

B VENT FIREPLACE SYSTEMS

 Monessen

# WARM WELCOME

Nothing invites or delights like the dancing flames of a fire. For thousands of years fire has been the focal point of hearth and home and, like so many families before, we invite you to sit by ours and enjoy their warmth and beauty.

BBV400A with optional Polished Brass bi-fold doors

SBV500A with optional Polished Brass bi-fold doors

## B VENT FIREPLACE SYSTEMS

Easily incorporated into any design requirement where the fireplace can be vented straight up and out, adding the beauty and elegance of fire to your home is simple with the B vent fireplace systems from Monessen.

The BBV Series offers a 36 inch radiant design with a true 36 inch brick to brick opening that has the largest viewing area in the industry. With 22,000 BTU's, optional bi-fold and single pane glass doors, and a slim 14 inch deep design, this B vent fireplace from Monessen is a perfect choice for just about anywhere.

With 36 and 42 inch sizes, the SBV Series of B vent fireplace systems from Monessen also offer an expansive view. Both sizes come with standard refractory brick and a black firescreen. With an impressive BTU range from 29,000 to 31,000, the SBV Series are ideal choices for hard to heat rooms.

Our 7000 Series of B vent fireplace systems are giants in the industry. The only B vent fireplaces of this size that can operate with the optional bi-fold doors closed, the clean-faced design offers a contemporary and uninterrupted view of the flames. Available in two sizes with either 936 or 1092 square inches of viewing area, the 7000 Series is truly the focal point of your room.

## B VENT DESIGNER FIREPLACE SYSTEMS

The B vent Designer Series of fireplace systems from Monessen offer sophisticated options for today's more contemporary homes. Available in See-Thru, Peninsula, Corner or Bay Front models, the Designer Series takes fire to a whole new level.

The radiant design allows materials to be placed right up to the edge of the firebox and with optional firebrick backs and sides as well as standard black trim, these 42,000 BTU fireplaces offer great heating ability and exciting design applications.
