- Large selection of test strip configurations
- Manufactured in the USA
- Easy to read color chart
- Urine Chemistry Analyzer now available

DiaScreen® 10

- No cleaning
- Biosensor technology
- Plasma referenced results
- Small blood sample – great comfort

Assure® II

469022

329200, 329201

DESERT ASSEMBLY OPTI-KLENS WALL MOUNTED EYEWASH

Wall-Mounted Emergency Eyewash Fountain. This model meets the needs of facilities without close access to standard sinks where a face & eyewash station is required. This face & eyewash fountain provides all of the safety features and regulatory requirements of all Opti-Klens face & eyewash fountains, but gives the customer an alternative to sink-installed units.

469022 Opti-Klens Wall-Mounted Face/Eyewash Fountain

DESERT ASSEMBLY OPTI-KLENS I EMERGENCY EYEWASH

Chrome-plated, solid brass eyewash unit easily installs on any existing sink or basin faucet as a permanent eye wash fountain with unlimited water supply in an emergency, unlike portable models. In operation, unit mounts behind the spout, where it remains out of the way for every day use. In an emergency, it frees both hands to hold eyes open to the flow of water. Delivering more than twice the required water flow, it does so at a reasonable height. It will function properly with as little as 15 lbs. of water pressure. It is restricted to reduce high water pressure to a velocity low enough not to be injurious to the user. No plumbing required. Two of the most common adapters are packed with the unit. Other adapters are available from manufacturer. Meets ANSI Standard #Z358.1-1998 for an eyewash unit. The addition of the Eliminator Valve allows water temperature to be pre-set at the faucet and remain on. You now have a dedicated eyewash station with only cold water available. For sink use, the water flow is activated by the use of the push through plunger on the Eliminator Valve. Push the plunger to the opposite side for water flow.

329200 Opti-Klens I Eyewash Fountain
329201 Opti-Klens I Eyewash w/Eliminator Valve
329202 Eliminator Valve only, for all models

DESERT ASSEMBLY OPTI-KLENS II EMERGENCY FACE & EYEWASH

Chrome-plated, solid brass face & eyewash unit is designed to fit most standard faucets as a permanent face wash & eyewash fountain with unlimited water supply in an emergency. In operation, unit mounts to the spout with two spray nozzles curving upwards. In an emergency, it frees both hands to hold eyes open to the flow of water. Delivering more than 3 gallons of water per minute, it does so at a reasonable height. No plumbing required. Two of the most common adapters are packed with the unit. Other adapters are available from manufacturer. Meets ANSI Standard #Z358.1-1998 for an eyewash unit. The addition of the Eliminator Valve allows water temperature to be pre-set at the faucet and remain on. You now have a dedicated face wash & eyewash station with only cold water available. For sink use, the water flow is activated by the use of the push through plunger on the Eliminator Valve. Push the plunger to the opposite side for water flow.

269422 Opti-Klens II Face/Eyewash Fountain
269622 Opti-Klens II Face/Eyewash w/Eliminator Valve

DESERT ASSEMBLY OPTI-KLENS III AUTO - FACE & EYEWASH

With Infrared Activation System. This face & eyewash fountain provides all of the safety features and regulatory requirements of the manual Opti-Klens face & eyewash fountains, but with an infrared sensor to activate the flow of water in an emergency making this a truly "hands-free" emergency face & eyewash.

329002 Opti-Klens III Auto Face/Eyewash Fountain

DESERT ASSEMBLY OPTI-KLENS II LABORATORY FACE & EYEWASH

Chrome-plated, solid brass face & eyewash unit is designed to fit laboratory gooseneck faucets as a permanent face wash & eyewash fountain with unlimited water supply in an emergency. In operation, unit mounts to the spout with two spray nozzles curving upwards with a 15 degree greater angle than the standard OK-II model. In an emergency, it frees both hands to hold eyes open to the flow of water. Delivering more than 3 gallons of water per minute, it does so at a reasonable height. No plumbing required. Two of the most common adapters are packed with the unit. Other adapters are available from manufacturer. Meets ANSI Standard #Z358.1-1998 for an eyewash unit. The addition of the Eliminator Valve allows water temperature to be pre-set at the faucet and remain on. You now have a dedicated face wash & eyewash station with only cold water available. For sink use, the water flow is activated by the use of the push through plunger on the Eliminator Valve. Push the plunger to the opposite side for water flow.

**BD MICROTAINER® BRAND TUBES**

Wide-mouth pathway of flo-top collector permits capillary blood to flow freely into tube, minimizing chance of premature clotting in collection top. The unique "twist-assist" MICROGARD™ closure significantly reduces blood splatter upon removal, in comparison with other tube closures. 700 ml capacity. Made of break-resistant plastic.

- 365974 With Dipotassium EDTA & Microgard™ Closure, 50/bx, 4 bx/cs
- 365963 With Microgard Closure & w/no additive, 50/bx, 4 bx/cs

BD VACUTAINER® BRAND BLOOD COLLECTION SETS

Packaging: 50/box, 4 boxes/case.

ALLIED CLINICAL REFRACTOMETER

Provides rapid, accurate measurements of serum protein concentrate, urinary specific gravity, and refractive index of practically any other solution. A single drop is sufficient for determination. 6" x 1 1/2" x 1 1/4". Supplied in fitted case.

S2020 Refractometer
 S2021 Refractometer w/temperature compensating dial

StarLine MICROSCOPE SLIDES

Made from finest sheet glass to assure smooth, flat surface. No striations, bubbles or ripples. Ground, smooth edges. Pre-cleaned and ready to use. 1.00 mm thick. 3" x 1". Packaging: 10 gross/case.

1506420 Plain
 1506421 Frosted 2 Sides

StarLine COVER GLASS

Superior corrosion resistance. Uniform flatness and thinness with no warping. Crush-resistant plastic box has semi-soft foam interior for lint free protection.

Packaging: 1 ounce per plastic carton, 10 cartons/box
 150612222 22 mm x 22 mm, Thickness No. 1 (0.13 to 0.17 mm)
 150622222 22 mm x 22 mm, Thickness No. 2 (0.17 to 0.25 mm)

GOLD SEAL® MICROSCOPE SLIDES

Manufactured from premium water-white sheet glass. Guaranteed non-corrosive and non-fogging. All slides are pre-cleaned and offer smooth ground or beveled edges. Utilize patented, sealed, Moistur-Barrier™ Packaging System for a constant dry-slide environment during shipping and storage. 1 mm thick. Pkg: 1/2 gross/bx, 25 gross/cs unless noted.

Plain

3010-P 3" x 1", 1 mm Thick, Cytogenetics Processing
 3048 3" x 1", 1.2 mm Thick

ERIE SCIENTIFIC CYTOLOGY SLIDES

25 x 75mm, 1mm Thick, 1/2 gross/box, 10 gross/case.

2959	Etched Letters VCE and lines on Reverse Side w/frosted end
2999	Etched Letters VCE and lines Printed on Same Side as Etched Frosted End
4979	White Epoxy Letters VCE and Lines Printed on Same Side as Superfrost End
4973	White Epoxy Letters VE and Lines Printed on Same Side as Superfrost End
4958	Dakin, Fully Frosted Sandblasted Surface on Same Side as Superfrost End
2958	Dakin, Fully Frosted Sandblasted Surface One Side

ERIE SCIENTIFIC MICROSCOPE SLIDES

A complete line of slides for all disciplines; plain, frosted, double frosted. 3" x 1" and 25 mm x 75 mm in both 1.0 mm and 1.2 mm thicknesses is available. Made of clear, non-corrosive, non-fogging glass with ground and polished edges. Superior wettability for use in Hematology. Precleaned and ready to use. Double cellophane protection. Packaging: 10 gross/case.

