1 Before Using the Data Center Site

1.1 Terms of Use

The Terms of Use of KVH Portal is based on the KVH Tokyo Data Center User's Guide, KVH Tokyo Data Center2 User's Guide, and KVH Osaka Data Center User's Guide.

1. Definitions

* 1.1 "Service" is "KVH Portal Data Center Site" or "KVH Portal" offered by KVH in accordance with the Service Agreement

* 1.2 "CSL" means "Client Summary List" and is a list of individuals (employees of the Customer, etc) with permission to access KVH data centers on behalf of the Customer (hereinafter referred to as "User"). The list specifies the permissions (read, edit, submit) for three types of requests: Admission, Shipping/Receiving, and CSL management.

* 1.3 "ACR" means "Access Control Representative" and is an individual designated by the Customer to manage the CSL(s) and provide support to End-Users of the Service. As for new customers, please register ACR on the prescribed form at first.

2. ID and password management

The User will receive a password and account designation upon completing the KVH's registration process. The User is responsible for maintaining the confidentiality of the password and account and is fully responsible for activities that occur under the assigned password and account. The User agrees to (a) immediately notify KVH of any unauthorized use of the password or account or any other breach of security, and (b) ensure that the User exits from the account at the end of each session. KVH cannot and will not be liable for any loss or damage arising from the User's failure to comply with these terms.

E-mail 1 address (Primary) will be used as the KVH Portal login ID. It is compulsory for users, who are required to view, create, or submit request forms, to register E-mail 1 address.

3. CSL

3-1. CSL registration

Upon first logon, the ACR will confirm the migrated CSL data and submit an approval to KVH.

KVH will not accept CSL update requests that have incomplete or erroneous data.

It is required to adhere to the following rules when registering or changing a CSL:

1. The primary E-mail address (E-mail 1) will be used as the KVH Portal login ID. It is

compulsory for users, who are required to view, create, or submit request forms, to register E-mail 1 address. (Please note that users without an E-mail 1, cannot access the KVH Portal)

2. The primary E-mail (E-mail 1) must be a unique E-mail address meaning that it can be used only once as a primary E-mail (E-mail 1) for one CSL.
3. The secondary E-mail (E-mail2) address is for notifications purposes only, copied email will be sent to requestor's Email2 and is not to be required unique. The same E-mail address can be used multiple times in one CSL.
4. The primary telephone number (Tel1) is mandatory for an ACR.
5. Some users are registered to represent multiple Customers or Entities and therefore registered in multiple CSLs. In such cases, after logon, the user will be presented with a list of Customers or Entities for which the user has been registered and prompted to select one of them to proceed further.

3-2. CSL management

Customer is solely responsible for submitting, managing and monitoring the Customer's CSL(s).

Customer acknowledges and agrees that KVH may also monitor, manage or otherwise process CSLs. The Customer agrees that CSL are limited to 10 users as default.

3-3. Permissions for requests

Customer is responsible for managing CSL permissions and agrees to update the CSL to reflect the Customer's security requirements. For example, the Customer should remove individuals from the list when they are no longer authorized to access the Customer's equipment in the data center.

The system supports the following permissions for each user:

- 1. DC Admission Request**
- 2. DC Shipping/ Receiving Request**
- 3. CSL Update Request**

For the above permissions, only authorized users can make requests and KVH will not accept requests that have incomplete or erroneous data.

You can activate or inactivate permissions by clicking on each button.

Login (Login ID Available)	View Admission	Edit Admission	Submit Admission	View Shipping	Edit Shipping	Submit Shipping	View CSL	Edit CSL	Submit CSL
----------------------------	----------------	----------------	------------------	---------------	---------------	-----------------	----------	----------	------------

 Activate	 Login (Login ID Available)	This becomes active if "E-mail Address 1" is filled.				
 Inactivate	 View Admission	View admission request	 Edit Admission	Edit admission request	 Submit Admission	Submit admission request
	 View Shipping	View shipping & receiving package request	 Edit Shipping	Edit shipping & receiving package request	 Submit Shipping	Submit shipping & receiving package request
	 View CSL	View CSL	 Edit CSL	Edit CSL	 Submit CSL	Submit CSL update request

4. Support Services

If any errors occur due to incomplete/incorrect data provided by the Customer, the Customer will need to resolve the problems. If the problems cannot be resolved, please contact the KVH Service Desk. KVH will provide technical support based on the KVH Data Center User's Guide upon request from the Customer.

