User Manual

1. Introduction

This wireless presenter is designed to control your computer during presentations. It gives you the freedom to speak without having to stand by your computer or relying on an assistant. Simple to use, just plug and play, no driver required.

The device enables you to control your computer wirelessly from up to 15 meters (48 feet) away, using a Radio Frequency (RF) transmitter that doesn't require line of sight to your PC. With its in-built laser pointer, the LP108M is the ideal tool for presentations, teaching, meetings, speeches and training.

2. Main Features:

- Page up/down and Zoom Button
- Wireless trackball mouse
- Windows Shortcut Buttons
- Red laser pointer
- RF signal receiver
- Plug and Play
- Remote control range: up to 15m

3. Specifications:

- Laser wavelength 650 nm
- RF frequency 433.92MHz
- Power supply 2 x AAA batteries
- Support Windows 98 / ME / 2000 / 2003 / XP / Vista / 7 / 8, Linux and Mac OS

4. Overview:
