WHAT'S IN THE BOX?

Your package comes with the following items. If any of these is missing, please contact your retailer

- Device
- USB Cable
- Pouch
- Screen Protector
- Adapter
- User Guide
- Headset

1. UNDERSTANDING YOUR DEVICE

1.1 GENERAL INFO

Your device is based on Android version 2.3 and encloses the following features:

- 3G(HSPA)/2G
- Video Calling *(please refer to page no 21 for more information.)*
- Wi-Fi
- GPS/AGPS
- 3.2 MP + VGA Camera
- Wi-Fi Tethering
- Proximity Sensor

1.2 DEVICE OVERVIEW

Position of Keys

| | |
|------------------|-----------------|
| Power On/Off Key | Menu Key |
| Home Key | Return/Back Key |
| Side/Volume Key | Camera Key |

Function of Keys

| Key | Description |
|------------|--|
| Power Key | Hold and press the key to switch on/off the device. Press the key to turn the on display/deactivate sleep mode. |
| Menu Key | In the idle screen, press the key to set wallpaper, view settings, manage apps, view notifications, add shortcuts, widgets, folders & wallpapers to the desktop. At any interface, press it to view menu options. |
| Home Key | At any interface, press the key to return to the home screen. In idle screen, long press the key to view recently accessed features. |
| Back Key | Press to go back to the main menu. |
| Side Key | In the idle screen, press upwards or downwards to increase or decrease the ringer volume. While using music/video player, press the keys to increase/decrease the volume. |
| Camera Key | Long press the key to launch camera. |

2. GETTING STARTED

2.1 INSTALLING CARDS & BATTERY

Please switch off your device before inserting or removing the battery/SIM card or memory card.

Installing SIM Card and Battery

Your device is provided with two SIM slots for two different SIM cards. In order to install battery and SIM card in the device, please follow the steps mentioned below:

- Remove the back cover of the device.
- Hold the device with the front facing downwards; pull the battery cover

Insert the SIM cards in the device.

Attach the battery.

Push the battery cover until it clicks into place.

Installing Memory Card

Your device supports T-Flash card, which is a multimedia memory card used to multiply the memory of the device. The T-flash card is small and should be pulled out and installed carefully and prudently in order to avoid any kind of

damage. Please follow the steps mentioned below to install the memory card in the device:

- Switch off your device.
- Remove the battery cover.
- Slide the T-Flash card into the slot.
- Attach the battery.
- Push the battery cover until it clicks into place.

Charging the Battery

The device prompts a warning tone and message stating insufficient battery when the battery power is low.

Please follow the instructions mentioned below to charge your device:

Plug the connector of the charger into the jack of the device.

Plug the charger into a standard AC wall outlet.

Charging.....  Fully Charged..... 

You must fully charge the battery before using the device for the first time. It is recommended to charge the battery for four hours before using the device for the first time.

When  is shown on the screen, it indicates that there is not enough power and you should now charge your device. When charging is complete, the battery icon will stop flashing. If the device is turned on during charging, you can still make or answer calls, but this will consume battery power, thus will extend the charging time of the device.

2.2 POWERING ON/OFF THE DEVICE

Turning On the Device

After installing the SIM card and charging the battery, you are now ready to turn on your device.

- Long press and hold the Power Key to turn on the device.
- The first screen that appears is known as the home/idle Screen.
- Drag the lock icon sideways to unlock the screen.
- If the screen turns off, then press the Power Key to turn on the display.

Turning Off the Device

- Press and hold the Power Key for 5 seconds.
- A pop-up window appears, select Power off.
- Select OK to confirm.

Automatic Customer Registration

After 4 hours of usage a SMS from the device will be sent automatically for the customer registration.

Standard SMS charges apply.

3. BASIC OPERATIONS

3.1 CALLING

To Make Calls

If the icon  /  appears on the screen, then you can make or receive calls.

To make a call, please follow the steps mentioned below:

- From Home screen, select Phone.
- Enter the phone no using the on-screen keyboard.

 Tap  to erase a wrong number. Tap and hold  to erase the entire number.

- After entering phone number, tap .

➤ To end the call, tap

Answer/Reject an Incoming Call

When you receive an incoming call, a notification message appears on the screen. In order to accept the call, drag  towards right. If you wish to

reject the call, drag  towards left.

