1. Introduction

Mantano Reader for Android is a user-friendly advanced reader application currently supporting the PDF and EPUB formats. It includes Dictionary, Personal Lexicon, Notes and BookFinder modules.

It allows you to enjoy your readings using very useful functions like table of contents, bookmarks, highlights, Search, text and graphical annotations, dictionary, text to speech. Enjoy advanced features on PDF format, like automatic and manual margins removal for PDFs, adjustment to one column for multi-column documents, zooming and shifting (Pan & Zoom)...

The application's Library will list all your documents. Some *management* options will help you to organize and supervise them, such as the *filter* or the *search* options.

Any special thought while you are reading? Or any interesting lines on your PDF document? The *Notes* option will give you the opportunity to write or sketch a note. Alternately, on any PDF or EPUB document, you can use the *Highlight* option.

A direct access to the Bookfinder will help you to find and download any electronic book you want on your android device and import it into your Library.

Mantano Reader supports the Adobe DRM technology.

2. Mantano Reader modules

Mantano Reader provides access to 4 main modules: Library, Lexicon, Notes and Bookfinder. You can navigate between them thanks to the tabs in the header area:

Two display options (sort / order) are present in this header as explained in the following table:

Icon	Function/Operation
	Sort the displayed list by the title, author or others with an alphabetical order
	Change the display order in an ascending or descending order
	Select / unselect all items

A toolbar with filter and search options is available for the Library, Lexicon and Notes modules:

For a quick and direct access to these options: click on your Smartphone or Tablet menu option to get to the toolbar of the active module or on your device search button to get to the search option of the active module.

2.1. Library

The Library module lists all the EPUB and PDF documents present in your library.

By default, all these electronic documents are listed with some information:

- Title or File name, Author, Addition Date or Last Access, Expiration date for eBooks
- Tags (Please refer to the [next paragraph](#) for more information about Tags)
- Reading completion rate (based on the last page read)

- Rating

Apart from this “default view”, other views are available:

- List
- List with details (the default view)
- Thumbnails (small / medium / large)

What are Tags and how to use them?

Tags are additional information associated to a document for a quick identification. Managing tags on Mantano reader for Android is easy:

- Click on  under the document title to open the **Tags Management** popup. 
- Enter the tag name
- Click on Close button to validate and save
- The new tag will be added to the item tag list
- To delete a tag, simply click on  located close to the tag name.

How to delete items in lists?

- Select the items to remove with the  checkbox close to the item.
- Click on the  icon in the toolbar
- Confirm.

How to search items in lists?

- Click on it to open the search label under the header as shown below

-
- Enter the word you are looking for
- The element found will be automatically displayed in the current page

Manage your list of documents

Several options to manage the items list are available in the toolbar. The following table lists all the Library toolbar icons and their functions:

Item	Function/Operation
 Synchronization	Launch the synchronization between the files stored in the device and the items listed in the library (by default all files in the root folder will be scanned but you can select the folders to scan when synchronizing in the application's Settings)
 Explorer	Open the file explorer and select folders and files you want to import or share.
 Filter	Display the documents, authors, publishers or tags list
 Views	Display the documents as a detailed list of items, simple list of items or as small, medium or big thumbnails list
 Search	Please refer to How to search items in lists? section

 <p>Delete</p>	<p>Please refer to How to delete items in lists? section</p>
 <p>Add Tags</p>	<p>Add tags to one or several books in the same time</p>
 <p>Share</p>	<p>Please refer to 3.2 Sharing books, selected text, notes and definitions to know more about the Sharing functions.</p>
 <p>Settings</p>	<p>Allows you to access the application's settings, including:</p> <ul style="list-style-type: none"> • Preferences such as: Adobe DRM, Label of Buttons, Library, Reading, Dictionaries... • Access to Customer Support sections

How to read an eBook or a PDF document?