Plain	
2954	75 mm x 25 mm, 1.1 to 1.2 mm thick
2954F	3" x 1", 1.1 to 1.2 mm thick
Frosted End, One Side	
2951	75 mm x 25 mm, 0.9 to 1.0 mm thick
2955	75 mm x 25 mm, 1.1 to 1.2 mm thick
2951F	3" x 1", 0.9 to 1.0 mm thick
2955F	3" x 1", 1.1 to 1.2 mm thick
Frosted End, Two Sides	
2955DF	3" x 1", 1.1 to 1.2 mm thick
2955D	75 mm x 25 mm, 1.1 to 1.2 mm thick
2991D	Etched, 75 mm x 25 mm, 0.9 to 1 mm thick
2995D	Etched, 75 mm x 25 mm, 1.1 to 1.2 mm thick
2991DF	Etched, 3" x 1", 0.9 to 1 mm thick

**ERIE SCIENTIFIC SUPERFROST SLIDES**

1.2mm thick. Superfrosted end. 1/2 gross/box, 10 gross/case.

4955	25 x 75 mm
4955F	3" x 1"

BUSSE MICROSCOPE COVER SLIPS

Clear, non-curling, unbreakable plastic cover slips. For use in immediate wet preparations such as urine, direct feces smears, fats, parasites, etc.

736 22mm Square, 100/bx, 150 bx/cs

**CHASE SCIENTIFIC MICRO HEMATOCRIT CAPILLARY TUBES**

1.1 mm I.D. x 75 mm lg.

40B501	Heparinized, Red Coded, 100/vl, 12 vl/bx
40C505	Heparinized, 60 mm Calibration, 0.5 mm I.D., 100/vl, 12 vl/bx
41B2501	Heparinized, Red Coded, 200/vl, 12 vl/cs
44B506	Heparinized, No Color Code, Bulk, 1 1/2 lb/cs (appx. 4250/cs)
44B508	Heparinized, No Color Code, Bulk, 1 1/2 lb/cs (appx. 4250/cs)
40A502	Plain, Blue Coded, 100/vl, 12 vl/bx
41A2502	Plain, Blue Coded, 200/vl, 12 vl/cs
44A507	Plain, No Color Code, Bulk, 1 1/2 lb/cs (appx. 4250/cs)
44A509	Plain, No Color Code, Bulk, 1 1/2 lb/cs (appx. 4250/cs)

CHASE SCIENTIFIC SEAL TUBE SEALER

Clay tube sealer compound for micro-hematocrit, natelson and caraway tubes.

510 Seal Tube Sealer, 10 trays/pack, 10 packs/case

SXSZ817

SXSZ814

S007312

SEILER MICROLUX II BINOCULAR MICROSCOPE

The better in a series of microscopes for routine use in the physician's office.

Includes: Four SP flat field achromat objectives 4/0.10, 10/0.25, 40/0.65, 100/1.25 (oil); Wide base stand with built-in, variable 6V transformer, Five hole nosepiece, 6V/20W halogen illumination (spare bulb included); Coaxial coarse and fine focusing mechanism; Focusing tension adjustment; Right-hand graduated mechanical stage; Two-10x (18) wide-field eye-pieces; Abbe condenser (1.3 NA) with iris on substage and phase capability; Rack and pinion mount; 45 degree inclined binocular tube; Protective cover and instruction book.

SXSZ817 Microlux II Binocular Microscope

SEILER WESTLAB BINOCULAR MICROSCOPE

Microscopes for routine use in the physician's office. Includes: wide base stand with built-in 6V transformer; 6V/20W halogen illumination; coaxial coarse and fine focusing mechanism; focusing tension adjustment and height stop adjustment; right-hand graduated mechanical stage; low positioned hand controls; E.F. Flat Field Achromat 4/0.10 160/-; E.F. Flat Field Achromat 10/0.25 160/0.17; E.F. Flat Field Achromat 40/0.65 160/0.17R; E.F. Flat Field Achromat Oil 100/1.25 160/0.17R; two 10x widefield eye-pieces; Abbe condenser; rack and pinion mount; inclined binocular tube; 6V/20W spare bulb; protective cover. Five-year warranty on parts and labor. One-year warranty on electronics.

SXSZ814 Westlab Binocular Microscope

SEILER V3000 BINOCULAR MICROSCOPE

The best in a series of microscopes for routine use in physician's office.

Four E.F. flat field achromat objectives: 4/0.10, 10/0.25, 40/0.65, 100/1.25 (oil). Halogen illumination in addition to Kohler illumination. 30 degree inclined binocular tube. ISO 9001 and CE approved.

S007312 V3000 Binocular Microscope

PREMIER COLLECTION & TRANSPORT SWAB SYSTEMS

P02-S120-D	Anaerobic Tube w/Starswab® Double Rayon Swab, Pierceable Screw-On Cap, Black, Glass Vial, Labeled, 10/bx, 10 bx/cs
P02-S160-100	MultiTrans 10ml Collector Vial w/glass beads, Media & Scored Rayon-Tipped Swab, Cap, Blue, 50/bg, 2 bg/cs
P02-SP130D	Modified Amies Clear Media Gel, Starswab® Double Rayon Swab in Round Bottom Tube w/cap, White, 50/bg, 10 bg/cs
P02-SP130X	Modified Amies Clear Media Gel, Starswab® Single Rayon Swab in Round Bottom Tube w/cap, Magenta, 50/bg, 10 bg/cs
P02-SP131-8	Modified Amies Charcoal Media Gel, Starswab® Single Rayon-Tipped Swab (Short Wire Shafted) in Round Bottom Tube w/cap, Black, 50/bg, 2 bg/cs
P02-SP131X	Modified Amies Charcoal Media Gel, Starswab® Single Rayon Swab in Round Bottom Tube w/cap, Black, 50/bg, 10 bg/cs
P02-SP132	Modified Liquid Stuart's Media Gel w/sponge, Starswab® Single Rayon Swab, Cap, Teal, 50/bg, 10 bg/cs
P02-SP132D	Modified Liquid Stuart's Media Gel w/sponge, Starswab® Double Rayon Swab, Cap, Yellow, 50/bg, 10 bg/cs

TEMP-CHEX™ THERMOMETER

Provides accurate temperature readings for refrigerators, freezers or incubators. Mounted in a vial of propylene glycol. Will not fluctuate with opening or closing of door. Plastic tube protects the thermometer and contains contents in case of breakage. Convenient plastic holder attaches magnetically or adhesively. Each thermometer is engraved with a serial number traceable to a National Institute of Standards and Technology thermometer which allows the laboratory to meet College of American Pathologists, JCAHO and COLA standards.

Mercury

240041	For Refrigerator, -5v to 15vC
240045	For Freezers, -30v to 0vC
240048	For Incubator, 15v to 50vC

Mercury-Free

240043	For Refrigerator, -5v to 15vC
240046	For Freezers, -30v to 0vC
240049	For Incubator, 20v to 50vC

ECONOMY REFRIGERATOR/FREEZER

Provides economical cold storage. Free standing unit with walnut door and brown sides. Right hand door hinges. Manual defrost.