1.2 System Requirements

To use the Data Center Site, the following system requirements need to be met:

- Platform and supported browser:
 - Internet Explorer7 or above, FireFox3.1 or above
- Browser set up
 - Enable JavaScript
 - Enable Cookie

* Please note that opening multiple pages of the system with tab browser may cause error when submit.

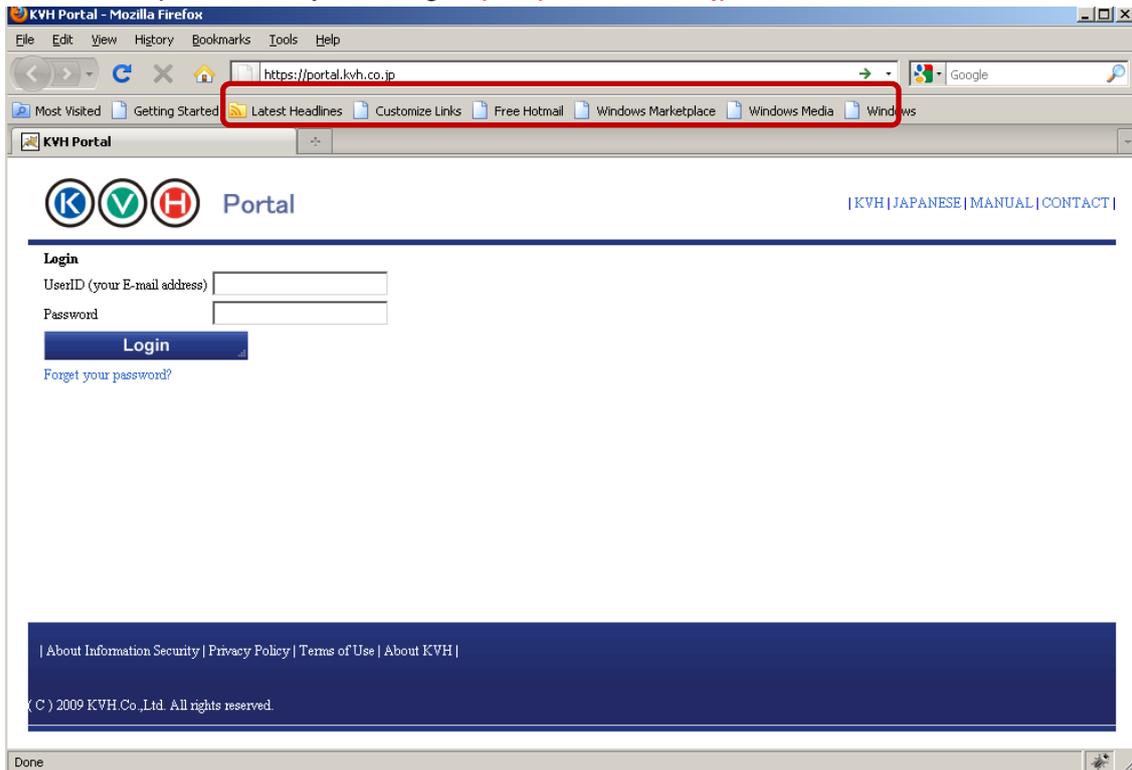

1.3 Before Log-in

To use the Data Center Site, you first need to be listed on the Client Summary List (CSL). If you are not yet listed on the CSL and wish to use the Data Center site, ask the Authorized Client Representative (ACR) to include you on the CSL. After you are registered on the CSL, KVH will provide you with your user ID and password by e-mail. (For detailed requirements of CSL registration, please refer to Section 3.1)

1.3.1 STEP1 Log-in

- 1) Access the portal site by entering <https://portal.kvh.co.jp> in the URL.

- 2) On the Log-in screen, enter your user ID and password and click “Log-in”.
 - ※ When you log-in for the first time, use your ID and password provided on “User Registration Completion Notification” mail sent by KVH. After the log-in, you may change the password. (See Section 4.1 “Changing the Password”.)
 - ※ If you have forgotten your password, click “Forgot the password”. (Refer to Section 4.2 “If you have forgotten your password”.)

- 3) Click [Data Center] menu at the top of the screen to open the Data Center Site.
 ※ When you are accessing the [Data Center] menu for the first time, you will be prompted to agree to the terms of use on the screen.