Please refer to [3.1 Reading eBooks or PDF document](#) to discover more about the Reading functions.

How to share an eBook or a PDF document?

Please refer to [3.4 Sharing books, selected text, notes and definitions](#) to discover more about the Sharing functions.

NOTA:

- When importing eBooks, tags are automatically extracted from the eBook metadata
- Modifications on tags will not update the eBook metadata

2.2. Notes

The Notes application lists all the notes created. Two kinds of notes are available: *Sketch* or *Text* notes. There are also three ways to create a note: from the notes application, from a page of the book or from highlighted text in the book.

All the notes are listed with some information:

- Title
- Created date and time
- A thumbnail to point out if it is  tch or  t note
- The  states that it is a reader note

Item	Function/Operation
 Filter	Click on the icon to open the filter popup Choose the criteria filter between Show all notes, Type and Location Click on the elements found to display their items lists
 Search	Please refer to How to search items in lists? section
 Share	Please refer to 3.2 Sharing books, selected text, notes and definitions to know more about the Sharing functions.
 Delete	Please refer to How to delete items in lists? section

-

Manage your list of notes

Some display options to manage the items list are available in the toolbar. The following table will give you all toolbar icons and their functions:

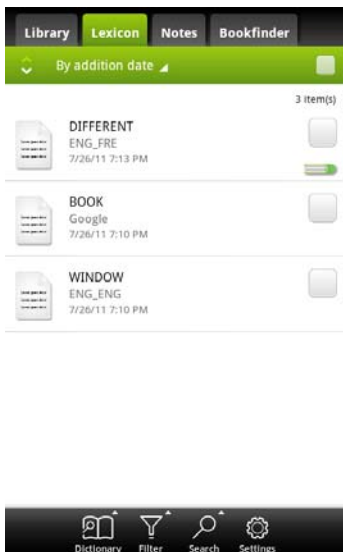

How to create a note?

Please refer to [3.2 Creating and Editing note](#) to know more about the creation of notes.

How to share a note?

Please refer to [3.4 Sharing books, selected text, notes and definitions](#) to know more about the Sharing functions.

2.3. Lexicon

The Lexicon application lists all the word that you have saved from the Dictionary search popup. All the words are listed with some information:

- Word
- Created date and time
- Dictionary
- The  symbol indicates that it is a word searched in a book during your reading.

Manage your list of words

Some display options are available in the toolbar. The following table will give you all the Lexicon toolbar icons and their functions:

Item	Function/Operation
 Dictionary	Click on the icon to open the dictionary search popup See the section Using dictionary and personal lexicon for details
 Filter	Click on the icon to open the filter popup Choose the criteria filter between “Show all words” and Location Click on the elements found to display their items lists
 Search	Please refer to How to search items in lists? section
 Share	Please refer to 3.2 Sharing books, selected text, notes and definitions to know more about the Sharing functions.
 Delete	Please refer to How to delete items in lists? section

How to create a note?

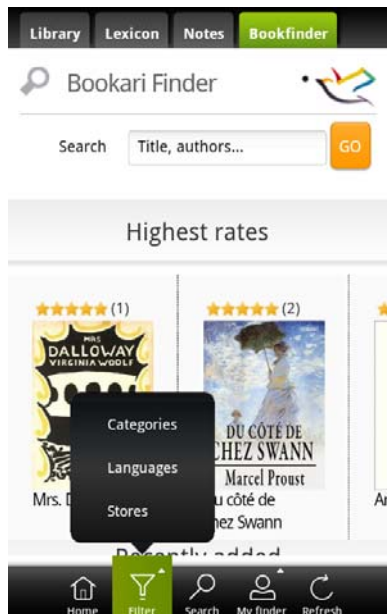

Please refer to [3.2 Creating and Editing note](#) to know more about the creation of notes.

How to share a word definition?

Please refer to [3.4 Sharing books, selected text, notes and definitions](#) to know more about the Sharing functions.

