Summary of Daily Update Subscriptions

(12-month prepayment required. Charges are cumulative for multiple update categories.)

CSI offers two software products for downloading data by non-commercial, personal and private users of CSI market and data services. The downloader software used determines the pricing options available to you. Our wide range of offerings lets you get the data you need at a price you can afford. All services are offered exclusively under our One-Year Prepaid Subscription plans, allowing CSI to focus efforts on providing the best data and software service possible.

Software System	Updates Include	History Provided	License Fee#	Direct-Dial Rate	U.S./Canada Network Rate
Unfair Advantage®	North American Futures	Yes (on CD)	\$150	\$348/year (\$29/month)	N/A

[#]The License Fee is a one-time charge that is required only for the one highest priced option chosen. *Unfair Advantage comes with no more than two years of history on options. See Pg. 2 for details on Unfair Advantage Packages and pgs. 3 – 6 for QuickTrieve Packages. Prices subject to change without notice.

Unfair Advantage Software and Data Services

Unfair Advantage delivers commodity data in a way that you can readily use it - sorted, adjusted and formatted as a custom trading tool. Whether you want charts, technical indicators or simply market data that is compatible with your many trading systems, Unfair Advantage does it all. It's data retrieval, management and analysis made easy.

Order Today and Receive:

- A complete futures, cash, stock and option historical database, delivered on CD. During installation, you'll have control over which will be transferred to your own computer. Your subscription category with CSI determines which historical files will be unlocked for access and for ongoing daily updates;
- Daily summary updates on over 600 North American or world futures markets, including cash prices, and stocks and options (if desired) can be accessed via the Internet or directly from CSI in a daily phone call;
- Automatic error corrections, holiday listings and information on unscheduled market outages;
- A concise printed User's Manual and on-line help through the software.

Special Features:

- UA supports customized charts and tables of normal contracts or your choice of continuous series;
- UA's enhanced Stock ScannerTM lets you write your own custom screening studies with VisualBasic or Perl;
- MultiMarket Analyzer (MMA) and Trading System Performance Evaluator (TSPE) included!
- Snapshot views of today's update show the current price and net change for every contract;
- UA's portfolio system lets you quickly review those markets of interest to you;
- UA's downloader automatically requests and processes missing updates from the most recent two months;
- UA's super-compressed format consumes minimal disk space and is easily converted to almost any format;
- UA's Application Programming Interface (API) allows third-party software vendors to create their own automatic applications, and API users with specially designed software to tap into the raw UA database.

Unfair Advantage Hardware Requirements:

- PC computer running Windows NT[®]/95[®]/98[®] and 32MB RAM (at least 200 MHz recommended)
- 60 MB free disk space (165 MB for stocks), CD-ROM drive and modem

Licensing Agreement and Pricing:

- All UA subscribers must accept the license agreement, which allows only for individual, personal, private use of the data by the licensed user. The subscription charge and licensing/data fees paid to CSI give a license to use the software, retrieval service and supplied data during the subscription term. See pages 8 & 9.
- Rates shown are for once-a-day updates: Add \$144/year to double-access North American markets or \$216/year for all world markets. Months of service must be contiguous; partial or non-accessed months count as full months. All prices are subject to change without notice.

Unfair Advantage Subscriptions <i>(12-Month Prepayment required)</i>

World Stocks, Funds and Indices plus corresponding options	Yes (on CD) (options limited to 2 yrs.)	\$300	\$696/year (\$58/month)

QuickTrieve/QuickManager[®] Software and Data Services

QuickTrieve and QuickManager, CSI's original DOS PC downloader and data management programs, have been used by traders for over a decade. These programs will help you process historical data received on disk and let you download daily updates and historical data via modem. Graphics are supported with QuickPlot[®]. Through QuickTrieve, CSI offers complete database services, including updates on global commodities, stocks, indexes and mutual funds.

Order Today and Receive:

- QuickTrieve, QuickManager, QuickPlot and QuickStudy[®] software with on-line manuals;
- Free Test-File access to assure compatibility with hardware and software;

Special Features:

- Access your choice of "Fixed" or "Custom" portfolios;
- Each QuickTrieve program can update up to ten portfolios in a single call;
- QuickTrieve offers access via direct-dial or network phone service.

QuickTrieve Hardware Requirements:

- A PC (compatible) computer running DOS 2.0 or higher or Windows 3.1, Windows 95 or Windows 98
- At least 640K RAM and a hard drive with at least 4 MB free space;
- A DOS-compatible modem (for data retrieval).

Licensing Agreement and Pricing:

- QuickTrieve users are subject to the Data Retrieval Service Agreement at the end of this schedule;
- Usage of prepaid service need not involve contiguous months, but each partial month counts as a full month;
- Refunds for unused service are limited as described in the Return Policy on page 8.