The screenshot shows the KVH Data Center Site interface. At the top left, there are three circular icons (K, V, H) and the text 'Data Center Site'. To the right, there are links: '[KVH] [JAPANESE] [MANUAL] [CHANGE PASSWORD] [CONTACT]'. Below this is a navigation bar with 'Data Center' and 'Logout' buttons. The 'Data Center' button is highlighted with a red box. Below the navigation bar is a large block of Japanese text, which is the terms of use. At the bottom of this text block, there are two buttons: 'Agree' and 'Disagree'. The 'Agree' button is highlighted with a red box. Below the terms of use is a footer with links: '| About Information Security | Privacy Policy | Terms of Use | About KVH |' and copyright information: '© 2009 KVH Co., Ltd. All rights reserved.'

1.4 CSL Registration

ACR is required to follow below steps for CSL Registration.

1.4.1 STEP1 Open the “New CSL Update Request” screen.

- 1) If you have never registered the CSL, after successful login, you will be directed to the [CSL Initial Set-up] screen.

1.5 CSL Update

The CSL needs to be updated as follows if it is necessary to change, add or delete name(s) or information of CSL members.

1.5.1 STEP1 Open the CSL Update Request Screen

- 1) After successful login and clicking on Data Center tab, click on the [CSL] tab.

The screenshot shows the KVH Data Center Site interface. At the top, there are navigation links: [KVH] [JAPANESE] [MANUAL] [CHANGE PASSWORD] [CONTACT]. The user is logged in as OBA Co., Ltd. Resort Project. The main navigation bar includes 'Data Center' and 'Logout'. Below this, there are tabs for 'Request list', 'Admission', 'Shipping Receiving', and 'CSL'. The 'CSL' tab is highlighted with a red box. Underneath, there are links for 'CSL Update Request', 'Search', and 'Active CSL'. The 'Active CSL' section displays a table with the following data:

DC Customer ID SHA23FA0224									
No	Name	Division	Company	Tel	E-mail	Remarks	Access	Area

(Note 1) The name, department name and company name can be registered either in Japanese or English.

(Note 2) Telephone numbers can be registered only in numeric (example:0312341234) or numeric and hyphens (example : 03-1234-12347).

(Note 3) There are the following 4 categories of access level.

(Only for TDC and TDC2, but TDC 2 do not have Level B.)

- Level A : Customers who can access (Unescorted) at any time (24x7)
- Level B : Customers who can access (Unescorted) from 8:00 a.m. to 8:00 p.m. (Local Time), Monday to Friday, except holidays.
- Level C : Customers who need to be escorted by the person registered in Level A or Level B or by DC Onsite Support personnel when entering or leaving the data center.
- Level D : Customers who can request for Remote Hands and/or Inquiries. A group name may be used to register.

* Biological information can be registered for TODC user.

- Customers of the Tokyo Data Center or Partner Data Center who have Level D are asked to enter "-(hyphen)" in the area.

(Note 4) For Tokyo Data Center users, please input area (e.g. 1A, 1B).

(Note 5) There is a limit to the number of characters in the input field. Please refer to "5.1.3 CSL request XML item description."

2 Request to Enter the DC

If it is necessary for some people other than those registered on the CSL (for example, vendors) to enter the data center to do the work in the server room. Such people may enter as visitors (regardless if the visitor is accompanied by some people registered on the CSL or not).

The request to enter the Data Center as a visitor may be submitted at the Data Center Site.

2.1 Request to Enter the DC

To submit admission request for Data Center visitors, please follow below steps:

2.1.1 STEP1 Check the Admission Request List.

- 1) After successful login and clicking on Data Center tab, click the [Admission] tab to open the “Admission Request List” screen.

2.1.3 STEP3 Admission Request

1) Enter the visitor’s name, company name and other required information on the “New DC Admission Request” screen and click “OK”.

※ If you prefer to create an XML file and update the information all at once, click [Browse] button and select the XML file. Then, click on the [Apply] button to display the XML file on the screen. After the

information is displayed, please confirm it. If there is no need to edit any information, click [OK]. For more details on the XML format, please refer to Section 5.2 “DC Admission Request in XML Format.”

※[Clear] is to reset xml you applied, not for formatting CSL.

2) Screen shows a message “Request has been saved” when the information has been correctly input.

※ The request is saved. If it is necessary, the request can be selected from the list, revised and resubmitted at a later date.

※ To “Submit the request with the same contents consecutively”: admission request will be created

for each day automatically. Please return to the admission list and click submit button on each request one at a time. You may either submit or cancel request one by one.

The screenshot shows the 'Data Center Site' user interface. At the top, there are navigation links: 'Request form', 'Request list', and 'Search'. Below this is a section titled 'Admission request' with a red message: 'Your request has been saved. Please continue to submit your request or go back to request list page.' The main content is a form with the following fields:

Requester	DC Customer ID	SHAE23FA0224

3 Shipping/Receiving Request

A request form to ship/ receive packages needs to be filled and submitted on the Data Center Site if you wish to ship/receive packages. There is no need to submit request form if you plan to carry in a small amount of packages (*).