2.4. Bookfinder

The bookstore application allows you to find and download eBooks.

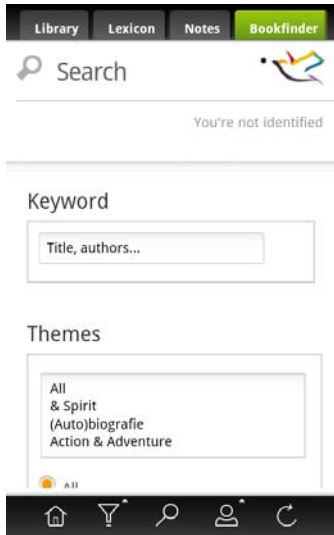

Some functions are available in the toolbar. The following table lists all the bookfinder toolbar icons and their functions:

Item	Function/Operation
 Home	Click on the icon to open the bookfinder home page to have an overview of recently added books, most reviewed ones and recent downloads
 Filter	Click on the icon to open the filter options Choose the criteria filter between “Categories”, “Languages” and “Shops” Click on the elements found to display their items lists
 Search	Please refer to the How to perform an advanced search? section
 My bookfinder	<ul style="list-style-type: none"> • My preferences <ul style="list-style-type: none"> Change your user profile (pseudo, picture...) Choose your preferred languages to show only books and reviews in the languages that you understand Set your languages display mode (for more information about the preferred languages, please refer to the How to set my languages preferences section) Save • My history <ul style="list-style-type: none"> By clicking on this item, you will get the list of the last books you browsed
 Refresh	Click on the icon to refresh the current page

How to perform an advanced search?

Clicking on the  icon will display the advanced search form.

You can:

- Search by title or by author by filling the “keyword” textbox
- Search by categories (Fiction, Historical...) by selecting items in the “Themes” list
- Search by formats (PDF, EPUB...) by selecting items in the “Formats” list
- Search by shops by selecting items in the “Shops” list
- Get only free books by clicking on the “Free only” checkbox
- Get only reviewed books by clicking on the “With reviews only” checkbox

Scroll to the bottom of the page, then click on the “Search” button.

How to sort the search results?

After performing a search, you can sort the results by:

- Rating
- Title
- Author
- Price

To sort the results, scroll to the bottom of the search results page, then click on the drop-down list to the right and select an item.

Change the sort order: You can also change the sort order by clicking on the red arrow next to the drop-down list.

How to easily navigate through books?

Clicking on the name of a book's author will display all the books written by this author.

By clicking on the category of a book, you will display all the books in this specific category.

How to set my languages preferences?

Creating an online account on Bookari allows you to set the languages you speak and to change the website display language. The choices are:

- Show the books and the reviews in the languages I speak only
- Show the books and the reviews with no language restriction whatsoever

To change the languages you speak

- In My preferences: select items from the “Languages I speak” list
- Anywhere on the bookfinder:
 - Click on the languages information in the orange panel located on the top left of the screen
 - Select items from the list

To change the languages display

- In My preferences: check the “In all languages” checkbox in order to display books and reviews in all languages. Otherwise, the bookfinder will display books and reviews only in the languages you speak
- Anywhere on the bookfinder:
 - Click on the languages information in the orange panel located on the top left of the screen
 - Select your choice in the “Books & reviews languages” list

3. What you can do with Mantano Reader

3.5. Reading PDF / EPUB eBooks or documents

In the Library application, click on the document you want to read. It will be opened on the last read page or on the first page if not opened before.

Browse through the document pages

There are different ways to browse the document pages:

- Swipe the current page
- Touch the left or right margins
- Use the scrollbar (to display it, press the Menu button of your device, or simply touch the center of the page)
- Click on the current page number to open the **Go to page** popup; enter the desired page number in the popup window; click on "OK"
- Touch the  icon to go to back or  to go to next page in the navigation history.

Set the display options

Some display options are controlled with finger gestures on the page:

- Swipe up / down to increase / decrease the font size
- Pinch to zoom
- Double-tap on a block of text in a PDF document to zoom in / zoom out and adjust the zoom level so that the block's width fits the entire display
- Drag the page with your finger to move around

- Swipe up/down on the left border to increase/decrease the screen brightness
- The “Display Settings” icon controls other display options, as described below.

Use the reading functions

Many reading options have been thought to make your reading easier. The following table lists all of these options with their icons and explains how to use them:

Item	Function/Action
 Library	Go back to the Library tab
 Bookmark	<ul style="list-style-type: none"> • To mark a page: click on the  icon at the top right corner of the page • The icon will change into  and the page number will be added to the bookmark list • To take a mark off, click on the bookmark icon again
 TOC	Open the Table Of Content (TOC) popup
 Bookmarks	<ul style="list-style-type: none"> • Click on  to open the Bookmarks popup • The list of all this eBook bookmarks will be displayed • Click on the bookmark line to get to the wanted page
	<ul style="list-style-type: none"> • Click on  to open the Notes popup

Notes

- The list of all this eBook notes will be displayed
- Click on the desired note to open it

Sketch Note

Create a sketch note referring to [3.2.Create a Sketch Note](#)

Text Note

Create a text note referring to [3.2.Creating a Text Note](#)

Highlights

- Click on  to open the *Highlights* popup
- The list of all the highlights in the current eBook will be displayed
- Click on the desired highlight to navigate to it

Highlight

Refer to [Highlight text in a PDF or EPUB document](#)

Text to speech

Click on  to listen to the current page. When the Text to speech function is running, the Text to speech header appears.

See [Using the Text to speech function](#)

Dictionary

Click on the icon to open the dictionary search popup

See [Using dictionary and personal lexicon](#) for details

Search

Click on the icon to open the search label under the header as shown below:

Fit

Enter the word you're looking for in the label

The first element found in all the document will be highlighted

Use the arrows < > to get the next or previous occurrence found

Click on the icon to open the fit options pop up

- Both: display pages in order to fit the screen
- Horizontally: page width matches the screen width
- Vertically: page height matches the screen height

NOTA: These option do not remove the original PDF margins

Display Settings

Open the **Display Settings** popup.

Please refer to the "*Display settings*" section to have more information.

Information

Open the meta data Information popup and set the language and the title of the book

Highlighting text in a PDF or an EPUB document

To highlight:

- Click on the  toolbar icon to activate the highlight mode. The highlight panel appears under the header as shown below:

- Choose the color between all the colored drops displayed or using the  icon to open the color chooser popup:

- Select the lines to be highlighted
- You can turn pages in highlight mode using the left and right arrow

- You can hide the panel staying in the highlight mode using the icon 

- To exit the highlight mode just use the close button 

To edit the highlight:

- Tap on an highlight
- The actions popup appears with all available actions in the highlight:

Change Color

- Select the  icon
- Select the color you want in the color selector

- Validate

Text to speech

- Select the  icon

See [Using the Text to speech function](#) for detailed description

Delete

- Select  in the popup
- Select OK in the confirmation alert Dialog

Add text note

- Select the  icon
- Use this option as described in the section “Add Text Note”
- After saving your note, you will see the  icon near the highlight as below:

Part 2, consists of Chapter 7 and Chapter 8,
 which describe how to properly configure the kernel based on the hardware present in the system, and provides a number of different “recipes” for common configurations.

- By clicking on the  icon, you can edit it (see section “Edit a Note”)

Add a graphical note

- Select the  icon
- Use this option as described in the section “Add Graphical Note”

- After saving your note, you will see the icon  near the highlight as previously described.
- By clicking on the  icon, you can edit it (see section “Edit a Note”)

Search a word in a dictionary

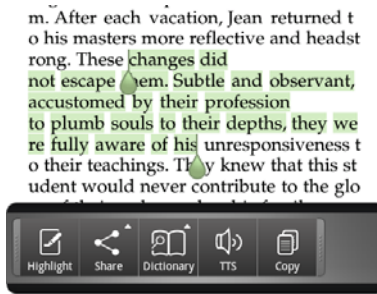

- Select the  icon
- Use this function as described in the section “3.6 Using dictionary and personal lexicon”

Share

- Select the  icon
- Refer to Section [3.4 Sharing books, selected text, notes and definitions](#) for more information.

Selecting text for copy, listening to it, search a word in the dictionary, highlight or share

- Long press on a word to enable the selection mode (a global setting allows you to choose if you want the device to vibrate or not when a long press occurs)
- Select your text
- A toolbar appears showing you some options like below:

Copy text

- Select the  icon
- The selected text has been copied to the Android clipboard
- It can be pasted in any text box with a long press

Listening to selected text

- Select the  icon
- Use this function as described in the [Using the Text to speech function](#) section for detailed description

Search the selected word in the dictionary

- Select the  icon
- Use this function as described in the Using the dictionary and the personal lexicon section

Convert to highlight

- Select the  icon

- The selection is now highlighted

Share

- Select the  icon
- Refer to Section [Sharing books, selected text, notes and definitions](#) for more information.

Using the Text to Speech option

The text to speech function only works on PDF and EPUB files (it does not work on notes or word definitions). The icon for this function is .

When clicking on this icon, the audio options panel appears. By default, the whole text is read. If you have selected a text, only this text will be read.

At the end, the Text to Speech panel automatically disappears.

- You can change the text To Speech language thanks to the Languages Spinner.
- You can minimize the panel by clicking on the bottom double arrow.

- You can stop playing the text by clicking on the close icon in the Text to Speech panel

There are 3 ways to use the text to speech function:

A. By clicking on the  toolbar icon to listening to the current page. You can also listen to the book by clicking on the loop icon in the audio area.

B. By clicking on a highlight and then on the  icon to listen to the highlighted text only

C. By clicking on the Select icon of the toolbar and then on the  popup icon to listen to the selected text only

When is the Text to Speech option available?

Text to speech option is available if:

- You have permissions to use it (in case of DRM protected books). To see the permissions you have on the book you can view the metadata information of the book by clicking on the  icon.
- The current book has the language information set. You can do it on the Metadata Information Popup by clicking on the  icon.
- A Text To Speech voice corresponding to the language of the book is installed on the device

In which languages can I use the Text to Speech option?

Text to Speech uses any of the preinstalled languages that come with the device. You can buy more languages on Android Market.

How can I customize the Text To Speech voices?

Text to Speech uses any of the preinstalled voices that come with the device. You can buy more voices on Android Market.

Using dictionary in the reader

Please see the section [Using dictionary and personal lexicon](#)

