

## REVEAL DIRECT VENT INSERT SYSTEM

### Introducing the Reveal from Monessen.

It's easy to turn an old inefficient masonry fireplace into a cozy cost-effective heat source with a direct vent insert from Monessen. Our Reveal insert is the perfect choice. With a large viewing area, 30,000 BTUs and a host of sensible options, the Reveal will show you just what a fireplace can do for your home. Standard features include Cottage Clay firebrick, a variable thermostat controlled forced air blower and Natural Flame™ burner with a strikingly realistic fiber ceramic log set. The valve is located conveniently on the outside of the box for easy access and maintenance, and two styles and colors of designer facings make the unit a perfect fit for any room.
