UK Terminals and Monthly Lease Payments (VAT Excluded)

Desktop Terminals

Ingenico ICT250CC

£ 22.97 + VAT per month. 48 month lease.

The iCT250 has been designed with the goal of ensuring maximum ease-of-use for both merchants and consumers. Small and easy to handle, the iCT250 features large backlit keys and a large colour screen making it easy to read transaction-related messages and access richer menus and messages.

- Support for multiple transactions: enables chip and PIN and signature-based credit and debit transactions using mag-stripe, contactless cards and smart phones (both RFID and NFC standards)
- High-speed communication with dial backup
- Certified with the Payment Card Industry PIN Transaction Security (PCI PTS) standards by encrypting customer PINs within a tamper-resistant security module (TRSM)
- Anti-glare, backlit, color display with screensaver
- 144 MB memory for value-added applications
- Tip/tab transactions and reports (for bars, salons and restaurants)
- Single cable management (to prevent tangles and clutter on the counter)

Hypercom (Spire) T4220

£ 17.95 + VAT per month. 48 month lease.

The Hypercom T4220 countertop terminal is the most capable IP and dial terminal in the industry today. Hypercom has combined the best-of-breed features of the Optimum family into this powerful IP device to suit any customer's needs - large or small.

The T4220 provides IP performance and security second to none. The T4220 comes standard with integrated PCI PED approved PIN entry capability, the safety of the HyperSafe®32 architecture and unrivaled IP transaction and download speeds. The T4220 also shares the same user interface as the T4200 family dial and wireless models for ease of migration and support.

- Powerful 32-bit ARM9 processor for high-speed transactions
- Fast Ethernet downloads, plus a V.34 modem standard
- Large ADA-style key layout and integrated PCI PED approved PIN pad
- Modular communications provides investment protection
- Designed for the most stringent security regulations
- SureLoad® thermal printer design with clear lid alerts cashiers to low paper conditions
- Simple drop-in loading virtually eliminates paper jams
- Optional EMV chip card reader
- Color-coded port labels simplify service and support
- Optional EMV chip card reader

Ingenico ICT220 & IPP350CC PED

£ 23.81 + VAT per month. 48 month lease.

The Ingenico iCT220 Counter Top Terminal is one of the most popular forms of credit card terminals for businesses up and down the UK. The compact nature of the counter top terminals that we supply make them an extremely cost effective way of providing card processing capabilities for companies, whether large or small. All that is required on your part in order to be able to install our Counter Top Terminals within your premises is that you have a standard BT analogue telephone socket and standard power socket within two metres of where you would like your counter top terminals to be installed, and a minimum counter space of 20cm x 8.5cm for each terminal you require.

- Fully PCI PTS (Payment Card Industry, PIN Transaction Security) certified
- White Lit LCD screen allows easy reading and merchant brand promotion
- Intuitively designed backlit keyboard with large keys making it easy to use
- Choose your own end of day time to suit your business needs e.g. after midnight for restaurants
- End of shift and end of day management reports (X and Z)
- Audit capabilities for management review
- Gratuities available as either a fixed amount, or percentage of the bill and on screen or paper
- Supervisor password (not card)
- Easy installation – just plug in and follow some simple instructions
- Merchant transaction code (purchase with reference) e.g. can be used to identify waiter ID/table ID
- Merchant message (print on receipt) can be used for VAT, personalization, advertising and promotions.

Portable (Bluetooth)

Ingenico IWL252 Bluetooth

£ 28.62 + VAT per month. 48 month lease.

The Ingenico iWL252 Bluetooth portable card terminal is the smallest, lightest and fastest terminal that Payzone has to offer. With a thermal printer that prints at 30 lines per second, the latest PCI PED 2.0 security, and an elegant, compact design these Chip and PIN machines are incredibly versatile. These fantastic portable card terminals are fully integrated with contactless technology, providing the ultimate portable experience. The powerful lithium battery can process 200 transactions, within a range of up to 70 metres from the terminal base, with every full charge.