UR-21	18 7/8"H x 18 5/8"W x 19 3/8"D
UR30	25"H x 18 5/8"W x 19 1/2"D

29R

75R

75AD

15R

75RF

U-LINE REFRIGERATORS

Features adjustable shelves. May be used as a free-standing unit or built-in under a counter. Automatic defrost except 75RF is frost-free. Field-reversible doors. Magnetic door gasket. Drip-proof, tempered-glass shelves meet UL strength test standards. In-door storage. Interior light (except on 29R). Adjustable temperature controls. Optional door locks available (except on 15R) with a minimum 30 day lead time. Specify white or black.

29R	28 1/2"H x 20 13/16"W x 23"D, 2 Shelves
75R	34 1/8"H x 23 7/8"W x 23 7/16"D, 3 Shelves
29AD	28 1/2"H x 20 13/16"W x 23"D, 2 Shelves
75AD	34-35"H x 23 7/8"W x 23 7/16"D, 3 Shelves
15R	34"H x 14 15/16"W x 23 1/8"D, 4 Shelves
75RF	34 1/8"H x 23 7/8"W x 23 7/16"D, 3 Shelves

HEALTHLINK PREPARED CULTURE MEDIA

100 mm x 15 mm plates. Packaging: 10 plates/sleeve unless noted, 10 sleeves/box.

1010	Biggy Agar
1017	Campylobacter Agar

**HEALTHLINK MICROBIOLOGY SUSCEPTIBILITY DISKS**

Compact organizer tray needs little refrigerator space. Trouble-free dispenser for fast loading and changing. Quick, simple height adjustment. Fast interpretation of results with zone-size interpretation charts -- both gram-positive and gram-negative zone readers. Contains desiccant and easy-to-read humidity indicator. Moisture-proof packaging helps prevent spoilage and preserves potency.

Packaging: 50 disks/cartridge, 10 cartridges/box.

3292	Twelve Place Disc Dispenser

**HYPOGUARD DIASCREEN® REAGENT STRIPS FOR URINALYSIS**

Dip and read tests for quick and easy urine testing. Each pad tests for a different substance. DiaScreen tests for up to 10 different reagents, including Leukocyte and Specific Gravity. DiaScreen strips are made in the USA. Strips do not require refrigeration. Packaging: 100 strips/vial. 10 vials per pack.

D11000	DiaScreen 10 (glucose, protein, ketone, ph, blood, bilirubin, urobilinogen, nitrite, specific gravity & leukocyte)
D11900	DiaScreen 9 (glucose, protein, ketone, ph, blood, bilirubin, urobilinogen, nitrite & leukocyte)
D11800	DiaScreen 8 (glucose, protein, ketone, ph, blood, bilirubin, urobilinogen, nitrite)
D11700	DiaScreen 7 (glucose, protein, ketone, ph, blood, bilirubin, urobilinogen)
D11600	DiaScreen 6 (glucose, protein, ketone, ph, blood, bilirubin)
D11500	DiaScreen 5 (glucose, protein, ketone, ph, blood), 10 v/cs
D12400	DiaScreen 4OBL (glucose, protein, blood, leukocyte)
D13400	DiaScreen 4NL (glucose, protein, nitrite, leukocyte)
D11400	DiaScreen 4pH (glucose, protein, ph, blood)
D11300	DiaScreen 3 (glucose, protein, ph)
D11200	DiaScreen 2GP (glucose, protein)
D12200	DiaScreen 2GK (glucose, ketone)
D12100	DiaScreen 1K (ketone)
D12150	DiaScreen 1K (ketone), 50/btl
D11100	DiaScreen 1G (glucose)
D76004	DiaScreen Liquid Urine Controls (2x10 mL positive controls, 2x10 mL negative controls)

**CHEMSTRIP™ URINE TEST STRIPS**

Manufactured with a unique multilayered chemistry, that ensures each zone tests for a distinct substance, detecting minimal deviations while producing virtually no false positives. Maintains strip stability for a shelf life of up to 24 months when stored properly (stored at room temperature of 68-77°).

These test do not require refrigeration. Allows accurate batch testing since results remain stable for 1-2 minutes. Resists ascorbic acid interference, eliminating the need to retest. Targets testing needs, measuring between 2 and 10 test parameters within a diverse product line. Pkg: 100 strips/vial, 6 vials/pack.

417109	Chemstrip™ 9, Leukocytes, Nitrite, pH, Protein, Glucose, Ketone, Urobilinogen, Bilirubin, Blood
417126	Chemstrip™ 7, Leukocytes, pH, Protein, Glucose, Ketone, Bilirubin, Blood
417145	Chemstrip™ 10 w/SG, Specific Gravity, pH, Leukocytes, Nitrite, Protein, Glucose, Ketone, Urobilinogen, Bilirubin, Blood
417152	Chemstrip™ LN, Leukocytes, Nitrite

QUIDEL QUICKVUE® URINCHECK® 10+ SG

Test strips for the rapid determination of Bilirubin, Urobilinogen, Ketones, Ascorbic Acid, Glucose, Protein, Blood, pH, Nitrite, Leukocytes, and Specific Gravity in urine. Kit includes a flat laminated color chart and 150 test report sheets. 150 test strips per vial, 24 vials per case.

20104 QuickVue® UrinCheck® 10+ SG

QUIDEL QUICKVUE® URINCHECK® 8+

Test strips for the rapid determination of Bilirubin, Urobilinogen, Ketones, Ascorbic Acid, Glucose, Protein, Blood, pH, and Nitrite. 150 test strips per vial, 50 vials per case.

20117 QuickVue® UrinCheck® 8+

QUIDEL QUICKVUE® URINCHECK® 6+

Test strips for the rapid determination of Ketones, Ascorbic Acid, Glucose, Protein, Blood, pH, and Leucocytes. 150 test strips per vial, 50 vials per case.

20118 QuickVue® UrinCheck® 6+

QUIDEL QUICKVUE® URINCHECK® 2+

Test strips for the rapid determination of Ascorbic Acid, Glucose, and Protein. 150 test strips per vial, 50 vials per case.

20119 QuickVue® UrinCheck® 2+

REAGENT STRIPS

Dip-and-read test for Glucose, Bilirubin, Ketone, Specific Gravity, Blood, pH, Protein, Urobilinogen, Nitrite and Leukocytes in urine. Packaging: 100 strips/vial.

2300 MULTISTIX 10 SG Reagent Strips

Dip-and-read test for Glucose, Bilirubin, Ketone, Specific Gravity, Blood, pH, Protein, Nitrite and Leukocytes in urine. Packaging: 100 strips/vial.

2302 MULTISTIX 9 SG Reagent Strips

Dip-and-read test for Glucose, Bilirubin, Ketone, Blood, pH, Protein, Urobilinogen, Nitrite and Leukocytes in urine. Packaging: 100 strips/vial.

2301 MULTISTIX 9 Reagent Strips

Dip-and-read test for Glucose, Ketone, Specific Gravity, Blood, pH, Protein, Nitrite and Leukocytes in urine. Packaging: 100 strips/vial.

2304 MULTISTIX 8 SG Reagent Strips

Dip-and-read test for Glucose, Ketone, Blood, pH, Protein, Nitrite and Leukocytes in urine. Packaging: 100 strips/vial.

2305 MULTISTIX 7 Reagent Strips

Dip-and-read test for glucose in urine. Packaging: 50 strips/vial.

2844 CLINISTIX Reagent Strips

Dip-and-read test for glucose in urine. Packaging: 100 strips/vial.

2867 COMBISTIX Reagent Strips

Dip-and-read test for glucose in urine. Packaging: 50 strips/vial.

2806 DIASTIX Reagent Strips

Dip-and-read test for blood in urine Packaging: 50 strips/vial.

2816 HEMASTIX Reagent Strips

Dip-and-read test for Glucose, Blood, pH and Protein in urine. Pkg: 100 strips/vial.