Other Options during the call

To put a call on hold

If you are having a call conversation and there is another incoming call, select hold to put the first call on hold. To unhold the call, select unhold.

To set up conference calls

- If you are already having a call conversation, select Hold to put the call on hold.
- Select Add Call to make another call. .
- After connecting to the second call, select merge calls to set up the conference call.

Manage other voice call features

During a call, please select:

- Mute: to mute/unmute the microphone.
- Hold: to hold the call.
- Contacts: access the contacts.
- Add Call: add/make another call
- Dial pad: use the dial pad

VIDEO CALLING

Your device supports Video Calling feature on 3G network. To make a call, please follow the steps mentioned below:

- From Home screen, select Phone.
- Enter the phone no using the on-screen keyboard.

- After entering phone number, tap

You can also make a video call by accessing the call logs. Go to Phone > Call Logs > Select the desired no and long press to view the options. Select Video Call.

Note: *The picture clarity depends upon the network signals and availability of 3G network.*

3.2 MESSAGING

Your device features, sending and receiving of SMS (Short Message Service) and MMS (Multimedia Message Service). In the standby mode, Tap Messages or go to Main Menu and then select Messages.

Creating a Message

- Tap New message.
- In To field; enter the recipient's phone number.
- Type message in the Type to compose field.
- Tap Send.

Receiving and Managing Messages

When you send and receive messages to/from a contact, these messages are grouped as a message thread. A message thread looks like an exchanged conversation.

To reply to a text message

- Select Messages.
- Select a message thread to open it.
- Select Type to compose to enter your message.
- Click Send.

To forward a text message

- Select Messages.
- Tap to view a message thread.
- Press and hold a message to view the message options.
- Select Forward.
- In the To field, enter the recipient's phone number.
- Click Send.

To delete all text messages

- Select Messages.
- Tap Menu > Delete threads.
- Click Delete to confirm.

To copy message text

You can use this function to copy the text from a message to a new message you are composing.

- Select Messages.
- Select a message thread to open it.
- Press and hold the message to view the submenu options.
- Select Copy message text.
- Go to Compose new message.
- Press and hold Type to compose.
- Select Paste to paste the copied text to your new message.

MULTIMEDIA MESSAGE

A Multimedia message or MMS can contain letters, an image, an audio or video file. To create and send a MMS, please follow the steps mentioned below:

- Select Messages.
- Select Compose new message.
- Select Menu > Add subject.
- The message automatically gets converted into a MMS.
- In the To field, enter the recipient's phone number or email address.
- Enter the Subject.
- To insert a picture or video file, select Menu > Attach.
- To insert text, tap Type to Compose, and then enter your message.
- To insert an audio file, tap Menu > Attach > Audio.
- Click Send.

3.3 CONTACTS

Contacts refers to the phonebook that lets you store names, phone numbers, e-mail addresses and other information. You can save information such as name, picture, phone numbers, e-mail addresses, etc for each contact listed in your Contacts menu. You can add the frequently used contacts to the favorites.

To add a Contact

- Enter the Main Menu select Phone and select Contacts.
- Tap Menu > New contact.
- Select the appropriate storage i.e. Phone/SIM 1/SIM 2
- You can enter contact information such as name, phone number, email address etc, if you select storage as "Phone".
- Tap Done to save the contact or tap Revert to exit without saving any change.

To import contacts

- Enter the Main Menu select Phone and select Contacts.
- Tap Menu > More > Import/Export.
- Select to import contacts from SIM Card/ SD Card.
- Select a particular source to import the contacts from.
- Select Next.
- Select the destination, such as Phone to copy contacts to.
- Select Next.
- Select "Select All" to import all contacts or mark the required contacts.
- Select Copy.

3.4 EMAIL

Your device allows you to compose, read and send emails.

Setting up an Email Account

- On Home screen, Tap Email.
- Enter your Email address and Password.
- Tap Next. The device will automatically retrieve email settings.
- Enter Name and Account display name.
- Tap Done.

3.5 BROWSER

Browser is a tool to access the Internet.

To open a web page

- From the Main Menu, select Browser
- Tap the address bar.
- Type the URL and select Go
- Tap Menu to access more functions, such as bookmarks, history and other browser related settings.

