## 1.0 Introduction

The purpose of this User Guide is to provide users (e.g., Students) with enough information to allow them to use the LearnNowBC Daily Physical Activity Tracker (DPA).

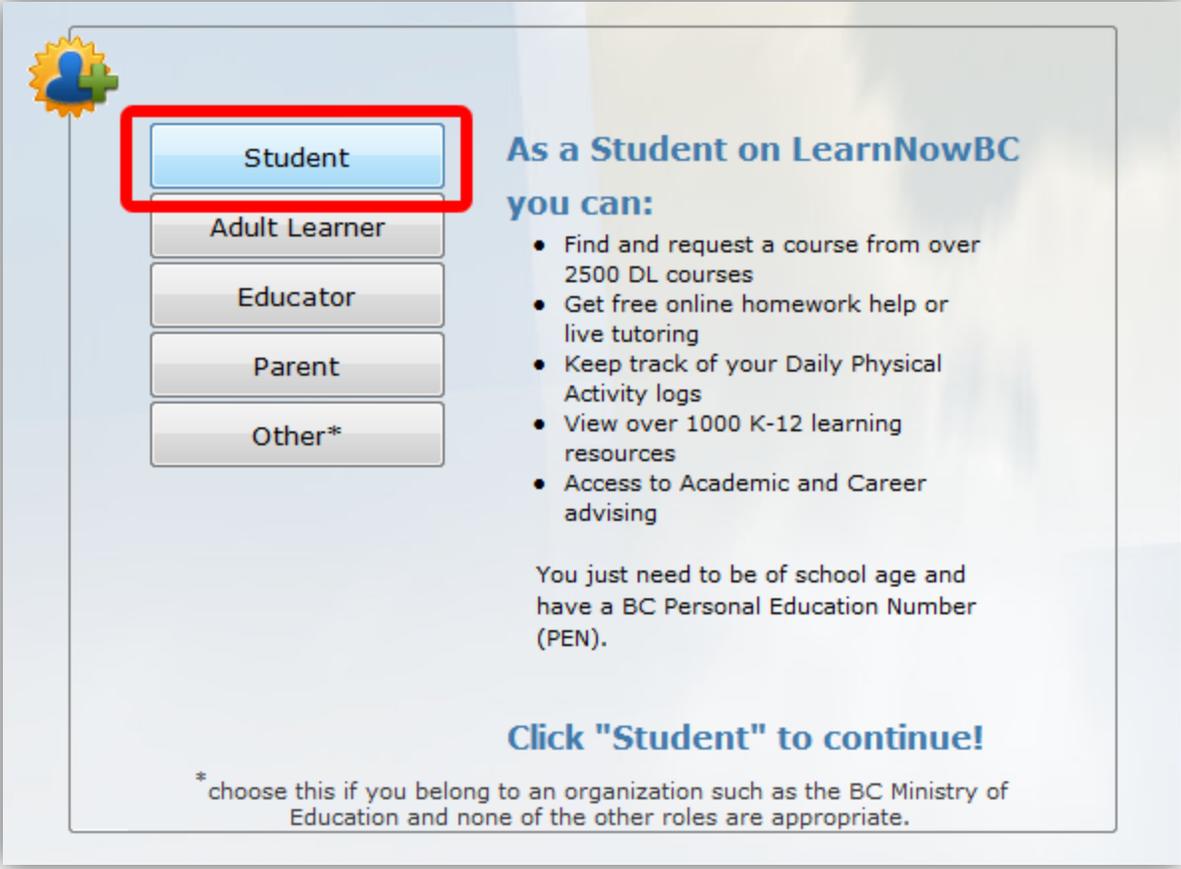

We hope that you find this User Guide helpful and not too boring.

### What You'll Need:

Before we get into it, we need to cover one thing first:

1. You will need a LearnNowBC Student account if you want to use DPA.

Getting one is easy. Go [here](https://www.learnnowbc.ca/SignUp.aspx) (<https://www.learnnowbc.ca/SignUp.aspx>), select "Student" and follow the instructions. In no time you'll have a LearnNowBC Student account and can begin using DPA.

The screenshot shows a sign-up interface with a list of roles on the left and a list of benefits on the right. The 'Student' role is highlighted with a red box. The benefits listed include finding courses, homework help, activity logs, learning resources, and academic advising. A note at the bottom states that users must be of school age and have a BC Personal Education Number (PEN).

You just need to be of school age and have a BC Personal Education Number (PEN).

**Click "Student" to continue!**

\* choose this if you belong to an organization such as the BC Ministry of Education and none of the other roles are appropriate.

## 2.0 Using DPA

Now that you have a LearnNowBC Student account, we can really start.

Are you ready? Here goes!

### 2.1 Creating Your DPA Log for the First Time

#### 2.1.1 The Student Services Page

DPA is accessible via the menu text on the left side of the screen, or via the **Daily Physical Activity Tracker** icon on the right side of the screen.

Clicking on Daily Physical Activity from the menu or the icon will bring you to the main DPA Log page.