* Packages which can be carried using a transport trolley and there is no need for KVH to keep the packages for the customer.

3.1 Shipping/ receiving packages

Before KVH can ship / receive packages, the request needs to be submitted as shown hereunder.

3.1.1 STEP1 Check a list of shipping/ receiving request

- 1) Click the [Shipping/Receiving] tab to open the “the List of Shipping/ Receiving Request” screen.

The screenshot shows the KVH Data Center Site interface. At the top, there are navigation links: |KVH|JAPANESE|MANUAL|CHANGE PASSWORD|CONTACT|. Below this is a header with 'Data Center Site' and 'OBA Co.,Ltd. Resort Project'. A navigation bar contains 'Data Center' and 'Logout'. Below the navigation bar is a menu with 'Request list', 'Admission', 'Shipping Receiving' (highlighted with a red box), and 'CSL'. Below the menu is a table titled 'Shipping / Receiving request list' with the following data:

Request No.	Date of ship/receive	Pick up date of rece	Contents	Requester	Request date	Status
ST000584	Ship 2010/06/15 18:15		cable	Keiko Yamada	2010/06/14 15:13	Requesting
ST000583	Rece 2010/06/16 11:15	2010/06/16 11:15	Server	Keiko Yamada	2010/06/14 15:12	Approved
ST000582	Ship 2010/06/15 18:10		Server	Keiko Yamada	2010/06/14 14:05	Approved

At the bottom of the screenshot, there are links for 'About Information Security | Privacy Policy | Terms of Use | About KVH |' and a copyright notice: '(C) 2009 KVH.Co.,Ltd. All rights reserved.'

- 2) Check the list to make sure that there is no duplicate request submitted by another person.

Shipping / Receiving request list						
Request No.	Date of ship/receive	Pick up date of rece	Contents	Requester	Request date	Status
ST000584	Ship 2010/06/15 18:15		cable	Keiko Yamada	2010/06/14 15:13	Requesting
ST000583	Rece 2010/06/16 11:15	2010/06/16 11:15	Server	Keiko Yamada	2010/06/14 15:12	Approved
ST000582	Ship 2010/06/15 18:10		Server	Keiko Yamada	2010/06/14 14:05	Approved

3.1.2 STEP2 Open the “New Shipping/Receiving Request” screen.

- 1) Click [Request Form] link to open the “New Shipping/Receiving Request” screen.

[Request form](#) | [Request list](#) | [Search](#) | [Shipping / Receiving request](#)

4 Other Set-up

4.1 Change the Password

The log-in password may be changed as described below.

Password is necessary to set with alphabet and numbers of mix and over 6 characters. (Symbol characters are also available)

There is no limitation of password, but we recommend you to update password periodically.

4.1.1 STEP1 Open the “Change Password” screen

- 1) Click the [Change Password] tab at the top right side of the screen to open the “Password Change” screen.