To scroll the page

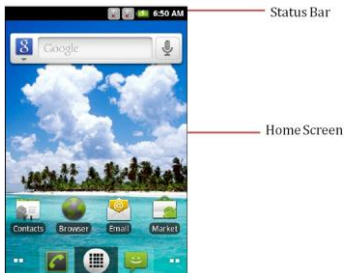

- Use finger gestures to scroll up or down.
- To scroll left or right, tap and swipe your finger towards right/left.

To set the Home page

- While viewing a web page, tap Menu >More > Settings > Set home page.
- Enter the URL of page that you want to set as home page and select Ok.

4. HOME SCREEN

From Home screen, you can quickly access common features, view notifications of missed calls, received messages and check connection status.

4.1 STATUS BAR

The Status bar icons indicate different types of information. Tap the status bar and scroll down to view notifications or view system information easily. The table below lists various icons that might appear on the status bar of the device..

| | |
|---|---------------------------------|
|  | Network intensity of SIM card 1 |
|  | Network intensity of SIM card 2 |
|  | Battery level of the device |
|  | New short message |
|  | Missed call notification |
|  | Call in progress |
|  | USB connected |
|  | GPS is on |
|  | Music player is running |

Headset is plugged in

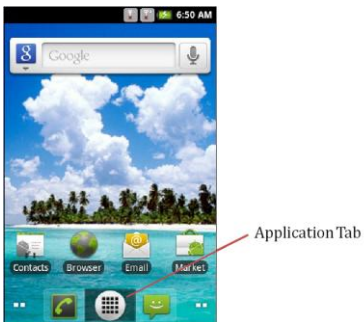

Call on hold

Bluetooth

4.2 APPLICATION TAB

Tap Application Drawer to access applications and settings of the device. The Application tab enables you to access the Main Menu and select among the various utilities/features available in the device.

4.3 CUSTOMIZING SCREEN

The device features a touch screen with idle displays and access to utilities at just one-touch. So swipe right or left to navigate through various screens accessing your favorite features without entering the main menu. Each screen can be customized by adding the various widgets, shortcuts and folders.

Tap the Menu Key and select Add. You can select to add Shortcuts, Widgets or Folders are per your usage.

Shortcuts

In order to add a shortcut on the screen:

- Tap Menu > Add >Shortcuts.
- A list of applications is displayed.
- Tap the desired application to add on the screen.

Widgets

Save time with live updates right on Home screen and get all of your personalized updates at one place. You may add and customize the Widgets on Home screen by:

- From Home Screen, tap Menu > Add > Widgets.
- A list of all available widgets is displayed. Tap to select the widget you want to display on Home screen.

Folders

You can also add your most commonly used folders on the screen.

- From Home Screen, tap Menu > Add > Folders.
- A list of all available folders is displayed. Tap to select the folder you want to display on Home screen.

Setting the wallpaper

You can customize the wallpaper of your Home screen with default wallpaper or with pictures taken from your device.

- In the idle mode, tap Menu Key
- Select your desired wallpaper from the various options:
- Gallery

- Live Wallpapers
- Wallpapers

5. MULTIMEDIA

Your device features various multimedia options, such as Music Player, Camera and Video Player.

5.1 MUSIC PLAYER

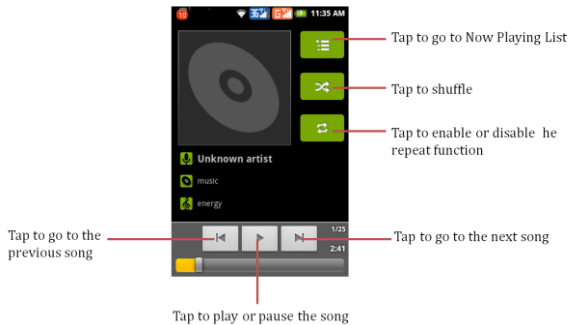

Use the Music player to play music files. The songs saved in your SD Card can be played using the Music Player of the device.

- Tap Application Tab to enter Main Menu
- Select Music

The songs are categorized by Artist, Albums and Songs. You can make your favorite playlist by long pressing on a song and selecting Add to Playlist. While listening to the music, you can choose among the various sound effects.

In the playback mode, press menu key, select Sound Effects and choose among the various sound effects, such as Bass, Classical, Hip Hop, Jazz, Pop, Rock etc.

5.2 CAMERA

Your device is equipped with camera and camcorder, which enables you to capture photos and videos. The rear camera is 3.2 megapixels and the front camera is VGA.

Capturing an Image

- Select Camera. The screen will automatically switch to landscape view.
- Aim the phone at the subject, then fully press the camera key or tap  to take the shot.

To activate the camera at anytime, press and hold the camera key on the side.

To switch to the front camera, press menu key in the camera mode and select "Switch to Camera"

Capturing a Video

- Select Camera. Swipe to video mode.
- Aim the phone at the subject.
- To start recording, press the camera key or select .
- To stop recording, press the camera key again or select .

5.3 VIDEO PLAYER

You can view/play your videos stored on your SD Card through the Video Player.

Tap Application Tab > Main Menu > Video to play the videos on the memory card.

5.4 GALLERY

You can view the captured images, recorded video clips, and downloaded images in the Gallery.

Select Gallery.

The picture folder and video folder will be displayed.

Select to view the camera pictures or camera videos.

The images or videos will be displayed in thumbnails.

5.5 FILE BROWSER

You can browse, open and manage the data saved in the Device and Memory card by accessing the File Manager sub-menu. The device provides a certain space for users to manage files and supports the T-Flash card. You can use the file browser to conveniently manage various directories and files on the device and the T-Flash card.

Select File Browser

Select the folder list and tap the folder you want to explore.

5.6 FM RADIO

You can use your phone to listen to FM radio stations once the original Headset is plugged into the accessories connector. Select FM Radio from the Menu to access the radio controls.

5.7 SOUND RECORDER

You can use the sound recorder to record sounds and also select to save the recordings in your phone. Tap Application Tab to access Main Menu > Sound Recorder. When in the sound recorder interface, press menu key to select recording format and record history

6. NETWORK

6.1 WI-FI

Connect to a wireless network to browse Internet.

- Enter Main Menu and tap Settings.
- Tap Wireless & networks.
- Tap WLAN to activate.
- Tap WLAN settings > Network notification to start detecting networks. The available networks will then be listed.
- Tap Add WLAN network to add a connection.

Note:

- If the device before the connection is successful, the equipment information will be saved in the pop-up window selected connection, select forget to remove device information.
- If the device does not encrypt selected connection in the pop-up window to connect.
- If the device is encrypted, the pop-up window will appear, enter the password.
- Network connection is successful; the status bar icon appears Wi-Fi connection.

6.2 3G

The device supports WCDMA protocol. Please make sure that you device is turned off, then insert or remove the SIM card.

- Power off insert USIM or SIM card
- Power on
- Open setting, select Wireless & Networks
- Select mobile network ,enter access point names interface
- Touch menu button, select New APN;
- Set as below:
- Name: (any name like airtel);
- APN: airtelgprs.com;
- Touch menu button, select save;
- Go back to access point names interface, confirm the new APN selected.
- When connected to 3g network, a 3G icon will appear on the status bar.

6.3 BLUETOOTH

You can transfer data, such as music to other device using Bluetooth. Search the device and accept/transfer data. The received data is automatically stored in the directory.

- Access Settings by entering the main menu
- Select wireless & networks
- Check Bluetooth to turn on Bluetooth
- To make your device discoverable, select bluetooth settings and check discoverable.

7. SETTINGS

Select Settings to view and adjust the settings of your device. The Settings menu is categorized into: SIM management, Wireless & networks, Call settings, Audio Profiles, Display, Location, Security, Applications, Accounts & Sync, Privacy, Storage, Language & Keyboard, Accessibility, Date & Time, Schedule Power On/Off, and About Phone.

7.1 SIM MANAGEMENT

Your device supports two SIM cards, which can be managed by accessing the SIM Management sub-menu. You can select a default SIM Card and also view/change the roaming settings of the cards using this menu.

7.2 WIRELESS & NETWORKS

Access this sub-menu to change/view the WLAN, Bluetooth, Mobile Networks and VPN settings. Please refer to network section for detailed information on Wi-Fi and bluetooth.

To access net using GPRS service, please go to Mobile Networks > Access Point Name > select the desired SIM.

7.3 CALL SETTINGS

You can change/view the default settings for voice and video call using Call Settings sub-menu.

Voice Call

- Voice Mail: select voice mail service and server for both SIMs.
- Call Forwarding: you can select to forward a call when busy, unanswered, and not reachable for both the SIMs.
- Call Barring: you can select to barred all outgoing calls, international calls, and incoming calls while roaming.
- Additional Settings: change phone number and call waiting settings using this sub-menu.