QuickTrieve Custom Portfolios

- Custom portfolios provide once-a-day updates on data from your choice of world markets. Portfolio content is arranged and may be modified by the user through the software. A \$10 minimum charge applies to portfolio changes handled by the CSI Sales/Technical Support staff.
- In our Custom Portfolio packages, you can mix and match futures and cash with stocks, indexes and funds. One contract equals one delivery month. (E.g. April and June gold equal two contracts. Each contract trades off evenly with any group of ten stocks, indices and mutual funds.) If a portfolio contains a mix of stocks, mutual funds and futures, the CSI accounting system will count each commodity contract as equivalent to ten stocks.
- Prepaid custom portfolios include history on-demand, allowing you to do extensive historical testing right from the start. History on-demand refers to futures, stock, index and fund data ordered through the QuickTrieve software for immediate on-line retrieval. All history on-demand orders are subject to a 3-month minimum per series. All prices are subject to change without notice.
- Seasonal Indexes are not available as history on-demand, so they not included in this offer.
- These rates apply to a maximum of 26 updates per month. If more than 26 days are updated, a surcharge of 4% of your monthly rate will apply for each additional update. These rates apply to domestic and Canadian network callers and to those dialing direct from any location.

Custom Portfolio Subscriptions <i>(12-Month Prepayment required)</i>				
QuickTrieve Updates Include	History Provided	License Fee	Direct-Dial Rate	U.S./Canada Network Rate
Up to 100 contracts or 1000 stocks	100 years (by modem)	Waived	\$348/year (\$29/month)	\$432/year (\$36/month)
Up to 5 contracts or 50 stocks	250 months (by modem)	Waived	\$156/year (\$13/month)	\$199/year

QuickTrieve Fixed Portfolios

We currently offer four pre-defined Fixed Portfolios to investors using PC-compatible computers and our QuickTrieve software. These portfolios are varied in their scope and content, but all offer excellent value for the money.

Fixed Portfolios:

- Offer a pre-set list of markets and contracts
- Require no user maintenance of the portfolio, and cannot be changed by the user
- Provide our best values for large quantities of data collected with QuickTrieve
- Can be downloaded alone or in conjunction with other portfolios, priced separately
- Are updated in less than two minutes each day (often much less)

Multiple Fixed Portfolios may be downloaded in a single data transmission. Fixed Portfolios may be combined with Custom Portfolios to round out your database with specialty data, overseas markets, etc. Fixed Portfolios are available daily after 6:45 p.m. Eastern time using QUICKTRIEVE version 4.05 or higher.

Fixed Portfolio content: The data supplied through fixed portfolios are the same as that supplied through custom portfolios, with the provision that portfolio content *can't* be changed. All series include the open, high, low, close, total volume and total open interest. Two (#2 and #6) also hold contract-level volume and open interest as noted. For Globex markets, we supply the official (combined) session open, high, low and close, with the exception of S&P 500 futures, which is day-session data.

Day-session pricing for other Globex markets is available through Fixed Portfolio Z. CME, CBT, NYMEX and COMEX data includes day-only series, with evening Project A and ACCESS excluded.

Fixed Portfolio Subscriptions (12-Month Prepayment required - Rates subject to change without notice)				
Updates Include	History Provided	Initiation/ License Fee	Direct-Dial Rate	U.S./Canada Network Rate

QuickTrieve Fixed Portfolio Descriptions

The original fixed portfolios 0,1,3-5 are being phased out, but some are still available to existing subscribers at their original prices. Please see Fixed Portfolios GLZ, plus 2 and 6 through 8, below for our current choices.

GLZ Day-Session Data

Updates include the front 4 contract months of Day Session data for Globex markets. QuickTrieve can automatically retrieve this data with your normal updates. The data includes: day-session open, high, low and close with total combined session vol. & OI.

Eurodollar
Treasury Bills

Treasury Bonds
T Notes - 10 Yr.

Fixed Portfolio #2

Daily updates include all active trading months plus current-day cash prices (where available) for each of approximately 100 commodities. (Lag-day cash or nearest future contracts are supplied for most markets for which current-day cash is not available.) Both total and contract-level volume and open interest are supplied for commodities. An assortment of popular indices and stocks is also included. The list below shows the current offerings for Fixed Portfolio #2, which involves approximately 1,300 contracts and securities. THE CONTENT OF THIS PORTFOLIO IS SUBJECT TO CHANGE WITHOUT NOTICE AT CSI'S DISCRETION.

Historical Data by Disk or Phone

Custom History Orders

When you place a custom history order, you select exactly the contracts, stocks, indices and funds for exactly the time period you desire. You decide if you want total or contract-level volume and open interest and whether the data is to be supplied via modem or on diskettes. In all cases, the data is processed through our QuickTrieve software. CSI's lowest rates apply to history on-demand, which is processed automatically and is immediately available via modem.