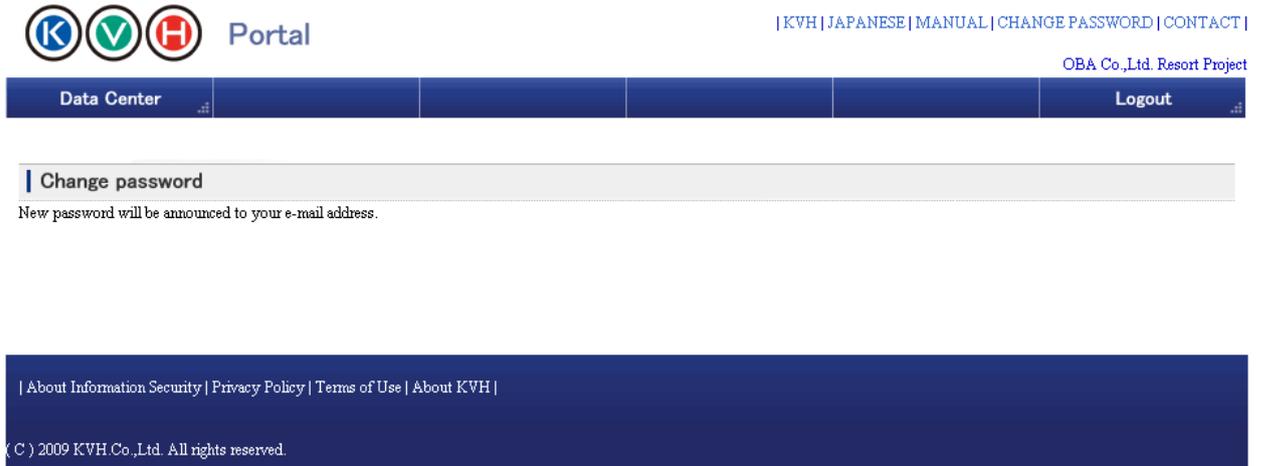

4.1.2 STEP2 Change the password

- 1) On the “Password Change” screen, enter the old password and the new password. The new password needs to be entered twice. Click the [Submit] button.

2) The password is now changed and you will receive the password change completion notification by mail.

OBA Co., Ltd.
Mr. Yamada

Your password has been changed successfully.
Please login the portal with your "ID" and "New Password".

※ After you log-in using the temporary password, it is recommended to change the password to something which is easy to remember. Please refer to Section 4.1 “Change the Password” on how to change the password.

5 【Reference】 Request submission by using XML format

Information on CSL update, Admission and Shipping/Receiving requests can be entered by using the XML file. Sample XML files for different types of requests are shown hereunder to help you create XML formats.

5.1 CSL Update Request in XML Format

To submit a CSL update request, use the XML file as shown below.

5.1.1 Sample of CSL update request in XML format

```
<?xml version="1.0" encoding="UTF-8" standalone="yes"?>
<cslMembers>
  <cslMember>
    <lastName>LastName1</lastName>
    <firstName>FirstName1</firstName>
    <department>IT Solution Dept.</department>
    <partnerName>Sample Co.,Ltd.</partnerName>
    <workPhone>03-1234-5678</workPhone>
    <workPhone2>03-4321-8765</workPhone2>
    <email>name1.sys@sys.com</email>
    <email2>sample.sys@sys.com</email2>
    <roleName>ACR</roleName>
    <area>Area</area>
    <access>LEVEL A</access>
  </cslMember>
  <cslMember>
```

```
<lastName>LastName2</lastName>
<firstName>FirstName2</firstName>
<department>Tech Dept.</department>
<partnerName>Sample Co.,Ltd.</partnerName>
<workPhone>03-8765-4321</workPhone>
<workPhone2>03-4321-8765</workPhone2>
<email>name2.sys@sys.com</email>
<email2>sample.sys@sys.com</email2>
<roleName>ACR-Sub</roleName>
<area>Area2</area>
<access>LEVEL B</access>
</csiMember>
<csiMember>
  <lastName>LastName3</lastName>
  <firstName>FirstName3</firstName>
  <department>Technical Support Dept.</department>
  <partnerName>Sample Co.,Ltd.</partnerName>
  <workPhone>03-1234-9876</workPhone>
  <workPhone2></workPhone2>
  <email>name3.sys@sys.com</email>
  <email2></email2>
  <roleName>ACR-Sub</roleName>
  <area>Area3</area>
  <access>LEVEL C</access>
</csiMember>
</csiMembers>
```

* Use character code "UTF-8" for the XML file. In editing the XML file, use a text editor which allows

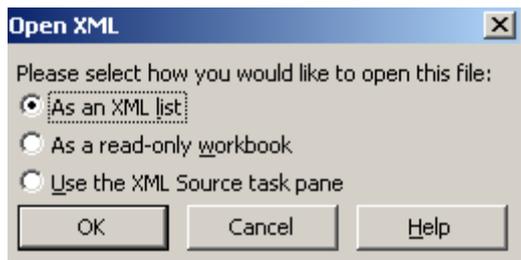

storing the text in UTF-8.

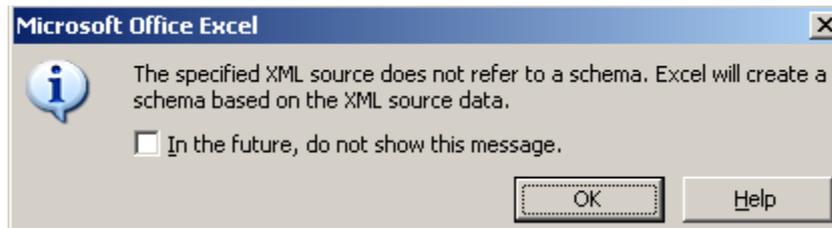

- * The XML file header (<?xml version="1.0" encoding="UTF-8" standalone="yes"?>) needs to be placed on the first line of the file.
- * Tag names are case sensitive.
- *The tag uses a nested structure. Please do not forget to add a closing tag.