Video Call

Configure video call settings, such as switch between the cameras, peer video bigger than local video, call forwarding, call barring and other settings including caller ID and waiting.

7.4 AUDIO PROFILES

Your device provides four pre-defined user profiles that allow the operations of the device to best suit the environment you are in. The profiles are General, Silent, Vibration and Outdoor. Press and hold the desired profile to activate. You can choose to change the Volume, ringtone, audible touch tone, audible

selection and other settings for both General and Outdoor profile.
Press the Menu Key to add a new profile or reset the default profiles.

7.5 DISPLAY

With this function you can configure the display characteristics of the device including brightness, animation, auto-rotate screen and screen time out.

7.6 LOCATION

Your device supports Global Positioning System. The settings related to the location, EPO and AGPS can be configured using this sub-menu.

7.7 SECURITY

You can protect your device from unauthorized users by setting the PIN code or entering a password.

Enable or Disable SIM card PIN

When PIN code is enabled, you are required to enter the PIN code before making a call.

- Go to Application Drawer > Settings > Security.
- On the SIM card lock tab, select Set up SIM card lock.
- Tap Lock SIM card to use PIN. Check to enable, uncheck to disable.
- Enter the current PIN code.
- To change the PIN code, select Change PIN.

- Enter the old PIN code.
- Enter the new PIN code and confirm.

Setup Screen Lock

You can set up a lock for your screen in form of Pattern, PIN code or password.

- Go to Settings > Security
- Set up screen lock
- Select a desired form (Pattern, PIN code or password)

7.8 APPLICATION SETTINGS

This sub-menu enables you to manage all the installed, running and applications saved in the device memory and SD card. You can remove and manage installed applications, view and control running applications, allow installation of non Spice build in market applications.

7.9 ACCOUNTS & SYNC SETTINGS

Use the Accounts & Sync settings to add, remove, and manage your Google and other supported accounts. You also use these settings to control how and whether all applications send, receive, and sync data on their own schedules, and whether all applications can synchronize user data automatically.

7.10 PRIVACY

You can use the Privacy settings to manage your personal information, such as backup of the contacts, automatic restore and factory date reset.

7.11 STORAGE

View and manage the data storage of your device:

Total Space and Available Space: Lists the amount of space on the microSD card installed in your device and the amount you have used to store photos, videos, music, and other files.

Un-mount SD Card: Un- mounts the microSD card from your device so that you can format the card or safely remove it when the device is on.

Erase SD Card: Permanently erases everything on the microSD card.

Available Space: The amount of internal phone storage used by the operating system, its components, applications (including those you downloaded), and their permanent and temporary data.

7.12 LANGUAGE AND KEYBOARD

Use the Language & Keyboard settings to select the language for the text on your device and for configuring the onscreen keyboard, including words that you've added to its dictionary.

7.13 ACCESSIBILITY

You can use the Accessibility settings to configure any accessibility plug-ins you have installed on your device.

7.14 DATE AND TIME

You can select to set date, time and time zone using this sub-menu.

Use Automatic unless you need to override the network values.

Use 24-hour format: Select to set 24-hour formats on or off.

Select Date format: Select from a variety of formats.

8. APPLICATIONS & UTILITIES

For your entertainment purpose, your device is provided with several interesting games, applications and utilities. Please ensure that you have GPRS setting in your device to access the applications. Contact your operator for GPRS settings.

CALCULATOR

Calculator helps you perform basic arithmetic functions, such as addition, subtraction, multiplication and division.

CLOCK

The clock function gives you an access to alarm clock, date & time and world time.

- Tap Application Tab to enter the Main Menu
- Select Clock
- Select from the various options available, such as Alarm, Date & Time and World Time
- Tap Menu key to add alarm and change/view the Settings.

BACKUP & RESTORE

You can backup all the essential data, such as contacts, messages, call logs and

applications downloaded from the Android Market on the SD card. Go to Main Menu and select Backup and Restore. Before formatting your device, please backup all your essential data in the memory card.

BOLLYWOODJI

It is a 3rd party application. Get the latest Bollywood gossip, news, movie reviews and photos from over 100 entertainment sources in one place. Never miss a movie review! Read what your favorite movie critics are saying to help you make up your mind before you watch a flick. Follow your favorite celebrity and never miss a sound byte from them. Please ensure that you have GPRS setting in your device to access bollywoodji. Contact your operator for GPRS settings.