Custom Historical Data Charges							
Cost per month of data per contract, security, index or fund							
Telephone Access					Diskettes By Mail \$100 Minimum Order		
Method of Access	U.S. & Canadian Markets		Overseas Markets		Months of Data This Order	U.S. and Canadian Markets	Overseas Markets
	History on-demand	Assisted History Orders	History on-demand	Assisted History Orders			
Direct Dial	5¢	10¢	25¢	50¢	First 500	30¢	80¢
U.S. & Canada	10¢	15¢	40¢	60¢	Next 500	25¢	60¢
Overseas Network	Rates vary by location. See CSI's International network price schedule.				Over 1,000	20¢	40¢
General Pricing: All On-Demand history orders are subject to a three-month minimum charge per item. Except for History On-Demand, data prior to 1989 is priced at a 100% premium. Data is sold at a 30% discount for weekly prices and a 50% discount for monthly prices. "History On-Demand" is historical data on stocks, indices and normal futures contracts that is ordered using QUICKTRIEVE 4.05's (or higher versions) Order Subsystem, processed automatically and retrieved in the same transmission. All other orders for phone retrieval are "Assisted" History Orders. *Assisted history orders placed by voice are subject to a \$20 minimum charge. Any assisted order of less than six months per contract is subject to a \$2 set-up fee per item. A six-month minimum applies to assisted stock orders.							

Historical Data Packages

Securities & Option Data (on disk)

Delisted Stocks

Full history or a portion thereof\$10 per year per stock; \$50 minimum

Options data (ASCII format only) One commodity or index - all delivery months, all strikes, all puts/calls

Per year (5 yr. min., prorated) \$125/yr.

History by Commodity (on disk)

These packages include pricing for all normally traded contract months of a commodity from the first trading day to the last (pre-1989 data excluded). Unless otherwise specified, this data includes total, *not contract-level*, volume and open interest. Contract-level volume and open interest will be substituted upon request for most commodities. This data is provided in compressed files on disk, which are processed through QuickTrieve into your choice of CSI format, MetaStock format, ASCII files, or any combination of the three.

Any U.S. or Canadian commodity, starting January 1989 or later\$75

Any Overseas commodity, starting January 1989 or later\$150

CSI offers more extensive historical database packages to commercial customers. Please contact CSI marketing for commercial rates.

CSI Software

QuickTrieve/QuickManager/QuickPlot/QuickPlot software (Y2K compliant) for CSI users (Account initiation fee)	\$59
Periodic upgrades (optional)	\$39

Unfair Advantage Replacement Disk *necessary only if the database is allowed to become outdated (for current UA subscribers only). This is a handling fee which covers processing and shipping.*

Via first class domestic mail	\$25
Via overseas air mail.....	\$40
Via Courier.....	<i>call CSI</i>

Programmers' Disk\$19
Includes C-Language, Pascal and VisualBasic routines for accessing QMASTER and CSI data files, including the new CSIM format. (See CSI's website at **www.csidata.com** for CSIM format specifications.)

Shipping Fees

Air mail postage is included at no charge for all U.S. and Canadian destinations. International air mail is available for QuickTrieve only at a cost of \$15. Shipment of other products to overseas locations requires courier service, which is provided at an extra charge. Please contact CSI for overseas shipping fees.

Return Policy

In an effort to assure customer satisfaction, CSI maintains Test Files of daily updates and historical data for QuickTrieve users. Test Files allow you to ascertain data format and compatibility with analysis packages, and to rule out other possible problems with communications, etc. involving QuickTrieve before generating normal account charges for data. Test Files may be accessed with the QuickTrieve software provided upon subscription to the service. CSI offers a free demonstration copy of Unfair Advantage through our web site for similar uses. We pledge to make every reasonable effort to solve any problem you may have with our data and software upon subscription. If necessary, we will send or make available replacement copies, free of charge, to correct defects. If cancellation is required, our return policy, stated in the following two paragraphs, will apply.

WARRANTY AND REFUND POLICY: CSI warrants each CD and manual to be free of defects in materials and workmanship for 90 days from the date of purchase. CSI will replace any defective disk or CD-ROM during the warranty period. Replacement is the exclusive remedy for any such defects, and CSI shall have no liability for any other damage. In the event the licensee cannot satisfactorily install the UA software, he or she agrees to accept in-depth telephone assistance from a qualified CSI Customer Service Representative. In consideration of the massive historical reserves received through UA, the licensing fee is non-refundable. In addition, because of start-up costs to CSI, prepayment for each year of use is required to cover costs. In the event of a refund request before the full one-year subscription term expires, monthly user fees are short-rated at double the monthly fee per full or partial month from inception of the current subscription term.

Historical Data on Disk or CD: Due to the nature of computer-readable diskettes and CDs and the ease of duplication, historical data purchases are not refundable.