Display settings

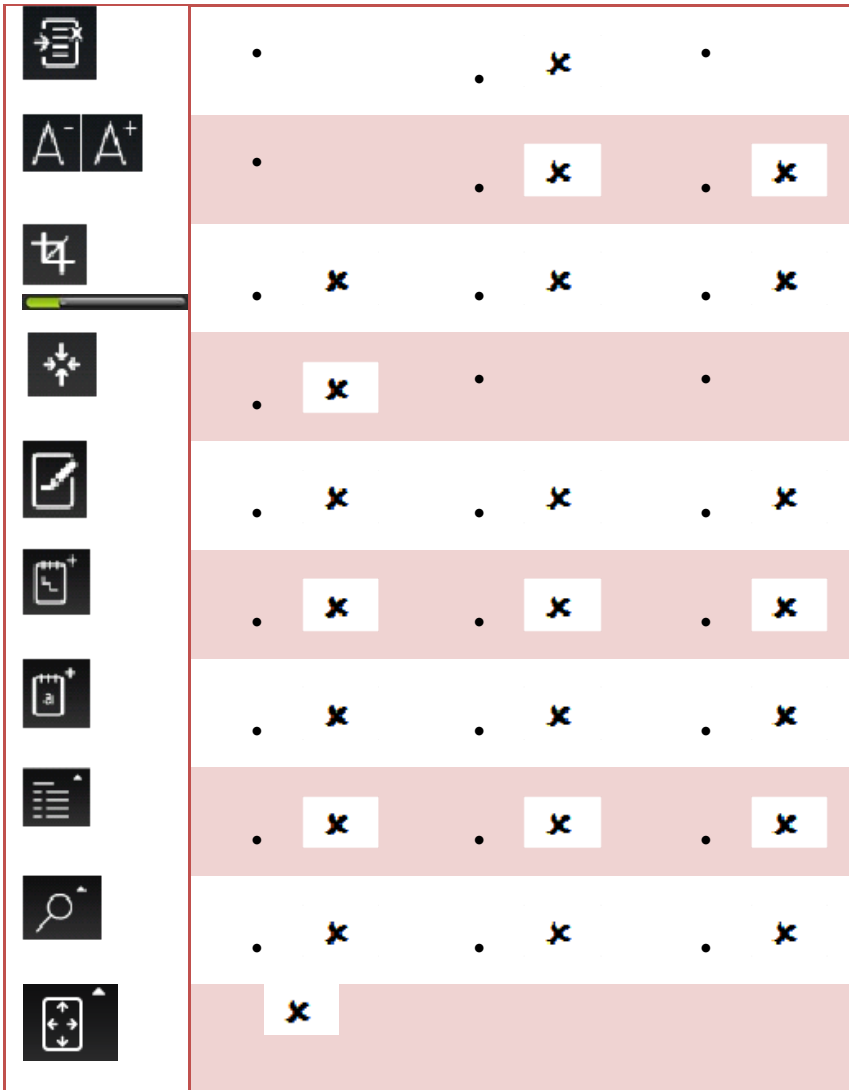

Item	Function/Operation
 Font Size	To increase or decrease the font size
 Manual Crop	Manage the margin depth using the scroll bar
 Automatic Crop	Get an automatic crop of your document (take the useless margin off)
 Reflow	<p>Click on  to dynamically reformat (“reflow”) the text</p> <p>The text loses its layout (this option works pretty well on literary books, but can give unexpected results in documents with complex page layouts such as technical books).</p> <p>Click on  to cancel the reflow option and recover the original layout</p>
	To select the screen orientation of the device: Automatic, Portrait, Landscape

Screen rotation	
 Themes	To select the theme you want to use or to create or edit a theme
	Save the settings

Display settings and options according to file format

According to the format of your document, display settings and some options are different:

Item	PDF no Reflow	PDF Reflow	EPUB
	•	•	• 
	• 	• 	• 
	• 	•	•

Please note that for some protected PDF documents a password will be required to open.

3.6. Creating and editing a note

There are 3 different ways to create notes:

- From the reader: while you are reading an eBook or a document, click on the reader toolbar icons  or  to create a note.
- From the Notes  if you want to create a note, go directly to this Notes tab; click on the  or  toolbar icons
- From a highlight in a PDF document (text note only): click on highlighted lines. It opens a popup. Select the  option

Create a freehand note

- Click on  to create a new freehand note
- On the toolbar choose the thickness of the line on the **thickness** popup opened with the toolbar icon
- Open the **color chooser** popup with the toolbar icon  as shown below:

Choose the color you want:

- From the color selector by moving the selector circle and clicking on it
- From the predefined colors by clicking on a drop
- From your last used colors from by clicking on the squares at the bottom