2876 HEMA-COMBISTIX Reagent Strips

Packaging: 100 strips/vial.

2881 KETOSTIX Reagent Strips

Dip-and-read test for Glucose and Ketone in urine Packaging: 100 strips/vial.

2882 KETO-DIASTIX Reagent Strips

Dip-and-read test for Glucose, Ketone, Blood, pH and Protein in urine. Packaging: 100 strips/vial.

2810 LABSTIX Reagent Strips

Dip-and-read test for Glucose, Protein, Nitrite and Leukocytes in urine Packaging: 100 strips/vial.

2307 URISTIX 4 Reagent Strips

Dip-and-read test for Glucose and Protein in urine Packaging: 100 strips/vial.

2855 URISTIX Reagent Strips

REAGENT TABLETS

Tablet test for ketones in urine. Packaging: 100 tablets/vial.

2381 ACETEST Reagent Tablets

Tablet test for bilirubin in urine. Packaging: 100 tablets/package.

2591 ICTOTEST Reagent Tablets

5-drop and 2-drop instructions and color chart in child resistant foil.

Tests for reducing substance in urine. Packaging: 100 tablets/vial.

2159 CLINITEST Reagent Tablets

CLINITEST® SET

Includes 5-drop and 2-drop instructions and color chart, urine sugar analysis set, bottle of 36 tablets, 1 test tube, 1 dropper and child-resistant cap.
2128 CLINITEST Set

URIN-TEK® SYSTEM

Set includes tubes, plastic caps, adhesive labels, collection cups and disposable tube holder. Packaging: 500 sets/box.
4202 URIN-TEK System

LIFESTREAM TECHNOLOGIES™ CHOLESTEROL CONTROL SOLUTIONS

These control solutions are to be used in place of blood for the periodic testing of the monitor as presented by the FDA.
LSP-1600 Cholesterol Control Solutions 2 vials/set

PROACT™ CHOLESTEROL SYSTEM

Perform easy, accurate cholesterol tests anytime, anywhere, with results in approximately 2.5 minutes. Utilizing proven dry chemistry technology, the self-calibrating system requires only a fingerstick capillary blood sample of 30 ul. Correlates to CDC-standardized methods. Performs within the criteria of National Cholesterol Education Program for accuracy (3%) and precision (3%). Uses AC adapter or 4 AA batteries.

745-163 ProAct™ Cholesterol System w/adaptor

CHOLESTECH L•D•X SYSTEM

The first cost-effective, easy-to-use, CLIA "waived" chemistry system designed to provide Total Cholesterol, HDL-C, triglycerides and calculated LDL-C results while your patient is still in your office. Lab-accurate lipid and ALT testing with one fingerstick with results in 5 minutes.

On-site monitoring for testing, treatment, and counseling in one visit.

LIFESTREAM TECHNOLOGIES™ CHOLESTEROL MONITOR

Three minute cholesterol test with only one drop of blood. Laboratory accuracy and precision. Non-fasting test. Self-calibration. Includes the Softclix lancet device. Calculates patient's cardiac/biological age that is based on the Framingham study "average ten year risk age." Creates a cardiac risk analysis that utilizes the Framingham Study "Cardiac Risk Analysis Report." Computes the patient's risk of a cardiac event in five and ten years. Computes the patient's extended risk for ten-year increments based on their current risk factors. Body Mass Index (BMI), which is based on the National Institute of Health 1998 Report of Obesity in adults, is also calculated. Stroke risk analysis calculation for individuals over 54 years of age.

LSP-1100 Cholesterol Monitor

LIFESTREAM TECHNOLOGIES™ CHOLESTEROL TEST STRIP KIT

Dry chemistry - no refrigeration required. No fasting required for total cholesterol test. Each kit includes everything for professionals to test patient's total cholesterol - alcohol swab, bandage, test strip, and lancet.

LSP-1400 Cholesterol Test Strip, 36/bx

HYPOGUARD SUPREME II® BLOOD GLUCOSE METER

Blood can be applied to the test strip when strip is outside or inside the meter. Accurate and precise results displayed on easy to read display. Test range (30 mg/dL to 600 mg/dL). "Smart Meter" always ensures appropriate timing of test results. Stores readings automatically (up to 100 results). Visual back-up color chart. 4-second quality assurance test. Hypoguard will provide #882001 free of charge to your Long Term Care Facility customers only. One meter will be given for each med-cart with the trade in of a competitive meter. A Hypoguard Representative will deliver free meters to the facilities on the day of the in-service.

ACCU-CHEK® ADVANTAGE™ BLOOD GLUCOSE MONITORING SYSTEM

The system with all the advantages provides accurate results in 40 seconds. No cleaning, no wiping, no timing. With the added features of 100-value memory with time and date, and insufficient sample size detection.

- 00860 Accu-Chek® Advantage™ Diabetes Care Kit
- 00552 Advantage™ Glucose Control Solutions, 2 Level
- 00906 Advantage™ Glucose Control Solutions, 3 Level
- 00553 Advantage™ Test Strips, 50/vl
- 00966 Advantage™ Test Strips, 100/vl

ACCU-CHEK® EASY™ BLOOD GLUCOSE MONITORING SYSTEM

Non-wipe, blood glucose monitoring system provides accurate values in as little as 15 seconds. Snap-in code chip allows error-free calibration. Maintains precision and accuracy throughout testing range with visual backup for greater confidence.

- 00555 Easy Glucose™ Control Solutions, 3 Level
- 00788 Accu-Chek® Easy™ Diabetes Care Kit
- 00852 Easy Glucose™ Control Solutions, 2 Level
- 00560 Easy Test™ Strips, 50/vial
- 00566 Easy Test™ Strips, 100/vial

00505

00502

CHEMSTRIP BG® BLOOD GLUCOSE TEST STRIPS

For blood glucose self-testing among patients with diabetes. Results within 2-3 minutes.

- 00505 Test Kit For Visual Use Includes 25 Test Strips, Lancets, Cotton Balls, Wipes
- 00501 For Visual Use, 25/vial
- 00502 For Visual Use and w/Accu-Check® II/III Blood Glucose Monitors, 50/vl
- 00508 For Visual Use and w/Accu-Check® II/III Blood Glucose Monitors, 2 x 50/vl

GLUCOMETER ELITE® DIABETES CARE SYSTEM

Complete system for blood glucose monitoring. Includes: GLUCOMETER ELITE blood glucose meter, GLUCOLET automatic lancing device, GLUCOMETER ELITE normal control, GLUCOMETER ELITE blood glucose test strips, GLUCOMETER ELITE check strip, carrying case, user guide and CLINOLOG.

- 3901 GLUCOMETER ELITE® Diabetes Care System

BLOOD TESTING REAGENTS AND ACCESSORIES

For use with Bayer Corporation (formerly Miles-Diagnostics Division, Inc.) equipment.

- 2585 GLUCOFILM® Test Strips (25's)
- 2582 GLUCOFILM® Test Strips (50's)
- 2583 GLUCOFILM® Test Strips (100's)
- 2627 GLUCOSTIX® Reagent Strips (50's)
- 2628 GLUCOSTIX® Reagent Strips (100's)
- 2895 DEXTROSTIX® Reagent Strips (100's)
- 3911 GLUCOMETER ELITE® Test Strips (25's)
- 3918 GLUCOMETER ELITE® Test Strips (50's)
- 5701 GLUCOLET® Endcaps (100's)

OMRON BODY LOGIC™ BODY FAT ANALYZERS

Provides body fat percentage and body fat amount with just the push of a button. Based on the principle of bioelectrical impedance analysis, the unit sends an extremely weak current through the body and then accurately estimates body fat percentage and body fat weight. All in just 7 seconds! Displays on a clear LCD panel. Easy grip electrodes are contoured to fit a range of hand sizes. Easy to use, simply grip the electrode handles, select your personal data and press. Lightweight (about a pound) and portable.