5.1.2 How to use CSL Update Request in XML Format on Excel

1. Use Microsoft Office Excel to open CSL update request which is in XML format
2. Below message will be shown. Please select “As an XML list” then click “OK”

3. Below message is shown. Please click “OK”

4. Please input required information and save the file in XML format.

	A	B	C	D	E	F	G	H	I	J	K

5.3 Receiving Request in XML Format

Use the XML file as given below to create a request for receiving packages.

5.3.1 Receiving Request XML Sample

```
<?xml version="1.0" encoding="UTF-8"?>
<doss_request>
  <data_center_id>-</data_center_id>
  <!-- Shipping:false / Receiving:true -->
  <inout>true</inout>
```

```
<!-- Date of shipping out from customer -->  
    <user_ship_date>2010-06-01T12:00:00</user_ship_date>  
<!-- Date of planned delivery to DC -->  
    <ship_date>2010-06-01T13:00:00</ship_date>  
<!-- Date of customer pickup at DC -->  
    <receive_date>2010-06-10T15:30:00</receive_date>  
<!-- Delivery company -->  
    <transport_company>FedEx</transport_company>  
<!-- Quantity of package -->  
    <box_number>3</box_number>  
<!-- Size of package -->  
    <box_size>Height2.2m x Width1m x Depth0.8m</box_size>  
<!-- Require loading dock? ONLY FOR TDC Users -->  
    <use_entrance>true</use_entrance>  
<!-- Reason of using loading dock is because package is Large-->  
    <reason_large_size>true</reason_large_size>  
<!-- Reason of using loading dock is because package quantity is a lot-->  
    <reason_ammount>true</reason_ammount>  
<!-- Reason of using loading dock is others...-->  
    <reason_other>true</reason_other>  
<!-- Comment field for others on reason of using loading dock -->  
    <reason_other_comment>Free text field</reason_other_comment>  
<!-- Contetns -->  
    <contents>Servers</contents>  
<!-- Manufacture -->  
    <maker>IBM</maker>  
<!-- Comments -->
```

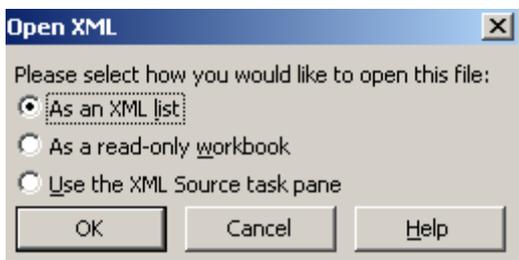

```
<remarks>Free text field</remarks>  
</doss_request>
```

5.4 Shipping Request XML

Use the XML file as given below to create a request for shipping packages.

5.4.1 Shipping Request XML Sample

```
<?xml version="1.0" encoding="UTF-8"?>
<doss_request>
  <data_center_id>-</data_center_id>
  <!-- Shipping:false / Receiving:true -->
  <inout>>false</inout>
  <!-- Date of Shipping from DC -->
  <ship_date>2010-06-01T12:00:00</ship_date>
  <!-- Delivery compan -->
  <transport_company>FedEx</transport_company>
  <!-- Quantity -->
  <box_number>1</box_number>
  <!-- Size of package -->
  <box_size>Hight2.2m x Width1m x Depth0.8m</box_size>
  <!-- Require loading dock? ONLY FOR TDC Users -->
  <use_entrance>>true</use_entrance>
  <!-- Reason of using loading dock is because package is Large-->
```

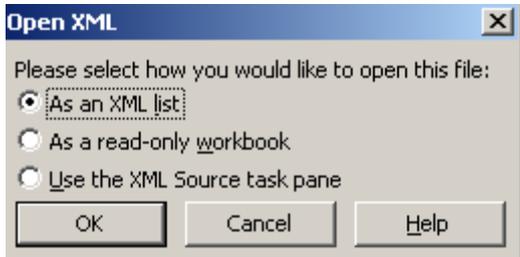

```
<reason_large_size>true</reason_large_size>
<!-- Reason of using loading dock is because package quantity is a lot-->
    <reason_ammount/>
<!-- Reason of using loading dock is others...-->          <reason_other/>
<!-- Comment field for others on reason of using loading dock -->
    <reason_other_comment/>
<!-- Contetns -->
    <contents>PC</contents>
<!-- Manufacture -->
    <maker>NEC</maker>
<!-- Comments -->
    <remarks>Free comment field</remarks>
</doss_request>
```