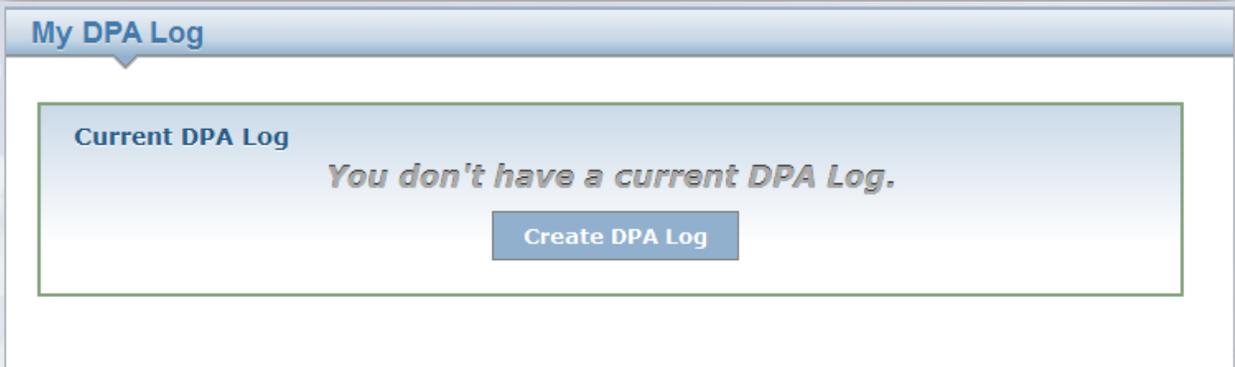

If you have not used the DPA Tracker before, you may see one or more of the following screens...

You'll see the screen below if you aren't logged in.

The screenshot shows a web interface titled "My DPA Log". Below the title, there is a message: "You aren't logged in...". This message is followed by two separate boxes. The first box contains the text: "You must have a STUDENT ACCOUNT to use the LearnNowBC DPA Tracker. If you have a LearnNowBC STUDENT ACCOUNT, please Log In now." and a "Login" button. The second box contains the text: "If you don't have a STUDENT ACCOUNT, you can Sign Up now." and a "Sign Up" button.

If you are logged in and new to DPA, you will see the screen below. Click the "Create DPA Log" button to get started.

The screenshot shows a web interface titled "My DPA Log". Below the title, there is a section labeled "Current DPA Log" with the message: "You don't have a current DPA Log." and a "Create DPA Log" button.

If you have a current DPA Log, you'll see the screen below.

**My DPA Log**

**Current DPA Log**

The below screen shows a current DPA Log at the top, and a list of previous DPA Logs below.

You can still add activities to a closed DPA log up until the point your teacher approves it.

Once a DPA Log is approved, it is read only.

This Log has been closed, but you can still add activities up until the Log's End Date.

These DPA Logs have been approved by your teacher and is read only.

### **2.1.2 Create DPA Log – Step 1**

Creating your DPA Log for the first time is a two-step process.

Step 1 is for you to identify your current “School of Record” and the approximate date you started attending.

We need to know your School of Record (which is a fancy way of saying “the school you go to right now”) so your teacher can see that you’re logging your activities and you can get the credit you deserve.

## Confirm School Information

### Student Identification

User Name: [blurred]  
Legal Name: [blurred]

### School of Record

Is the school below your school of record?

Your School of Record is the school that will report your academic achievement to the Ministry of Education. Please contact a representative from your school if you aren't sure which is your school of record.

### School of Record Start Date

Please select the date when you began attending this school

**Select District**

Please select your school [dropdown]

**Email Address**

Is your Email address correct? If not please take the time to provide us with your current Email Address.

[blurred email address] [input field]

**Save and Continue**

If you happen to be attending more than one school (it happens) and you aren't sure which school is your School of Record, please contact your school administrator or your teacher to assist you.

Once you have selected your School of Record and the Start Date, press the "Save and Continue" button, and we're off to Step 2!

### 2.1.3 Create DPA Log – Step 2

In Step 2 you get to enter a clever and meaningful name for your DPA Log. Don't get too adventurous because your teacher will see this.

You also can set a Log Start Date. This is usually the first day of your school year.

Entering your Homeroom helps your teacher when they are sorting through all of the DPA Logs in the school, so it's nice to enter that information too.

Don't forget to enter the grade you're in. You can't continue if you don't, and be sure to pick the right one.

Finally, carefully read the "Disclaimer" and check the box that confirms that you have carefully read the Disclaimer. This also means that you're cool with what you have just carefully read.

## Create DPA Log Step 2

**Student Log**

Now that you have selected your School of Record, you can create your DPA Log by giving it a Name and the date when you want to start logging your activity. Please note that any use of inappropriate language will be reported to your Principal.

When you click the Next button your new DPA Log will be created for you and you can begin adding activities to it.