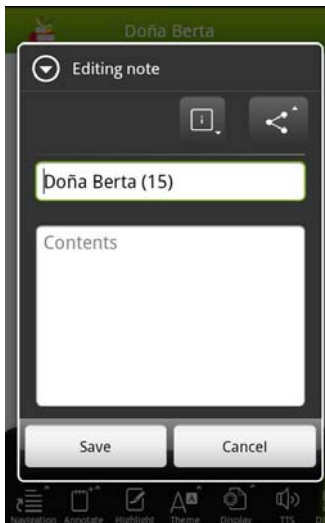

Click on the center to validate the color

Draw

Save 

Create a text note

- Click on  to open the Text Note edition popup:

- Enter a title on the Title input
- Click on the box underneath and enter your text note
- Click on the “Save” button

Edit a note

The following table lists all of the editing options with their icons and explains how to use them:

Item	Function/Operation
 Delete	Remove the note
 Informations	Show information about the note
 Open on reader	If the note is associated with a document, click on  to open this document with the reader
 Share	Open an applications list that allows sharing

3.7. Using the dictionary and the personal lexicon

Searching a word

By default, you can search a word in 3 web dictionaries:

- Google
- Wikipedia
- Wiktionary

If ColorDict is installed in your device, you also can search a word in ColorDict.

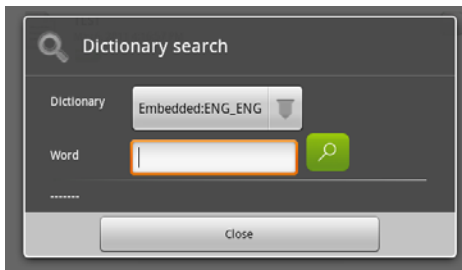

You can add embedded dictionaries in the Preferences section of global settings as described in the Setting my embedded dictionaries section.

There are 3 ways to open the dictionary search popup:

- By clicking on the  toolbar icon
- By clicking on an highlight and then in the  icon
- By clicking in the selection toolbar and then on the  popup icon

Searching a word in the dictionary:

- Select your dictionary
- Type the word in the input area
- Click on the  icon

- If the selected dictionary is embedded the definition of the word appears under the search area (Case 1), if is remote the definition is showed in a web browser (Case 2), if you have selected ColorDict, the definition appears in a ColorDict window (Case 3)

- If the word has been searched from a book, click on the  button to open the book at the page where you have searched the word.

3.8. Sharing books, selected text, notes and definitions

Thank to the  icon, you can share books, text selections from books, notes and word definitions using one of your Android applications allow you to share.

Sharing books

- Select one or more books
- Click on the Share icon  in the Library, Lexicon or Notes list.
- Select the application you would like to use for sharing:
 - If you have selected more than one book, the books will be sent compressed in a zip file
 - Only few application allows you to share information with attached files

Sharing selected text or highlights

- Click on the Share icon  in the selection or highlight toolbar.

Selection Options

Highlight Options

- Select the application you would like to use for sharing

Sharing notes

From the Notes list:

- Select one or more notes
- Click on the Share icon  in the Notes tab.
- Select the application you would like to use for sharing:
 - Note: sharing freehand notes is not allowed

From the Text Notes pop up:

- Click on the Share icon  at the top of the Text note popup.

- Select the application you would like to use for sharing:

Sharing definitions of the lexicon

From the definitions list:

- Select one or more definitions
- Click on the Share icon  in the Lexicon.
- Select the application you would like to use for sharing:

From the definition pop up:

- Click on the Share icon  in the definition's popup window.

- Select the application you would like to use for sharing:

3.9. Setting my preferences

Click on the Preferences icon  in the toolbar to go to the application's preferences.