- Comprising the lightest and smallest devices on the market, the iWL252 is compact, easy to handle and to carry. It ensures top-notch payment convenience for cardholders and merchants alike. Its user interface provides an unmatched customer experience and guarantees effortless use in any environment.
- Perfect display readability, even outdoors in sunlight, and a wide backlit keypad.
- The iWL252 is designed for mobility and benefits from the latest technologies. It boasts a wide array of wireless connectivity including Bluetooth or even 3G delivers faultless 24/7 communications and slashes operational costs.
- Rugged enough to cope with even the toughest working environment, it provides unparalleled, reliable support for any business.
- Built around the industry-proven, powerful Ingenico Telium2 platform, the iWL252 offers an outstanding battery life - up to 650 transactions observed in the field. It also boasts the fastest printer ever integrated in a payment device.
- With its 30 lines per second, it almost halves printing time and improves efficiency on the spot. In any use case the iWL252 supports a full and intensive working day, processing payments and enhancing merchant productivity.
- With the iWL252, Ingenico allows you to keep a full set of payment capabilities, including card readers - smart card, magnetic card, embedded contactless - and all 800+ Ingenico Telium applications and services in your pocket. As the world leader in secure transaction and payment systems, Ingenico's wireless terminal meets state-of-the-art security standards.
- Fully PCI PTS V3 certified, the iWL252 boasts other certifications granted world-wide, providing the ultimate in secure data and application management.

Hypercom (Spire) M4240

£ 24.95 + VAT per month. 48 month lease.

Hypercom's Optimum M4240 is a powerful Bluetooth terminal for ultimate functionality in a compact portable design for virtually any installation. The M4240 has industry leading features such as 24MB of total memory, an ARM9 processor for fast transactions and multi-application. The Bluetooth enabled Access Point features IP or dial communications and an RS-232 port for the most secure direct pairing and can be mounted anywhere for optimal range and performance.

The M4240 also features an optional charging dock for convenience. Combine that with the M4240's compact design and intuitive interface and it is the perfect card processing solution for short range wireless markets such as Pay-at-the-table or installations where traditional connectivity is costly or prohibitive. Optimum M4240 user manual helps for installation of the device

- Great alternative to WiFi solutions as it is easier to install and does not require access to a customer's sensitive network
- Industry-leading multi-application includes the functionality necessary to introduce value-added opportunities to merchants
- Large, easy-to-use 19-key layout allows for easy key recognition. The Clear, Enter, Cancel and "5" keys provide tactile feedback for visually-impaired customers
- Slim form factor makes it perfect for handover installations and portability
- Color-coded port labels simplify service and support
- SureLoad® thermal printer design with clear lid alerts cashiers to low paper conditions. The simple drop-in loading virtually eliminates paper jams and the large paper roll means more receipts between changes.
- Graphics-capable thermal printer allows merchants to print logos and coupons directly at the point of service
- "Power Amped" Bluetooth technology provides fast connectivity over long distances and the best coverage through barriers and obstacles that may exist at the merchant location

- Bluetooth enabled access point features IP or dial communications for secure direct pairing that can be mounted anywhere
- A separate access point from the optional charging dock offers convenience for optimal placement to obtain the most coverage
- The reception and range is over double that of competitive models
- The ARM9, 32-bit processor provides speed and functionality. It delivers four times the processing power and speed of an ARM7 processor used in competitive devices.
- Depot-upgradeable, modular communications provide a flexible platform that can quickly evolve as market requirements emerge. Provides investment protection and is easy to replace for faster service
- With more memory, 24MB standard, than competitive devices in its class, the Optimum M4240 easily handles software size increases due to regulatory requirements as well as the addition of value-added applications
- Every M4200 family model is PCI PED approved for PIN transactions

Mobile (GPRS)

Ingenico IWL251 GPRS

£ 39.40 + VAT per month. 48 month lease.

The new, fully mobile, iWL251 credit card terminal, manufactured by Ingenico, Europe's premier terminal manufacturer, is compact yet small enough to fit in your pocket and light enough to carry all day. It is the most innovative, and advanced, credit card terminal. With a color screen, contactless technology, and the very latest PCI PED 2.0 industry security inside, our mobile terminals are built to last in; even the most challenging of environments.

What's more; each terminal has an integrated, roaming, sim card, which can be locked on your preferred network, if required. There are many other outstanding features including a long lasting lithium battery, and an easy to load thermal printer which prints at a market leading 30 lines per second.

- Compact design and light weight
- Function for contactless payments
- Integrated graphic thermal printer
- Maximum safety through the blinds
- High-resolution color display, 2.8 inch
- Foreign currency function CC (Currency Choice)
- Tip function
- Communication module: GPRS (iWL251) and Bluetooth to the base station, Ethernet (iWL252)
- 20 keys with backlight
- Inexpensive entry-level model