- HBF-501 Body Logic™ Analyzer, 5 Button Keypad w/storage of up to 9 personal data profiles

DCA 2000® ANALYZER

In-office testing to monitor the treatment of diabetes, through hemoglobin A1c testing. In just six minutes, the simple procedure provides an indication of your patient's average daily blood glucose concentration over the past 90-120 days. No reagents to prepare or handle. All reagents needed for performing the HbA1c test are contained within the reagent cartridge. Factory calibrated. Display screen provides instructions, calibration status, and testing information. The latex immunoagglutination inhibition method enables rapid measurement of percent concentration of hemoglobin A1c. Analyzer can display the percent HbA1c result for 30 minutes and store up to 16 values for convenient retrieval of data. Control results are stored in the instrument memory for documentation of patient test result accuracy. A temperature indicator card inside the test kit assures the integrity of reagent cartridges. Scanning of the calibration card once per kit verifies system performance.

- 5030 Analyzer
- 5035 Reagent Kit (10's)
- 5070 Normal Control Kit (5's)
- 5071 Abnormal Control Kit (5's)

**QUIDEL OVUQUICK® ONE-STEP OVULATION PREDICTOR**

Offers a cost-effective, fast, easy test which detects the LH surge. Once the LH surge occurs, ovulation will usually follow in the next 24-40 hours. Packaging: 10 kits/case.

0471 OvuQUICK One-Step - 6 day

0472 OvuQUICK One-Step - 9 day

QUIDEL QUICKVUE® ONE-STEP HCG URINE TEST

A sensitive immunoassay for the qualitative detection of human gonadotropin (hCG) in urine for the early detection of pregnancy. Packaging: 12 kits/case.

20109 hCG-Urine, 25 tests/kit

QUIDEL QUICKVUE® ONE-STEP HCG COMBO TEST

A sensitive immunoassay for the qualitative detection of human gonadotropin (hCG) in serum or urine for the early detection of pregnancy. Packaging: 12 kits/case.

20110 hCG-Combo, 50 tests/kit

**QUIDEL QUICKVUE® SEMI-Q™ HCG TEST**

A rapid assay with 10/20 mIU sensitivity for use with serum and urine.

Plus, a 25 mIU Reference Line allows for semi-quantitative reporting of test results. The New Gold Standard for clinical hCG testing. Packaging: 10 kits/case.

0177 Semi-Q hCG Combo, 50 tests/kit

QUIDEL QUICKVUE® ONE-STEP PREGNANCY TESTS

Includes three serum based controls (negative, low positive, high positive) Packaging: 1/kit, 10 kits/case.

0281 Serum hCG Control Set

B006

0355

QUIDEL QUICKVUE® CHLAMYDIA TEST

Offers superior sensitivity and specificity -- in all patient populations. The accuracy in asymptomatic patient populations can help to reduce unknowing transmission of the infection and is easy to perform and interpret. An extraction procedure requires the addition of only two reagents. Either endocervical swab or cytology brush specimens can be used. The kit is stored at room temperature. Packaging: 25 tests/kit, 10 kits/case.

B006 Chlamydia Test

QUIDEL QUICKVUE® FLEX STREP A TEST

Allows for the rapid detection of Group A streptococcal antigen directly from patient throat swab specimens. The test offers a cost effective option for large volume Strep A testing. Rapid antigen detection and excellent performance deliver accurate results as they are needed to patient management. Provides the flexibility to use any rayon-tipped, solid plastic swab, in addition to those supplied in the kit. With just two reagent bottles, QuickVue allows for a smooth workflow when performing batch testing. The kit stores at room temperature and includes positive and negative external controls.

0355 25 test/kit, 10 kits/cs

0356 75 test/kit, 10 kits/cs

CARDS® Q.S.® SERUM/URINE HCG TEST

Clearly distinguishable +/- endpoint. A sensitive immunoassay for the qualitative detection human chorionic gonadotropin (hCG) in serum or urine for the early detection of pregnancy. Uses a monoclonal antibody specific to the beta subunit of hCG in a single-step technology to accurately detect hCG.

0178 Serum/Urine Test, 30 tests/kit, 10 kits/cs

0179 Serum/Urine Test, 90 tests/kit, 6 kits/cs

QUIDEL QUICKVUE® IN-LINE® STREP A TEST

Allows for the rapid detection of Group A streptococcal antigen directly from patient throat swab specimens. Waived under CLIA '88. A true one-step test.

The unique in-line extraction and rapid procedure allow testing to take place at the point of care. Two-color results give you clear readability, and the proven accuracy of QuickVue provides dependable results. The kit stores at room temperature and includes positive and negative external controls.

0343 25 test kit, 10 kits/cs

0347 Strep A Swab Pack, 75 swabs/pk

QUIDEL QUICKVUE® DIPSTICK STREP A TEST

Simple, accurate, dipstick format. Two-color result in 5 minutes.

The accuracy at levels of colony count make this test one of the most accurate and cost effective test available. CLIA-waived

20108 Dipstick Strep A, 50 tests/kt

QUIDEL QUICKVUE® H. PYLORI GII™ TEST

A lateral-flow immunoassay intended for the rapid, qualitative of IgG antibodies specific to *Helicobacter pylori* in human serum, plasma or whole blood as an aid in the diagnosis of *H. pylori* infection in patients with clinical signs and symptoms of gastrointestinal disease. Results are visible within 5 minutes with a distinguishable two color result for clear readability. The kit stores at room temperature and includes positive and negative external controls. This product is waived for whole blood and moderately complex for serum/plasma.

W010 Quickvue® H. pylori GII, 30 tests/kit, 10 kt/cs

20122

20121

QUIDEL QUICKVUE®+ STREP A TEST

Clearly distinguishable +/- endpoint and two reagent extraction make testing easy for anyone in your office or lab. A test complete indicator appears in about five minutes to let you know the test can be read. Overall accuracy of the test is 98%, with a sensitivity of 95% and specificity of 98%. The built-in controls satisfy CLIA requirements for daily QC. The kit stores at room temperature and contains positive and negative external controls.

20122 Strep A 25 Test, 12 kits/cs

QUIDEL QUICKVUE®+ INFECTIOUS MONONUCLEOSIS

Formerly CARDS® OS® Mono. Designed to detect the IgM heterophile antibodies in serum, plasma or whole blood. The assay utilizes an extract of erythrocytes which give a greater sensitivity and specificity than similar extracts prepared from sheep and horse erythrocytes. Clearly distinguishable +/- endpoint and accompanying pictorial procedure care testing easy for anyone in your office or lab. A test complete indicator appears in minutes to let you know when the test is ready to be read. Overall accuracy of the test is >99%, with both sensitivity and specificity of >99% when compared to EIA and >98% when compared to slide hemagglutination. The built-in controls satisfy CLIA requirements for daily QC. The kit contains positive and negative external controls and stores at room temperature. CLIA-waived for use with whole blood samples.