Preferences are organized in 5 sections:

- Adobe DRM
- Options

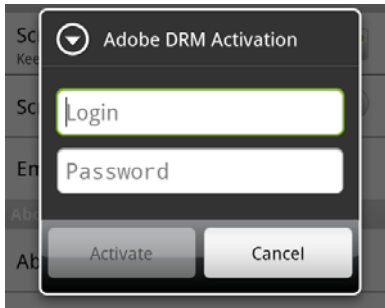

- Library
- Reader
- Lexicon
- User Interface
- Help
- About

Setting my Adobe Ids

- Click on the “Adobe DRM” item in the “Preferences” section

- Enter your Adobe ID and password

- Activate. The current Adobe ID is shown in the Adobe DRM Section. You can deactivate it by selecting the “Disable this account” option

Adobe DRM

Adobe DRM

Adobe DRM activated for drm013@hw.fr

Disable this account

Library settings

Library

Sync folders

Select folders to sync

Import with covers

When importing books, generate book covers
? (This can be slow)

Generate book covers now

Only generates missing book covers

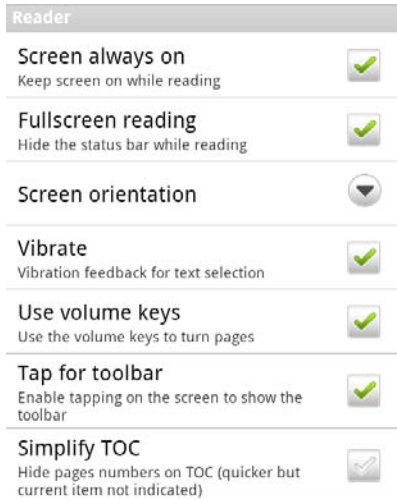

Click on “Synchronize folders” to select the folders that Mantano Reader will scan when importing eBooks and documents.

Click on “Import covers” to choose the strategy to import book covers:

- Always
- On demand
- Never

Click on generate book covers to generate the missing book covers. Be careful: it could be slow on large library.

Reader settings

- Select “Screen always on” if you want to disable the device’s automatic screen power off
- Select “Full-screen reading” to hide the status bar when reading
- Select “Vibrate” to provide feedback on text selection
- Select the screen orientation you want between Portrait, Landscape and Automatic (default)
- Select “use volume keys” to turn pages on volume up and volume down
- Select “tap for toolbar” to show the toolbar when tapping on screen
- Select “Seekbar on turn” to show the seekbar when turning pages

Lexicon settings

Downloading embedded dictionaries

- Click on the “Embedded dictionaries” item in the “Preferences” section
- Click on the “Embedded dictionaries” item in the “Preferences” section

- Click on the  icon to download the selected dictionaries

User interface settings

Click on “Expert mode” to hide the toolbar labels.

Do you need help using Mantano Reader?

Downloading the latest user manual

- Click on the “Download User Manual” item in the “Preferences” section

We suggest to do it after every application update.

3.10. How to download or buy a book and open it in the Mantano Reader?

There are 2 options for this:

- A. Through the Bookfinder
- B. Through the Android Web browser

Downloading or buying a book through the Bookfinder

The purchasing process is:

- Go into the Bookfinder
- Search for the title of the book
- If the book is free, you can download it directly from the book description page

- If not, click on the "Go" button" on the book description screen
- Buy the book in the partner bookstore (every partner has its own purchasing process)
- Download it. After downloading, a popup asks you if you want to:
 - Go back to the library: the book is added to the library
 - Open it: the book is opened and added to the library
 - Continue: When you go back to the library, you must click on the Synchronize icon to refresh your library with all the new downloaded books

Downloading or buying a book through the Android Device web browser

The purchasing process is:

1. Buy the book in the bookstore you want
2. Download it,
3. At the end of the download if the book is in PDF format, you will see the downloaded file in the notification area of the device (by sliding the status bar of the device to the bottom). When clicking on this file:
 - If the only book reader application you have is Mantano Reader the file is directly opened in the Mantano book reader
 - If you have other book reader applications a popup shows a list of all the book reader applications you have on your device.
 - If you choose the Mantano Reader on it, the file will be opened in the Mantano Reader application.
