windows 7 users** may also see a **User Account Control** window pop up with a warning message.

If you want to change the password, you'll need to enter the new password in both the **Password** and **Password confirmation** fields.

When you are finished making your changes, click the **Save Account** button to save your changes.

# Profile Management

A **Player Profile** manages a user's personal information and keeps a unique record of scores achieved in the QuickStickz drills and games. Each QuickStickz account can save up to 5 unique Player Profiles.

By default, each QuickStickz account has one Player Profile set up. Player Profiles can be accessed on the **Profile** link:

help@quickstickz.com	Account	<u>1 Profile</u>	<u>Sign Out</u>

Users can create, edit and delete Player Profiles from this page.

### **Creating Profiles**

To create a Player Profile, click on the <u>Create</u> <u>Another Profile</u> link on the right-hand side of the Profile page.

#### 1 Create a Profile

Profiles allow you to separate settings and scores for multiple members of your family. You can create 4 more player profiles for your account.

Create Another Profile

You will be taken to the New Player Profile page, where you can enter your **name**, your **position** on your hockey team, your **hometown** and **region** (Canadian province, US state), and **year of birth**.

You can also upload a photograph for your Player Profile – click the **Browse** button to find the photo on your computer.

When you are finished entering your personal information, click the **Save Profile** button. The newly created Player Profile will now be the currently selected Player Profile. The number of saved Player Profiles will also be updated in the Profile link – here, you can see that this account now has two profiles.

## Switching Profiles

When you have 2 or more Player Profiles saved to an account, you'll notice a **green arrow** next to the currently selected Player Profile name.

Clicking this arrow will take you to the **Profile page**. You'll see all of the Player Profiles in a list.

The QuickStickz camera is now capable of tracking the stickhandling ball on the ground.

The ball's position is represented onscreen by the puck, which moves according to the stickhandling ball's movements.

Stickhandling the ball in any direction will move the puck in that same direction onscreen.

In the bottom right-hand corner of the menu screen, you see a **Start Drill** button. Click this button to start the drill.

#### There are 2 ways to click the Start Drill button:

- 1. **Mouse:** Use the mouse to click the button with the arrow pointer. The arrow pointer will disappear when the drill starts, and the mouse will be disabled for the duration of the drill.
- 2. **Stickhandling:** Stickhandle the ball so the onscreen puck moves over the Start Drill button. The puck will start flashing. Hold the puck over the button for a few seconds to start the drill.

**NOTE:** Some drills have an additional button that controls whether the drill should be set up for right-handed or lefthanded stickhandlers.

This button can be used the same way as the Start Drill button: either by mouse or by stickhandling.

When a drill has been completed, you will return to the menu screen. You can click the Start Drill button to play again.

When you are finished playing the drill, click on the red X **button** at the top right-hand corner of the drill's window. This will close the window, and you'll be back at the drill's page.

Click the **Start This Game** button to launch the game in a new window.

**NOTE:** Before playing any games, make sure that

- 1) The **QuickStickz camera** is plugged into your computer!
- 2) You have selected the correct Player Profile!

Each game has a menu screen similar to the drills' menu screens. Using the menu screens for games is identical to those for drills:

- 1. There will be a **Start** button on the menu screen that can be **accessed either by the mouse or by stickhandling**.
- 2. When the game ends, you will be brought back to the menu screen.
- 3. The game window can be closed by hitting the red X button at the top right-hand corner of the screen.