The prices in this document are for personal and private subscriber use only. Rates for commercial and multi-user services are published in CSI's Form 127, which is available upon request. Prices for subsequent years of service are subject to change without notice.

CSI Data Retrieval Service Agreement

We hereby contract to use Commodity Systems, Inc. (CSI) software products and/or Data Retrieval Service, and we agree to make payment for all applicable charges within ten days following the receipt of your monthly invoice. (If this service is to be used by a partnership or corporation or any firm which shall supply the data received in any form to another entity, branch office, individual, partnership, corporation or subsidiary, please read the footnote*).

We agree to receive this information on such equipment installed at our expense as may be deemed by CSI to be compatible with the information service.

We will not redistribute anywhere or to anyone any of the information received pursuant to this Agreement, except as provided in the footnote*. We acknowledge that all of the information provided, including CSI's unique data format, is the sole and exclusive property of CSI or its licensors and is protected by applicable copyright laws.

We understand that "INFORMATION" referred to here means any and all items received through the service pursuant to this Agreement, no matter from what source this information may originate.

All warranties, expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose for any service, equipment, or product provided through this agreement are hereby disclaimed by CSI, its licensors, affiliates, employees and agents, in addition, CSI, its licensors, affiliates, employees, and agents also shall not be liable for any incidental, consequential, or punitive damages or other damages, losses or claims in any way connected with or arising out of any service, equipment or product provided through this agreement.

It is further understood and agreed that this contract is for a term of 60 days at prevailing charges for the access options chosen. After said term, this agreement shall automatically renew itself for another like term, unless we receive written notice 30 days in advance of the renewal date requesting renewal under a different agreement, in which case CSI will send a new agreement for execution. During the original term, or any subsequent term, we may cancel as of the effective date of any increase in your rates by written notice given 15 days in advance of said date. Either party may also cancel this agreement at any time after the original term by giving at least 30 days prior written notice thereof.

This Agreement, or any obligation thereunder, is not assignable without CSI's prior written consent.

We further agree to be responsible for payment of all sales, use and like taxes, if applicable. We further understand that in subscribing to any of CSI's services we will not be requesting trading advice in any marketplace from CSI, its licensors, affiliates, employees or agents.

We further understand that if we are users of CSI's QUICKTRIEVE, QUICKMANAGER, QUICKPLOT, QUICKSTUDY, TRADE\$K, TRADING SYSTEMS PERFORMANCE EVALUATOR, TRADER'S MONEY MANAGER, UNFAIR ADVANTAGE or any other software produced or licensed by CSI, should we cancel, suspend or

temporarily terminate our use of the CSI Data Retrieval Service, certain edit, graphics and analysis capabilities may be permanently disabled and the software may cease to function. In addition, any form of CSI software may fail to operate if an attempt is made to process daily data subsequent to the current date as represented by the last daily data file accessed from the CSI Data Retrieval Service. CSI software may also fail to operate if run on market data obtained from a source other than CSI.

We further understand that all end users to whom information is resold (that are not private individuals or sole proprietorships) will be identified to CSI and that CSI will approve in writing whether such end user will be permitted to gain access to CSI information for the royalty fee of one-half cent per Information Group. Certain end users may be required to pay a royalty sum of more than one-half cent per Information Group.

We also agree to notify users of our service who access information provided to us by the CSI Data Retrieval Service with the following statement: "The information received in whole or in part is the property of Commodity Systems, Inc. of Boca Raton, Florida 33432, and is protected by applicable copyright laws." Any graphic presentation of data retrieved from CSI for commercial use must be accompanied by the inscription: "Charts are compiled based upon data supplied by Commodity Systems, Inc. (CSI), of Boca Raton, FL" shown prominently at the beginning or end of the graphic presentation.

We further agree that should we at any time during the course of this Agreement resell information, we will give CSI access to our premises at any time during normal business hours to inspect our books and audit any records involving the resale of information drawn from the CSI Data Retrieval Service.

_____ We plan to resell all or part of the information received from CSI.

_____ We do not plan to resell any part of the information received from CSI, but we will notify CSI immediately by registered mail should we ever plan to resell any information received.

We have initialed the statement which is applicable to us.

*It is understood that should we resell all or part of the information supplied by the CSI Data Retrieval Service, we will be subject to the then-current data pricing schedule shown in CSI's 127 Order Form, and that for each and every Information Group resold to any individual or end user on a daily basis, whether it be current or historical information, we agree to pay to CSI on the 10th of the month following such sale, a royalty of one-half cent per Information Group per day for each individual or end user supplied. An Information Group is defined as one or more information entries per commodity contract or option or security. A typical Information Group for a commodity will contain up to six information entries of open, high, low, and closing price, a volume and an open interest reading. A typical Information Group for a security would include an open, high, low, and close price, and, if available, a volume of sales reading.
