	reach of children, to prevent child swallowing or other dangerous producing.
SOS	Make sure your phone turn on and is in the service area, enter the emergency number, press the call key to inform your location. Without permission, please do not end the call.

7.2 Care and maintenance

Thank you for choosing our phone. Should you encounter any problem with the phone, please contact our dealer or qualified service provider.

Your phone is a finely designed and crafted product. Please use it with care. The following instructions will help you comply with the terms of the warranty and enjoy this product for many years:

• Keep the phone and all its parts and accessories out of the reach of children.

• Keep the phone dry, all kinds of liquid will erode the electronic circuit.

• Do not use or store the phone in a dusty place to avoid damaging the removable parts.

• Keep the phone away from hot places, high temperature can shorten the life of electronic device, warp or melt certain plastic and damage batteries.

• Do not attempt to open or disassemble the phone, non-expert handling may damage it.

• Do not drop, crush or shake the phone to avoid damaging the internal circuit board.

• Do not use harsh chemicals, cleaning solvents or strong detergent to clean the phone.

• Do not paint the phone or the paint may obstruct the removable parts and affect operation.

- Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the phone Do not hold the external antenna when the phone is in use. Holding the external antenna affects call quality and may cause the phone to operate at a higher power level than needed. In addition, use of unauthorized antennas may result in non-compliance with the local regulatory requirements in your country.

The above instructions apply to your phone, battery, charger and other accessories. If any of them does not work properly, please send it to a qualified service provider.
