-

System requirements

- Personal computer equipped with SATA external port running Windows 98/ME/2000/XP

External SATA enclosure for 2.5" SATA HDDs

Driver installation under Windows98SE/ME/2000 and Windows XP

- Start the operating system mentioned above
- Insert the driver CD into your CD-ROM drive. The setup should start automatically. If by any reason it does not, double click the file "Setup EXE" from the CD
- Follow instructions on the screen to complete the setup successfully

Now connect the product (with HDD installed) to your computer.

Driver installation under Mac OS

If your operating system is Mac OS 8.6 or above the driver will be installed automatically. If you are running an older version of OS you will have to first download and setup "USB MASS STORAGE SUPPORT 1.3.5" from the SOFTWARE SUPPORT website:

<http://www.apple.com/support>

Congratulation, you can enjoy this product now!

External SATA enclosure for 2.5" SATA HDDs

Warning: Before you disconnect the EE2-SATA-1 from your system, you should always perform the following procedure:

- Click the icon  with your right mouse button
- Choose "Safely remove hardware" from the popup menu
- After your confirmation the message "Storage device can now be safely removed from the system" will appear.

Only now you can disconnect the EE2-SATA-1 from the computer!