20121 Mono Test, 20 Test Kit, 6 kits/cs

70025

BECKMAN COULTER ICON® FX STREP A TEST KIT

- 70025 Each Box Contains: (25) Tests, (25) Sterile Swabs, Extraction Reagent One, Extraction Reagent Two, Positive Control Swab & Instructions, 4 bx/cs
70001 Each Box Contains: (5) Positive Control Swabs, (5) Negative Control Swabs & Instructions, 6 bx/cs

4134

BECKMAN COULTER ICON® II HCG

- 4134 Each Box Contains: (50) Test Cylinders, (50) Transfer Pipettes, 10mL Antibody Conjugate, 12mL Substrate Reagent, (2) 110mL Wash Solution, Reagent Station & Instructions, 6 bx/cs
4135 Each Box Contains: (50) Test Cylinders, (50) Transfer Pipettes, (50) Sample Cups, 7mL Specimen Diluent, 10mL Antibody Conjugate, 12mL Substrate Reagent, (2) 110mL Wash Solution, Reagent Station & Instructions, 6 bx/cs
4136 Each Box Contains: (24) Test Cylinders, (24) Transfer Pipettes, 4mL Antibody Conjugate, 4mL Substrate Reagent, 110mL Wash Solution, Reagent Station & Instructions, 6 bx/cs
43025 Each Box Contains: (25) Test Devices, Disposable Sample Droppers, Ziplock Bag w/2 extra sample droppers & Instructions, 4 bx/cs
44025 Each Box Contains: (1) Canister of 25 Test Devices & Instructions, 12 bx/cs
9107 Each Box Contains: (2) 10mL Bottles Positive Control & (2) 10mL Bottles Negative Control
9115 Urine Control Set Contains: (3) 5mL Bottles Positive Control, (3) 5mL Bottles of Negative Control & Instructions

BECKMAN COULTER FLEXSURE® CONTROL SET

- 41151 DS HCG - Each Box Contains: 10mL Bottle Positive Control I, 10mL Bottle Positive Control II, 10mL Bottle Negative Control & Instructions, 4 bx/cs
81001 HP - Each Box Contains: (2) Bottles Positive Control, (2) Bottles Negative Control & Instructions, 4 bx/cs

81020

82020

BECKMAN COULTER FLEXSURE® Test Kits

- 81020 HP Serum - Each Box Contains: (20) Tests, Bottle of Buffer, (20) Transfer Pipettes & Instructions, 4 bx/cs
81050 HP Serum - Each Box Contains: (50) Tests, Bottle of Buffer, (50) Transfer Pipettes & Instructions, 2 bx/cs
82020 HP Whole Blood - Each Box Contains: (20) Tests Bottle of Buffer, (20) FlexSure® Capillary Tubes & Instructions, 4 bx/cs
41150 DS HCG Urine - Each Box Contains: (50) Test Sticks & Instructions, 6 bx/cs

- BHF-1003 hCG Serum/Urine, 30 tests/kit, 20 kit/cs

MAINLINE CONFIRM PREGNANCY TEST KITS

- All may be stored at room temperature. 20 m/ IU sensitivity. Clearcut results.
6008C hCG (Urine) Test, 25 test/kit, Clia Waived
6008C-5 hCG (Urine) Test, 5 test/kit, Clia Waived
3029-25 hCG (Serum/Urine) Test, 25 test/kit
3029-5 hCG (Serum/Urine) Test, 5 test/kit

MAINLINE CONFIRM STREP A TEST KITS

- All may be stored at room temperature. Clear Cut Results-Professional Packaging.
3030-40 40 test/kit
3030-20 20 test/kit
4040 25 test/kit, CLIA waived

MAINLINE MONONUCLEOSIS TEST KIT

- Moderately complex Mono test, capable of doing both whole blood and serum fingersticks. Store at room temperature and has a shelf life of 20 months. Clear-cut results.
5050 Mono Dots, 25 test/kit

JANT ACCUTEST® ALCOHOL SALIVA SCREENS

- A one-step rapid test that utilizes a highly sensitive method to detect alcohol presence. It provides a semi-quantitative approximation of blood alcohol levels. Rapid two minute test. Color gradient indicates 0.02-0.3 alcohol levels. Room temperature storage.
DS-77C124 ALCO-Screen (dipstick format), 24/bx
DS-85C124-DOT ALCO-Screen 02, D.O.T. Approved (dipstick format), 24/bx

JANT ACCUTEST® H. PYLORI WHOLE BLOOD (WB) TEST

- A rapid test for the qualitative detection of IgG antibodies specific to Helicobacter pylori in human whole blood. This test kit is intended as an aid in the diagnosis of H. pylori infections in patients with gastrointestinal infections. Results in minutes. Room temperature storage. Kit includes 25 test devices, developer buffer, 25 disposable transfer pipettes, positive and negative controls.
ID-92A225 H. Pylori Whole Blood Test (CLIA Waived) (cassette), 25/bx

JANT ACCUTEST® INTOXILYZER S-D5 BREATH ALCOHOL SCREENER

- The smallest handheld, automatic breath alcohol screener available today. Last test recall. Fuel cell accuracy. Large LED display. Easy to use. Compact 4.75" x 2.5" x 1.25".
DS-45CM501 Breath Alcohol Screener
DS-46CM7250 Disposable Mouthpieces, 250/bx

JANT ACCUTEST® MONONUCLEOSIS WHOLE BLOOD (WB) TEST

- A rapid visual test used for detection of IgM antibodies to infectious mononucleosis (IM) in human whole blood. This test kit can be used to assist in the diagnosis of IM in patients with clinical symptoms common to IM. Results in minutes. Kit includes 25 test devices, developer buffer, 25 disposable transfer pipettes, positive and negative controls. Room temperature storage.
ID-16A225 Mononucleosis Test (CLIA Waived) (cassette), 25/bx

JANT ACCUTEST® PREGNANCY TESTS

Rapid tests for the detection of human chorionic gonadotropin (hCG) in urine or serum. Provides a visual, qualitative result and is intended for professional and laboratory use. Results in minutes. One-step; requires no reagents. Sensitive to 20 mIU/ml. Room temperature storage.

- PF-51A150 Rapid Pregnancy Test Strip (dipstick) (urine), 50/bx
- PF-52A250 Rapid Pregnancy Test (cassette) (urine), 50/bx
- PF-58A240 Rapid Urine or Serum Pregnancy Test (cassette), 40/bx

JANT ACCUTEST® STREP A (II) TEST

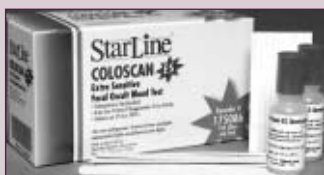

A lateral flow, one-step immunoassay for the rapid, qualitative detection of Group A Streptococcal antigen from throat swabs. Intended for use as an aid in the diagnosis of Group A Streptococcal infection. Results in minutes. Dipstick format. Kit includes 25 test packs, 25 sterile test swabs, extraction reagent, positive and negative controls. Room temperature storage.

- ID-13A125 Strep A Strip Test (CLIA Waived) (dipstick), 25/bx

JANT ACCUTEST® URINE DRUG SCREENS

Results in minutes. No reagents needed. Add urine and read the results; the appearance of one line indicates a positive result, while two lines indicate a negative result. Room temperature storage for up to 24 months. Built-in controls for each analyte to validate results. Tests adhere to NIDA cutoffs. Adulteration screens available in some formats. Screens available for up to 10 drugs of abuse: Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Methadone, Methamphetamine, Morphine (opiates), PCP (phencyclidine), THC (cannabinoids), and TCA (tricyclic antidepressants).

