

# Car2U<sup>®</sup> System Programming for Genie<sup>®</sup>

#### Setting the Car2U to Factory Default settings

The default setting for the Car2U system is:

- Button 1= Genie Manufactured Openers
- Button 2= LiftMaster<sup>®</sup> Manufactured Openers
- Button 3= Wayne Dalton<sup>®</sup> Manufactured Openers

- 1. Press and hold buttons 1 and 3 for twenty seconds or until all three LED's begin to flash.
- 2. Release both buttons. The Car2U system is now set to the Factory Default settings.

#### To Change One of the Other Manufacturer's Buttons to Genie

- 1. Press and hold buttons 1 and 3 for one second and release– all three LED's will light solid RED.
- Press and hold the button (2 or 3) you want to change to Genie the corresponding LED will flash. While continuing to hold the button you want to change, press and release button 1. Press and release button 1 again.
- 3. Release the button you were holding in step 2 and wait for the LED to stop flashing. This button is now set for Genie.

Note: If needed, repeat this procedure for the remaining button to change to Genie

# Car2U<sup>®</sup> System Programming for GENIE Models

### IntelliG<sup>®</sup> 1000, IntelliG<sup>®</sup> 1200, TriloG<sup>™</sup> 1200, TriloG<sup>™</sup> 1500, GPower<sup>™</sup> 900 Manufactured <u>before</u> July 2011