**Log Name:**  (required)

**Log Start Date:** 2011 - 09 - 01 (required)

**Homeroom (optional):**

**Grade (required):**  (required)

### 2.3.2 Download DPA Log

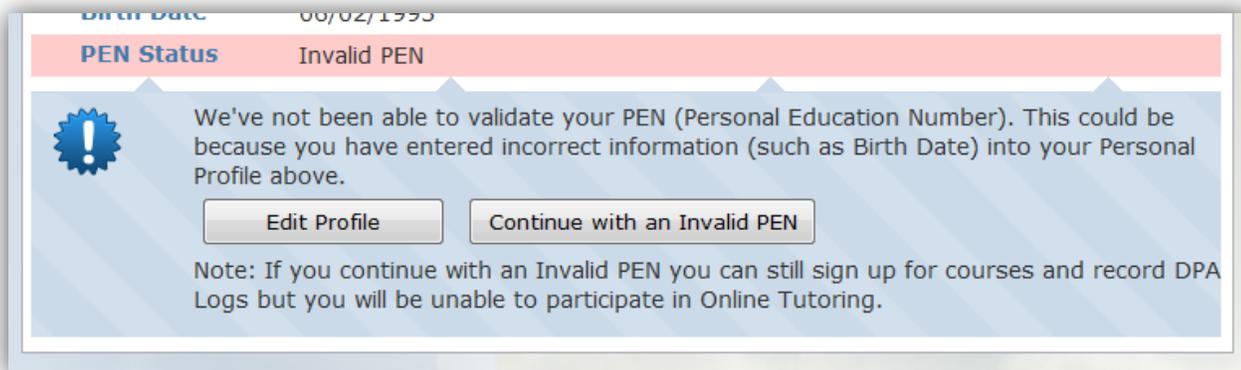

You can also download your DPA Log to a spreadsheet file using the *Download DPA Log* button on the View DPA Log page.

The file will be downloaded in Comma Separated Value (.csv) format, which can be viewed using available spreadsheet applications, such as MS Excel.

### 2.4 Adding PEN information

If you did not provide your PEN, or if the PEN you supplied while signing up for your LNBC account was invalid, a message will appear when you log into LNBC:

Click on the *Edit Profile* button and follow the directions to provide your valid PEN information to LNBC.

Note: Having a valid PEN not only helps you, but really helps your teacher, as they are unable to approve your DPA Log at the end of the year. *If they are unable to approve your DPA log, then you are unable to receive credit for all of your activities you've logged.*

If you would rather update your PEN later, then click the “Continue with an Invalid PEN” button and carry on.

### 3.0 myDPA – Web Application for Mobile Devices

If you're on the move and still want to log your DPA, then we have an app for that. Just navigate to the following address to use the mobile version of DPA:

<https://mobile.learnnowbc.ca/>

It is a streamlined app, designed to let you log your activities when you're away from a computer.

You can log a Single Activity on One Day, or log a Single Activity on Many Days. You can also add an exemption or view your log to edit or delete activities.

### 3.1 Background

Effective September 2008, the Ministry of Education requires that all students from K to 12 will participate in daily physical activity. Daily Physical Activity (DPA) is defined as endurance, strength and/or flexibility activities done on a daily basis which may be instructional or non-instructional based:

- **Kindergarten** - Schools will offer 15 minutes of Daily Physical Activity as part of students' educational program.
- **Grade 1 to Grade 9** - Schools will offer 30 minutes of Daily Physical Activity as part of students' education program. Lunch, recess and after school activities are acceptable to obtain the minimum 30 minutes per day for Grades 1 through 9.
- **Grades 10-12** - Students must document and report a minimum of 150 minutes per week of physical activity, at a moderate to vigorous intensity, as part of their Graduation Transitions Program.

DPA is a requirement for all students in BC, including those who are educated via Distributed Learning (DL). For DL at the K to 9 levels, the DPA requirements will become part of the Student Learning Plan, which outlines required areas of study, including anticipated timeline for completion. A special consideration for K-9 Distributed Learning students is that physical activity done in the home or community is considered part of the student's school-based time and would satisfy the provincial DPA requirements. Students and/or parents record the activity and report it according to the Distributed Learning school's instructions.

For DL at grades 10 through 12, the DPA activity will be integrated with the student's Graduation Transitions requirement. Starting in the 2007/2008 school year, Graduation Transitions replaced the Graduation Portfolio Assessment found in the original 2004 graduation program, and is worth four credits towards graduation. All BC secondary school students who are enrolled in Grade 10, 11 or 12 as of September 1, 2007, and beyond must demonstrate they have met the following requirements for:

- **Personal Health** - maintain a personal health plan and participate in at least 150 minutes per week of moderate to vigorous physical activity.
- **Community Connections** - participate in at least 30 hours of work experience and/or community service and describe what was learned.
- **Career and Life** - complete a transition plan and present significant accomplishments.

Grade 10-12 students who are cross-enrolled in a Distributed Learning school, and where the Distributed Learning school is not their School of Record, must meet the DPA requirements through their School of Record.

### 3.2 What's New?

A new screen allows students to log the same activity for multiple days within a month with a single click.

Students may review Broadcast Messages from their Educator on the View DPA Log screen.

DPA Logs at Bricks and Mortar schools will be automatically closed for the end of the school year on June 30<sup>th</sup>. Students may create a new DPA Log after June 30<sup>th</sup> to continue logging their activities during the summer, or at the start of the new school year in September, at the direction of their school.