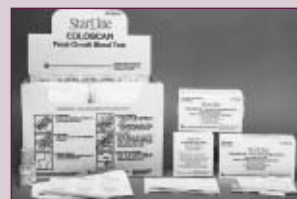

- DS-19A225 Amphetamine Drug Screen (cassette format), 25/bx
- DS-19A225 Amphetamine Drug Screen (cassette format), 25/bx
- DS-20A225 Methamphetamine Drug Screen (cassette format), 25/bx
- DS-21A225 Methadone Drug Screen (cassette format), 25/bx
- DS-22A225 Morphine Drug Screen (cassette format), 25/bx
- DS-23A225 Cocaine Drug Screen (cassette format), 25/bx
- DS-24A225 THC Drug Screen (cassette format), 25/bx
- DS-25A225 Barbiturates Drug Screen (cassette format), 25/bx
- DS-26A225 Benzodiazepines Drug Screen (cassette format), 25/bx
- DS-47NY150 NicAlert® Screen For Cotinine (dipstick format), 50/bx
- DS-61AC425 MultiDrug Screen 5 (NIDA 5 combo) (AMP-COC-MOR-PCP-THC), 25/bx
- DS-63S425-I MultiDrug Screen 2 (COC-THC), 25/bx
- DS-65A412-8U MultiDrug Screen 8 Plus Urine ID (AMP-BAR-BZD-COC-MET-MOR-PCP-THC), 12/bx

- DS-90A425-I MultiDrug Screen 5 (AMP-BZD-COC-MTD-MOR), 25/bx
- DS-91A425-5U MultiDrug Screen 5 Plus Urine ID (AMP-COC-MET-MOR-THC), 25/bx

StarLine® COLOSCAN ES (EXTRA SENSITIVE)

Guaicac paper test for fecal occult blood. Available in triple and single slide configurations. All tests have positive and negative quality assurance monitors to ensure proper test performance. Same type of test as the original Coloscan except extra sensitive for better detection.

- 175085 ES ColoScan Take Home Pack w/collection tissues, 80 ES Triple Unit Slides, 6 x 15 ml ES Developer, 240 Specimen Applicators
- 175086 ES ColoScan Lab Pack, 100 ES Single Units, 2 x 15 ml Developer, 100 Specimen Applicators

StarLine® COLOSCAN FECAL OCCULT BLOOD TESTS

Guaicac paper test for fecal occult blood. Available in triple and single slide configurations, as well as tape form for in-clinic digital exams. All tests have positive and negative quality assurance monitors to ensure proper test performance.

- 175071 ColoScan Office Pack, 100 Triple Unit Slides, 6 x 15 mL Developers, Applicators, Envelopes, 100/bx
- 175072 Coloscan Lab Pack, 100 Single Unit Slides, 2 x 15 mL Developers, Applicators, 100/bx
- 175082 ColoScan Lab Pack, 34 Triple Unit Slides, 2 x 15 mL Developers, Applicators, 34/bx
- 175079 Coloscan Tape, 2 x 100 Test Tapes, 2 x 15 mL Developers, 200 tests/bx

HELENA COLOCARE DOCTORS OFFICE PACK

Eliminates the unpleasant aspects of occult blood testing. Reduces biohazard wastes and does not need developer. ColoCARE is placed in the toilet bowl after a bowel movement. After 30 seconds, record the color change, flush the test away and return the reply card. For use in the physician's office or in the home. Each kit includes 3 tests, mailing envelopes, instruction sheet, reply card and 'ColoCARE Dispensed Today' stickers.

- 5650 ColoCARE Screening Pack, 250 kits/cs
- 5651 ColoCARE Office Pack, 50 kits/cs

HELENA COLOSCREEN FECAL OCCULT BLOOD TEST

Single slide includes impregnated positive/negative performance monitors. Vials of test developer & specimen applicators included.

- 5073 Coloscreen Take Home w/collection tissues, 80 Slides w/6 x 15 ml developer, 240 Specimen Applicators
- 5088 Coloscreen ES Developer, 20 x 15 ml
- 1002 ColoScreen Envelopes, 100/bx
- 5077 ColoScreen Developer-15, 20 x 15 ml vials/bx
- 5078 ColoScreen Developer-2, 50 x 2 ml vials/bx
- 5076 Coloscreen Lab Pack Bulk "1000", 20 x 15 ml Vials, 100 cards/bx, 10 bx/ctn
- 5083 ColoScreen Lab "1000" Pack, 34 Patient Cards, 20 x 15 ml Developer Vials, 10 bx/ctn

66115

BECKMAN COULTER GASTROCCULT® TEST

- 66040 Each Box Contains: (40) Gastrocult® Tests & Instructions, 10 bx/cs
- 66115 15mL Bottles of Developer, 6/bx, 4 bx/cs
- 66140 Applicator Straws, 40/bg, 10 bg/cs

BECKMAN COULTER GASTROCCULT® SLIDE TEST

Test for gastric occult blood and pH with on-slide Performance Monitor®. Recognition of gastric bleeding and pH monitoring aid in the early detection of gastric trauma and determining antacid therapy.

- 66115 Box of 6 x 15 ml Bottles of Developer

Dare to Compare: Superfrost® the Original

- Smooth opaque coating provides a bright background for excellent contrast and easy to write on surface.
- Permanent one-time marking stands up to even alcohol and xylene.
- Can be personalized for added identification providing ease, convenience, and cost savings.
- Raised coating keeps slides separated – prevents sticking & scratching.
- Available in ten colors. Color-coding takes the work out of categorizing slides.
- A written key identifies the correct side of each slide, eliminating wrong side staining or accidental wipe-off.
- Saves you money! Eliminates wasted time trying to read old labels and relabeling.

Superfrost Slide
vs. Paper label

Superior Handcare Products for Healthcare & Laboratory Professionals

SoftGUARD®
The Extra-Strength Barrier Hand Cream

A Barrier Cream that prevents skin irritation caused by frequent washing, harsh soaps and latex gloves.

SoftCIDE-PS®
The Extra-Mild Healthcare Personnel Handwash

An antimicrobial hand soap that is extra mild despite frequent washing.

AlcoSCRUB®
Instant Antiseptic Hand Cleanser

An effective alcohol gel when soap and water are not available.

UltraFIT®
Glove Liners

For hands that are extra sensitive to latex gloves.

BECKMAN COULTER HEMOCULT® SINGLE SLIDES

Screening tests for fecal occult blood with on-slide Performance Monitor®.

- 60151 Box of 100 Single Slides, 2 x 15 ml Bottles of Developer, Applicators
- 60152 Case of 1000 Single Slides (each case contains 10 boxes of 100 single slides), 20 x 15 ml Bottles of Developer, Applicators.
- 63202 Box of 2 Tape Kits (each kit contains 1 plastic tape dispenser w/100 test capacity, 1 x 15 ml bottle of developer)

BECKMAN COULTER HEMOCULT II® SLIDES

Screening tests for fecal occult blood. Two-specimen units of three with on-slide Performance Monitor®.

- 61130 Dispensapak™ Plus w/40 patient kits (each kit contains 3 slides, applicators, 3 flushable collection tissues and one barrier mailing pouch); Includes 2 x 15 ml Bottles of Developer
- 61200 Box of 102 (34 units of 3 slides, 2 x 15 ml Bottles of Developer, Applicators)
- 61300 Case of 1020 (each case contains 10 boxes of 34 units of 3 slides, 2 x 15 ml bottles of developer, applicators)
- 62200 Box of 100 Mailing Pouches
- 62115 Box of 20 x 15 ml Bottles of Developer

BECKMAN COULTER HEMOCULT® SENSA®

Test for enhanced detection of fecal occult blood. Provides for intense blue reactions that are easier to read, and improved detection of adenomas and colorectal cancer.

