ARCHED AND RECTANGULAR FACE KITS

INSTALLATION INSTRUCTIONS FOR ARCHED AND RECTANGULAR FACE KITS FOR USE WITH SPECTRA LSS SERIES GAS FIREPLACES

GENERAL INFORMATION

These arched and rectangular face kits are designed to be used with the Spectra LSS series gas fireplaces. When installed, these kits complete the front aspect of these fireplaces. The kits contain a one piece face kit, a hardware kit and these instructions. Refer to **Table 1** for kit applications.

INSTALLATION INSTRUCTIONS

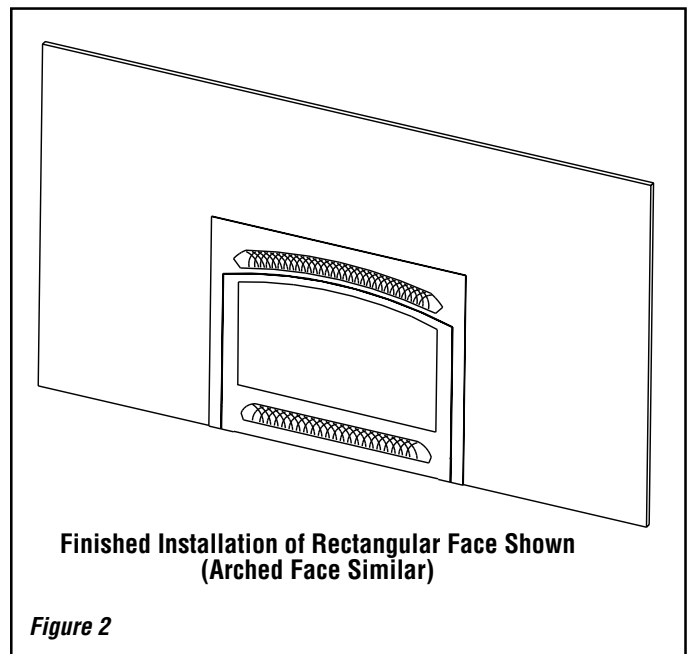

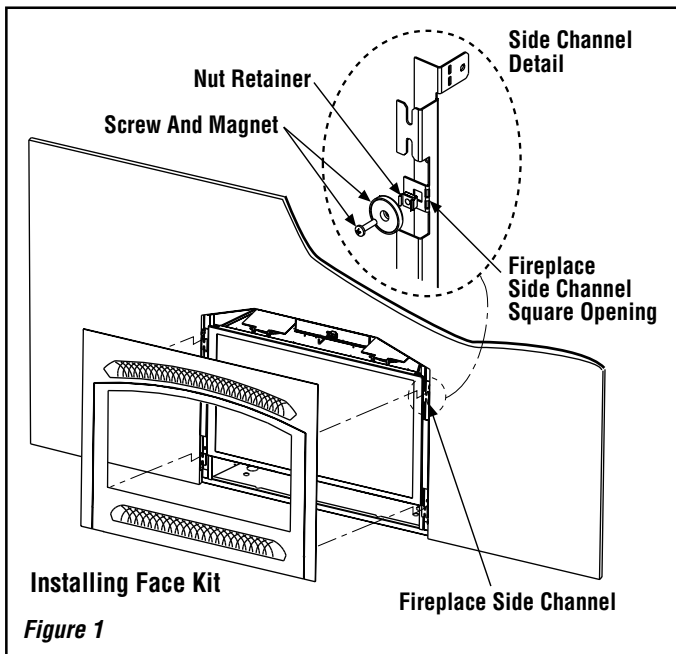

Note: When handling the face kit, take care not to scratch the outward-facing painted or plated surfaces.

Step 1. Insert the nut retainers into the square openings of the side channels. Thread the screw and magnets into each nut, four (4) places. See **Figure 1**.

Adjust the magnets to match the facing material on the fireplace and snap the faceplate in position.

Arched and Rectangular Face Kits - TABLE 1