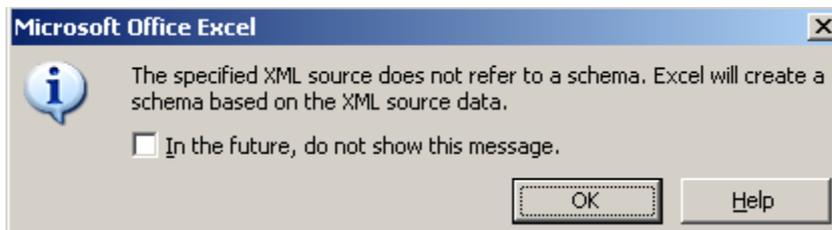

- * Use character code “UTF-8” for the XML file. In editing the XML file, use a text editor which allows storing the text in UTF-8.
- * The XML file header (<?xml version="1.0" encoding="UTF-8" standalone="yes"?>) needs to be placed on the first line of the file.
- * Tag names are case sensitive.
- *The tag uses a nested structure. Please do not forget to add a closing tag.

5.4.2 How to use Shipping Request in XML Format on Excel

1. Use Microsoft Office Excel to open Shipping request which is in XML format
2. Below message will be shown. Please select “As an XML list” then click “OK”

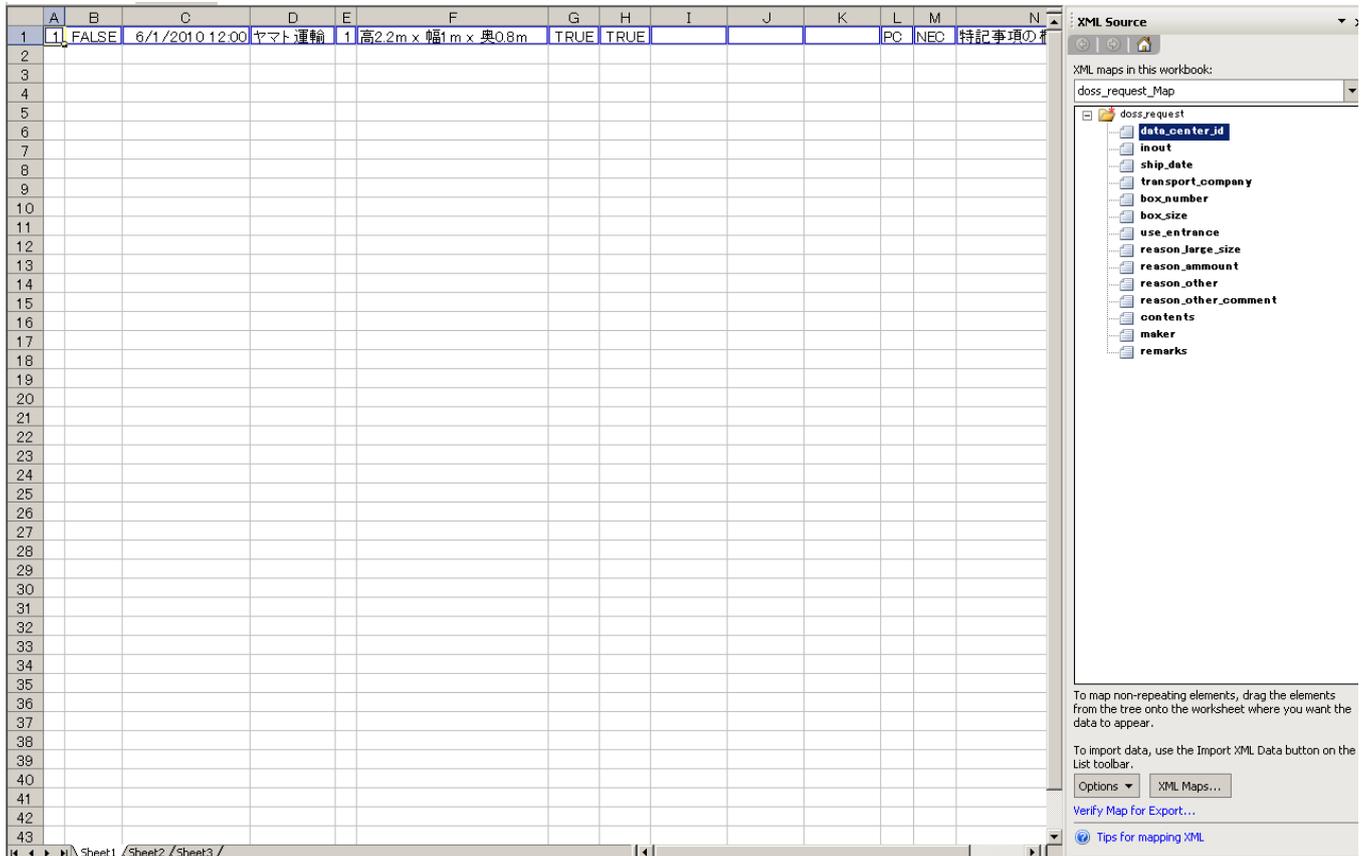

3. Below message will be shown. Please click “OK”

4. To see the source of each cell, select the cell which has information -> Right click -> Select “XML” then “XML Source”. Screen will show the source of information at the right side.

※ For more details on XML items for the Shipping request, please refer to Section 5.4.3

5. Please input required information and save the file in XML format.
6. Login to the KVH Data Center Site -> Click on “Data Center” tab -> Click on “Shipping/ Receiving” tab. Then click on “Request Form” to open the template of Admission Request.
7. If you would like to send a parcel from the data center, select “Shipping” then Shipping request template will be shown.
8. Browse the XML file -> Click “Apply” button -> information which has been entered on XML file will be shown on the template. Please confirm the information and click “OK” if information is input correctly.

The screenshot shows the 'Shipping / Receiving request' form in the KVH Data Center Site. The form is divided into several sections: Requester, Ship/Receive, Loading dock, Contents, Manufacture, and Comment. The 'Apply' button is highlighted with a red box, indicating the next step in the process.

6 When portal is out of service

Following screen will displayed when you access <https://portal.kvh.co.jp> during maintenance or outage. When it is out of service, please follow instruction on screen and submit request to KVH by e-mail. (Only Admission and Shipping and Receiving request is available to submit via mail during the maintenance or incident.)

In case of the following screen is not displayed but the portal system is not available or enable to login, please contact KVH Service Desk. KVH Service Desk will provide Excel based request form to you.

7 Field Description

* Every input field can not handle model dependence Chinese characters.

7.1 Admission Request

The screenshot shows the 'Admission request' form in the KVH Data Center Site portal. The form is titled 'Admission request' and includes a legend indicating that items with an asterisk (*) are required. The form fields are as follows:

- Requester:** DC Customer ID (SHIS000TEST), Company (IS Test Account Tokyo DC TEST), Requester (Charlie Yoshida).
- Visiting Data Center:** KVH Tokyo Data Center.
- Visiting time from:** 2010/12/14 11:15 (Annotation 1: calendar icon).
- Visiting time to:** 2010/12/14 11:15 (Annotation 2: checkbox for 'Request for multiple days.').
- Visitor:** A list of 10 visitor entries, each with 'Company:' and 'Name:' fields (Annotation 3: red box around the list).
- Escorted by:** Radio buttons for 'Customer' and 'KVH Rack No:' (Annotation 4: text input field).
- Rack unlock request:** Radio buttons for 'Yes Rack No:' and 'No' (Annotation 5: text input field).
- Purpose of visit:** Checkboxes for 'Maintenance', 'Repair', 'Tour', 'Meeting', and 'Other' (Annotation 6: text input field).
- Room request:** Checkboxes for 'Housing room', 'Staging room', and 'Other' (Annotation 7: text input field).
- Comment:** A large text area for additional notes.

Buttons for 'OK' and 'Cancel' are located at the bottom of the form. The footer of the page contains links for 'About Information Security', 'Privacy Policy', 'Terms of Use', and 'About KVH', along with the copyright notice: '(C) 2009 KVH Co., Ltd. All rights reserved.'

1. Input "Visiting time from" and "Visiting time to" By clicking calendar icon you may select date on calendar view. The default is set as next day, so please be aware to change the date to today if you are requesting for today's visit.

2. By selecting "Request for multiple dates", this feature will help you to create same requests if you are requesting for same time of entry and leave dc every day.

For security reasons, one request will be invalid once applicant leave data center.

3. Input name and company name of the visitor. If visitors are over 10 people, please submit in to 2 requests.

4. Select escort person from , "Customer" with visitor card, or "KVH" for KVH staff. Please input rack number of where you want to have visitor escorted when you select "KVH".

5. Select "Yes" for KVH to unlock rack for visitor to work. In such case please input rack no.

6. Select visitor's purpose of the visit to data center (multiple selection)

7. Select room which visitor needs to use. (multiple selection)

Housing Room : Server room where customer's racks are stored.

Staging Room : Reservation room where visitor can work on unpacking.