- 64130 Dispensapak™ Plus w/40 patient kits (each kit contains 3 slides, applicators, 3 flushable collection tissues and one barrier mailing pouch); Box Includes 2 x 15 ml Bottles of Developer
- 64151 Box of 100 Single Slides, 2 x 15 ml Bottles of Developer, Applicators
- 64152 Case of 1000 Single Slides (each case contains 10 boxes of 100 single slides, 20 x 15 ml bottles of developer, applicators)
- 64115 20 x 15 ml Bottles of Developer/bx

RAPIDOT™ LYME DISEASE TEST

Enzyme-linked immunobinding assay for detection of antibodies to Borrelia burgdorferi. Detects IgM as well as IgG antibodies. Provides results in minutes with 95.8% sensitivity and specificity for accurate diagnosis with either serum or plasma specimens. Positive and negative controls are included with each easy to use test card. Packaging: 10 tests/kit.

- 24-240 Lyme Disease Test

LIFESIGN URICULT®

Dipslide culture-paddle provides accurate assessment of UTI simply and conveniently in 24 hours. Comparison of bacterial growth to reference chart provides colony count and presumptive identification of common uropathogens. Unique design provides ease of transport should additional testing be required. QC certificates included in each box. CLIA compliance materials, reference charts, training and technical assistance are available free of charge. Packaging: 10 tests/kit.

- 1000 Uricult CLED/EMB

LEISEGANG PAP SMEAR KIT

Kit includes: (1) Cervical Scraper, (2) Applicators, (2) Glass Slides, (1) Slide Carrier, (1) Envelope. Packaging: 50 kits/case.

- 82310 Pap Smear Kit

SOLON NYLON TIPPED CYTOLOGY BRUSH

- 37700 8" Cytology Brush, Nylon Tipped, Non-sterile, 100/bx, 10 bx/cs (377)

ENDOCELL DISPOSABLE ENDOMETRIAL CELL SAMPLER

Offers simplicity, safety and economy to the screening process for endometrial carcinoma and precancerous conditions. Using manual suction, it extracts an ample, histologic sample from the uterine mucosal lining in seconds. It is an excellent monitor for the effects of hormonal therapy and a valuable diagnostic tool for fertility problems and uterine pathogens. Sterile individually packaged. Packaging: 120/box, 500/case.

- 908011 Endocell Cell Sampler
- 908012 Endocell Cell Sampler

WALLACH PAPETTE™

Overcomes the deficiencies of previous Pap test cervical cell collectors. Designed to gather the full spectrum of cervical cells in one short procedure. Physician can gather cells from both the endocervix and the ectocervix with a minimum of tissue trauma. Packaging: 100/pack, 10 packs/box, 4 boxes/case.

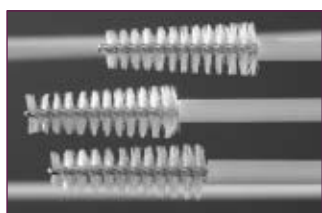

- 908003 Box
- 908004 Case

BIRCHWOOD CYTETTE® ENDO CERVICAL SAMPLING BRUSH

Cytette® endocervical sampling brushes have a tapered head that simplifies introduction into stenotic cervixes. Soft nylon bristles increase cellular yield and improve specimen quality. 7" serrated handle rotates easily, even while wearing gloves and is marked with a blue rotation indicator to ensure precise sampling. Handle is strong and flexible yet can be snapped at any point so the brush head can be returned to a lab for special processing. Cytette dispensers contain 100 endocervical brushes. An optimal Pap specimen requires the use of both endocervical brushes and ectocervical spatulas. Packaging: 10 trays/case.

90-0100-01 Cytette®, 100 brushes/tray
90-5000-03 Cytette® Bulk, 5000 brushes/cs

PURFYBR CYTOLOGY BRUSHES

Specimen collection brushes have been shown to be significantly more effective in collecting endocervical specimens for Pap smears and Chlamydia testing.

4653B 7", Non-Sterile, 100/bg, 10 bg/cs (2199)
4653BS 7", Sterile, 1/pch, 100 pch/bx, 10 bx/cs (252199)
4652B 8", Non-Sterile, 100/bg, 10 bg/cs

PURFYBR RAYON SPECIMEN COLLECTION SWAB

Rayon fiber applicators are tipped with U.S.P. viscose rayon, a highly absorbent, non-bacteriostatic fiber. They are therefore used in general culturing when a greater sampling is desired.

1001R Aluminum Shaft, .035" dia., 5.5" Length, Sterile, 1/pch,
100 pch/bx, 10 bx/cs (25800R)

PURFYBR CALCIUM ALGINATE SPECIMEN COLLECTION SWABS

This special medical grade fiber contains no fatty acids that may harm collected organisms. Calcium alginate is soluble in bodily fluids, which minimizes the risk of reddening or irritation. These swabs are used in general culture collection procedures.

1001A Aluminum Shaft, .035" dia., 5.5" Length, Sterile, 1/pch,
100 pch/bx, 10 bx/cs (25800A)
3001A Aluminum Shaft, .025" dia., 5.5" Length, Sterile, 1/pch,
100 pch/bx, 10 bx/cs (25801A)
4001A Plastic Shaft, 6" Length, Sterile, 1/pch, 100 pch/bx,
10 bx/cs (258061PA)
5001A Wood Shaft, 6" Length, Sterile, 1/pch, 100 pch/bx,
10 bx/cs (258061WA)

PURFYBR COTTON SPECIMEN COLLECTION SWABS

Cotton fiber applicators, tipped with U.S.P. medical grade cotton fiber, are used in nasopharyngeal/urethro-genital sampling. Cotton is especially well-suited for the collection of Chlamydia trachomatis specimens.

1001C Aluminum Shaft, .035" dia., 5.5" Length, Sterile, 1/pch,
100 pch/bx, 10 bx/cs (25800C)

PURFYBR DACRON SPECIMEN COLLECTION SWABS

Dacron® fiber applicators are used in the collection of viral specimens. Dacron will not absorb fluids, keeping the specimen trapped within the applicator mesh, but readily recovered for diagnostic testing.

1001D Aluminum Shaft, .035" dia., 5.5" Length, Sterile, 1/pch,
100 pch/bx, 10 bx/cs (25800D)
4001D Plastic Shaft, 6" Length, Sterile, 1/pch, 100 pch/bx,
10 bx/cs (258061PD)

PRECISION DYNAMICS PEDIATRIC URINE COLLECTOR

Disposable bag seals after use for safe transporting. Adhesive around opening allows leakproof urine collection. Inside of opening is surrounded by foam to keep wall of unit open for easy collection. 7 oz capacity. Packaging: 50/box, 500/case unless noted.

05001-00-MCM Clean
05002-00-MCM Sterile

MEDICAL ACTION LAB SAFE™ LABORATORY SPECIMEN COLLECTION BAGS

Constructed of heavy duty durable polyethylene for optimum strength and safety. Clear. Packaging: 1000/case unless noted.

LIL-KATCH® PEDIATRIC URINE COLLECTORS

Reduced urine irritation. Urine passes from the inner bag to the outer bag through one-way valves, away from infant's skin. Unisex design in pediatric and newborn sizes, single or 24-hour style, clean or sterile. Polyethylene adhesive or microporous adhesive for extra sensitive skin. Large adhesive patch can be sealed to itself for easy transportation to lab. Peel away drain patch provides easy removal of specimen. Convenient dispenser box packaging. Capacity: 3 1/2 oz for newborn; 7 oz for pediatric.
