# Establishing a Connection and login to your Rdio Music account.

- 1. Install mMusic Remote Rdio for Windows Phone 8 from the Windows Phone Store
- Download mMusicRemote windows application from <u>http://mclicker.com/Content/mMusicRemote.msi</u>
  Or http://mmusicremote.com/Content/mMusicRemote.msi
- 3. Install mMusicRemote and run it.
- 4. In order to start listening Rdio click on "Rdio".
- 5. Login to your Rdio account by clicking on "sign in" button in the upper left corner of the main view.

6. In order to use your windows phone as a remote go to settings tab and choose network adapter and the IP address of the PC where the application is running.

- 7. Select a port the default port is 10552 please note that if you have fire wall running on your PC you should create an exception for that port and open it. Here is a guide how to do that: <a href="http://windows.microsoft.com/en-US/Windows7/Open-a-port-in-Windows-Firewall">http://windows.microsoft.com/en-US/Windows7/Open-a-port-in-Windows-Firewall</a>
- 8. Press toggle button bellow the Device IP. Use this button to start and stop the network support of the application. A QR code is generated which you can scan from mMusicRemoteRdio windows phone application in order to connect (this will be needed only one time).
